Some people who received this message don't often get email from bfisher@usw.org. [Learn why this is important](#)

Dear Chair Howell and Clerk Wingrove,

As the United Steelworkers International Union representative for the Tilden Mine Locals represented by Presidents Anderson and Ruokolainen, I second their concerns about House Bill 6403. Tricia and Dan work in the mines alongside our members every day. They are the subject experts that our Representatives in State government should be listening to when it comes to making decisions regarding mine inspectors and inspections.

I would encourage you to honor their request to stop this legislation, and to reach out to them to listen to their concerns and advice on how to proceed. To ignore their fears about the effects of this legislation could potentially have dangerous consequences for our members, other mine workers in the State of Michigan, and to the public at large.

Sincerely,

Bryan Fisher
USW District 1, Staff Representative

Dear Chair Howell and Clerk Wingrove,

It has come to our Local's attention that House Bill 6403 is scheduled for tomorrow's committee session. Due to short notice we are unable to attend this meeting in person. We are concerned this bill goes too far in limiting the power of our County Mine Inspector. As the 2 Union Locals that service the Tilden Mine, we feel that the safety of all miners is of the utmost importance. We believe all mines in Michigan should be inspected by a duly elected Inspector (County or State, not just at the Federal Level) that represents the interests of the community, miners and not just corporations. We do not agree with the proposed change to only inspect ferrous mineral mines.

Our other concern with HB 6403 is the elimination of inspections of abandoned mines at the County level. We would however, be ok with the State taking over this important responsibility of keeping abandoned mines safe. There have been many injuries and even deaths that have occurred in these dangerous abandoned areas. We must also remember, many of these mines are the final resting ground for numbers of workers that remain there to this day, who paid the ultimate price in the name of building this State and Nation.
