**Subject:** Bill 4667

.Taylor Thrush,

I'm writing in support of bill 4667. We can't allow vaccine passports. They are discriminatory. They are coercive. People who already have had covid-19 have immunity. The vaccine has not been shown to stop transmission. And private medical information should be protected, not shared with 3rd parties.

Thank you,

Mel Nappi, Grand Rapids

**Sent:** Thursday, May 6, 2021 12:22 AM  
**To:** Taylor Thrush  
**Subject:** HR4667 - Support Banning Government Vaccine Passports

I am writing to you today to ask you to protect our rights by supporting HR4667 that would ban vaccine passports in Michigan.

The vaccine passport, or any variant of, is unconstitutional – it violates our right to privacy, our right to medical freedom, and the right to bodily autonomy. All of these rights are constitutionally protected!

It would be unacceptable to not protect every Michigan citizen.

Any type of social passport is discriminatory. For those who fight for a “woman’s right to choose” regarding abortion, it would be totally hypocritical to support a vaccine passport. I have a right to choose what I believe is best for me and for my body, without fear of repercussions.

**Be consistent with your stand on “MY BODY – MY CHOICE”.**

**Please do the right thing and support HR4667 to ban vaccine passports.**

Sincerely,  
Sondra Cross

**Subject:** Vaccine passport

Taylor Thrush,

We must NOT allow the vaccine passport. This is extremely dangerous. It not only infringes on our God given rights and freedoms, but is a violation of our healthcare privacy. It is a step to communism which terrifies me. We must fight for the future of our children, grandchildren and generations to come. I will NOT be bullied into taking a vaccine just to be allowed to do what the constitution allows me to do as a free US citizen. You must fight for your people of Michigan.

Thank you,

**Sent:** Thursday, May 6, 2021 5:34 AM  
**To:** Taylor Thrush  
**Subject:** Vaccine passport is a NO

I VOTE NO on Vaccine passport. Violates my freedom. Health issues are a private issue thats why we have HIPPA laws. Its not approved by the FDA. Its still experimental and I choose not to participate in this trial. Thats my right. It does not protect me from any virus and the studies I have read, it ruins a healthy immune system. If the Governor would not block HCQ or Ivermectin from being used then we would not have the hospitalizations or deaths. Its working in other states we Humans in MI are no different. The side effects from these drugs are less than the side effects from the vaccine. If she continues to say well it doesnt work on everyone then lets ban all prescribed drugs and chemotherapy. NO ON VACCINE PASSPORTS!!

**Subject:** Vaccine passport

As a constituent of Michigan I'd like to share my opinion on the passport. It is a waste of taxpayer money and time. I have antibodies because I've had COVID and have no intention of getting vaccinated. It is not the governments business how I make health decisions that don't have any repercussions for anyone but me. If this comes to pass, it will be one more reason to look to another state. Michigan has lost its charm and I'm tired of spending so much time fighting our government for every little freedom.

**POSITION: SUPPORT**

**NAME: Jaclyn Parrinello**

**REPRESENTING: passports hearing**

Everyone should have the right to decide when and if they want to be vaccinated. Some side effects can be harmful and un some may actually kill some people. This is still experimental and many areas on the vaccine and longterm effects on the body haven't been researched yet. To force or bully a potential harmful product to some onto the public and say there are places they can't go if they don't put this substance into their bodies is discrimination. Not all humans and the human body will react to the vaccine the same. This vaccine may cause harmful effects including death and some are still unknown due to the lack of studies. This decision would unconstitutional. Every person should have the right to decide what kind of substance they want to put into their body.

In upholding your oath to the Constitution of the state of Michigan and the United States I implore you to not mandate a vaccine passport.

Restricting access to businesses or services based on an shot that is in its experimental stage until 2023, has proven to have many adverse effects (VAERS) including death is a direct breech of The Nuremberg Code.

Please represent the people of this state by allowing free choice over our bodies and health decisions.

Thank you,

Dear legislators,

I am writing this email for the purpose of informing you that Michigan people, and we the people do not want vaccine passports allowed anywhere, including Michigan.

We the People are your boss, and you are paid through our funding through taxes, and donations and the ones who choose whether you continue your job through the election process. This is not a request but rather a demand to do your job and listen to the people.

No vaccine passports ever!

I reside at 10340 Midland Rd, Freeland, MI 48623. My phone number is 989-708 5553 should you have any questions or concerns as to why this cannot happen I would be happy to have an open discussion with you.

Sincerely and respectfully,

Linda Cox, registered voter in the state of Michigan.

Good evening,

Thank you for responding to our action alert. We had a large team of volunteers hand-writing cards to submit in support of HB 4667 tomorrow at the hearing. We have never seen such a strong response to one of our calls to action. Literally, we had thousands of requests.

We will be submitting a stack of over 1500 cards tomorrow at the hearing but couldn't get to all of them.

We ask you email the Committee Clerk, Taylor Thrush, at [TThrush@house.mi.gov](mailto:TThrush@house.mi.gov) NOW to be sure all voices are heard. Just answer the following questions in your email.

