

Department of Environment, Great Lakes, and Energy  
 Bottle Deposit Revenue Programmatic Impacts  
 For Fiscal Year 2020

Overview

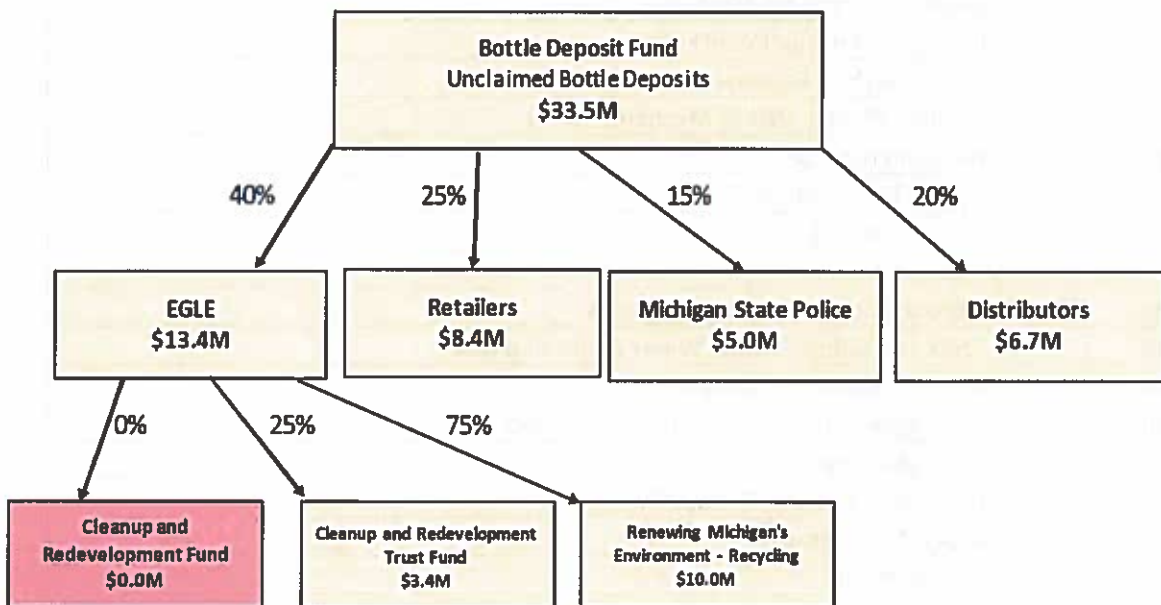

The revenue provided by the unclaimed bottle deposits supports statewide contaminated site cleanups efforts to protect public health and the environment. In addition, the funds facilitate brownfield redevelopment and provide grant opportunities to local units of government for waste reduction efforts. HB 5423 would significantly reduce EGLE's funding for existing efforts. Approximately 75% of the funding supports operational costs while 25% supports direct contaminated site cleanup costs.

Current

\* 75% supports operational costs and 25% supports direct cleanup costs  
 \*\* Fund can statutorily only spend interest and earnings. Grants were last awarded in 2016.

HB 5423

### Operations

The current proposal in HB 5423 would reduce \$20 million to the cleanup and redevelopment fund which is the primary funding source for 130 staff responsible for the oversight of cleanup of contaminated sites. Staff are located throughout the state as follows:

<u>Office Location</u>	<u>Number of Staff</u>
Cadillac District	9
Gaylord Field	9
Grand Rapids District	19
Jackson District	8
Kalamazoo District	16
Lansing District	16
Saginaw Bay District	16
Upper Peninsula	10
Warren District	27
<b>Total</b>	<b>130</b>

In addition, there are 30 staff who oversee and administer the 65 federal superfund sites. The staff costs are primarily supported by the contaminated site cleanup funding which is also applied towards the federally required match dollars.

### Projects

In fiscal year 2020, the 25% allocation that is used to support direct contaminated site cleanup costs will address the following 25 sites:

<b>County</b>	<b>Site Name</b>
Alpena	Former Werth Dry Cleaners Property
Calhoun	Enbridge Spill - Talmadge Ck-Kalamazoo River
Cass	Cass St Area Edwardsburg
Cass	U.S. Aviex
Delta	Gladstone Creosote Discharge
Emmet	Petoskey Municipal Well Field
Genesee	MDOT I-475 @ Saginaw St
Jackson	Michner Plating - North Mechanic Street
Kalamazoo	Haugen Property
Kalamazoo	Savage Rowe Plating Co
Kent	State Disposal Landfill
Lake	Austin Tube Co
Marquette	Historic CCI Iron Ore Tailings Ponds
Muskegon	Ambrosia Street Ground Water Contamination
Muskegon	Madison Street - Muskegon
Muskegon	Muskegon Convention Center - Well Head
Oakland	1181 Shallowdale
Oakland	Homedale Ave Area Ground Water
Saginaw	MDOT M13 Ramps
St Clair	I-69 Sampling

County	Site Name
Washtenaw	Forbes Dry Cleaners
Washtenaw	Jackson Cleaners
Wayne	Madison Heights
Wayne	Riverside Park (Parcels 1, 2, and 3)
Wexford	Kings Cleaner (Former)

In addition, for fiscal year 2020, the staff funded from the cleanup and redevelopment fund currently oversee the 88 projects listed below as well.

County	Site Name
Allegan	Otsego Area Study
Alpena	Alpena Airfield
Antrim	Tar Lake
Barry	Kavco Landfill
Bay	Euclid Ave. 300 S. Bay City
Bay	Former Salzburg Cleaners