**Subject:** Vaccine passports

Dear Taylor Trush,

I am writing as a citizen of Michigan. I would like my voice to be heard that I absolutely just agree with vaccine passports. There is too much government regulation at this point.

Covid vaccines are not even FDA approved , hurst EUA.

I am a healthcare worker a physician assistant working the front lines and I vehemently disagree with in forced vaccine passports .

please let my voice be heard.

Sincerely

Heather Baron

**From:** Claire Nelson <julienel.math@gmail.com>  
**Sent:** Thursday, May 6, 2021 7:17 AM  
**To:** Taylor Thrush  
**Subject:** HB 4667

Good morning! I understand that there will be a hearing on HB 4667 today and a vote on Thursday, May 13. I would like to voice my support for this bill to protect the people of Michigan from discrimination that would result from any kind of "vaccine passport." Strong-arm tactics to coerce citizens to accept inoculation with a drug not fully tested, whose side effects are being discovered in real time, is a clear violation of the constitution and the tenets of responsible medicine. I continue to be stunned by the number of people who submit to this injection, believing that it is "safe and effective" and genuinely do NOT realize that human clinical studies are not yet complete. I prefer to wait for this drug to be properly studied before I choose to be injected, just like with all of the other vaccinations, drugs and medical procedures that I have ever had. At the present time, I feel that the risk of long-term harm associated with the still-experimental mRNA drug is at least as great as the risk of long-term harm from the virus itself (which for a person of my age and health status is less than 0.5% according to CDC data). Taking on unknown risks when the known risk from the actual disease is so miniscule seems irrational and foolish to me.

Please be a voice for good sense and reason on the behalf of the citizens of Michigan. For those who are willing to incur the risks of taking an experimental drug, the opportunity is out there. BUT for those of us who desire proper scientific testing, value the protection of the FDA protocols and want to wait until the safety data is complete, we need you to support this bill with your vote and with your voice.

I support Bill 4667 "Covid-19 vaccination privacy act." I am against forced vaccinations and the vaccine passport. Americans have the right and freedom to decide if they wish to receive the vaccination or not. Medical treatments of any kind are an issue to be decided between a patient and the doctor and never forced or coerced by government.

there is no reason to take away are freedoms and well aaron and pamela foote do not approve of this at all all you are doing is causing panic and fyi they are still consider trials until 2023 or 2024 depending on the shot and why is there only one you only need one shot for and the others you need to thinking a passport for covid shots dont work due to you can still get covid 19 after the shots so the passport is a no thank you should not be put in to law and shots should not be made necessary until 2024 when it is not trials then if you still require a passport you are taking freedoms away that is not right thank you for counting our votes aaron foote pamela foote 512 erie st adrian mi 49221

**Subject:** Support of Bill 4667

Good morning Taylor to whom it concerns,

I am emailing in regards of Bill 4667. I am in FULL SUPPORT of this bill and honestly can not believe I even have to write this email as a life long resident of Michigan and a United States Citizen. All medical procedures are private (HIPPA laws) and any medical procedure that comes with a side effect of death or any adverse reactions there ALWAYS must be a choice. These vaccine passports are just a way of coercion and manipulation. Again, I can't even believe I have to write this email, this is not a communist country but unfortunately our leaders are taking us down that path.

**Sent:** Thursday, May 6, 2021 7:51 AM  
**To:** Taylor Thrush  
**Subject:** Vaccine Passports - HB4667

Hello Taylor,

I had registered to attend the hearing this morning but will not be attending now.

As a lifelong Michigan citizen I would like to share my view on the matter so that it can be considered.

I am opposed to any form of vaccine passports and urge our Representatives to pass HB4667.

I believe it is unacceptable and fundamentally wrong to restrict the rights of individuals based on their personal health decisions or vaccine status. It's even more egregious to discriminate against those who refuse to receive an experimental vaccine for which there is basically no recourse in the event of injury or death.

Vaccine Passports would be a very dangerous violation of our freedoms.

Sincerely,

Judith Thompson

**Subject:** HB 4667 Support and testimony for hearing

I am emailing to say NO to vaccine passports.

About 3-4 years ago, I got a letter in my preschoolers backpack saying how so far 30 kids died from the flu in Michigan. And all they advised in the letter was to take all necessary precautions. Wash hands, and if you are sick stay home. why was there no hysteria, shut down, mask mandate, and vaccine mandate then?? And the argument that "Covid is not flu" is null. Because it has a 98-99% survival rate in healthy people of like 60 yrs old and younger. The ONLY health professionals that these tyrannical political "leaders" listen to or heed are those being PAID to say such things and GAIN something from lying to the public about this virus!!  
AND BEING VACCINATED YOU CAN STILL SPREAD AND GET THE VIRUS. It is ONLY suppose to protect those who take it!!!  
It has NOTHING TO DO WITH OTHERS AROUND YOU!!!!  
THIS VACCINE PASSPORT IS UNCONSTITUTIONAL!

Teresa Current

Hello

Please support the bill HB 4667. I feel this is the steppingstone of losing the peoples' freedom of choice in the United States when bills like this aren't passed. Everyone should have the right whether to take a vaccine shot or not. Have control over what is injected into their bodies no matter what the government is saying. If vaccine passports are produced or issued and required, that takes away peoples right to not be vaccinated if they want, and to conduct their life normally like attend events, fly on an airplane, enter certain stores, etc., only if they have a vaccine passport. I feel like the United States is turning into a communist country. I want our representatives to hear the people. I do not want the government to control what is put in my body and have to show a passport for it or not, in order to conduct my life normally. If we have to show passports wherever we go, we might as well be in a communist country. Please support the HB 4667 bill.

Thanks,  
Jan Stone

**To:** Taylor Thrush  
**Subject:** Vaccine passports

I, not any member of my family will be getting this 'vaccine' my education, intelligence, common sense and intuition tell me EVERYTHING about this Scamdemic has been wrong! You do NOT stop people from living, working, attending school, places of worship or shopping for a COMMON FLU VIRUS-EVER! I have known since March 13 when I walked out of the school I worked at that this was going to get very bad but I couldn't guess this bad. Government and the media are out of control trying to CONTROL US! My father taught me young to trust no one and question everything. He also taught me to LEAD, never follow even if no one was behind me. I am 63 and have never had a flu shot or the flu. I rarely get sick because as a child I was constantly sick-humans NEED to be exposed to bacteria, viruses and germs to keep from going extinct. It's how we develop a strong IMMUNE SYSTEM! I learned this in 6th grade science!!! Far too many people playing God these days and I can guarantee He is not happy! I've lost more than I could say to this nightmare but NONE from this faked virus. Today is the one year anniversary of my beautiful mother-in-laws death. She starved to death following a fall in an assisted living facility. My husband, her only living child, was never informed.

I sickened to be living in not only Michigan but this country and it makes me more than sad. I angry and the stupidity and crimes against humanity over a COMMON VIRUS with a 98.6% survival rate. I know they have lied about the cases and the deaths.....all as a part to scare us. My father always taught me to NEVER be afraid. 'If they can scare you they can control you' he said. What scares me most was how many brainwashed sheep and fools are walking around. My adult son is struggling with such severe depression because, due to a cleft birth defect which has left one of his nasal passages more than 85% blocked, he CAN NOT wear a mask. Breathing is difficult without one and impossible with. He's been denied dental and medical care! What is wrong with humanity? How do we treat people this way fit something that has existed since the dawn of civilization.

End this nightmare and try to remember ALL of us are here on this planet but the BLINK OF AN EYE. WHY do a few insist on wanting so much power and control when we are all BORN TO LIVE FREE AND IN PEACE.

May God forgive us for what we've done to our children and elderly. I will NEVER follow any government laws or mandates anymore because when the lawmakers who make the laws break the laws, there are no laws.

Joan Brown

63 years of WISDOM, common sense and logical thinking!

**To:** Taylor Thrush  
**Subject:** Vaccine Passport Bill

Hello Taylor,

Hope you are doing well! I wanted to write in order to give my testimony regarding the HB 4667 committee hearing on Thursday evening as I'm not able to make it.

I am writing in support of the bill that would prevent the government from using vaccine passports or providing incentives for using a passport. I support their prohibition because I strongly assert that sharing my personal Medical information with a business or to be able to do certain things is a direct violation of my privacy. I would argue that it's a violation of HIPAA law. Not only that, a direct violation of my own personal medical freedom as a human being.

I am a young professional who has medical issues that would be greatly worsened though severe allergic reaction to a COVID shot. Contacting the virus is less risk for me. Even beyond that, but there is practically zero evidence or study's in how the shots effect fertility and female organs. Just like the argument for abortion that says "it's my body, my choice," when it comes to my body - it's MY CHOICE to take the risk to my ability to have children in the future, and that price is too high (outside of the fact I cannot medically tolerate it).

Back to Vaccine Passports. The information I shared is private, that I'm opting to disclose, but I don't think I should have to share that with anyone simply to do business. In summary, I think it's a violation of my inalienable constitutional rights that someone else would have access to that information, but also it's is a step closer to mandated shots, which would rob people the ability to choose what is best for themselves and their own body. Have you ever had a chronic illness with intense pain and deep suffering? Probably not. It should be an individuals personal decision on what they decide to put themselves at risk with, and individuals on either side should not be treated differently because of their own personal medical decisions.

The reality is, we are each responsible for our own person. And each have a right to our own decisions.

Please note my support of the HB 4667 bill to ban vaccine passports in MI as it's a violation of my privacy.

Thank you!

These are very dangerous and would change our lives as we know them. They would destroy health privacy and could easily become a social credit system like they have in China. They could easily switch this over to a social credit score system. This is what the medical tyrants need to take control of our society.

Thank you,  
Linda Berch

**Subject:** fight for the people

Dear Honorable Thrush,

I write to you out of deep concern for my family. Medical shots and vaccines should always be a decision that families and their doctors make together in an informed manner. Having government force any vaccine or biomedical experiment on you in order to maintain your freedom, is wrong, unconstitutional, and a dangerment to our health and well-being. It is clear that the mainstream is using this crisis of covid to highjack the American people and using slimy tactics to do so, = implementing a shot that isn't proven long term for a disease that the overwhelming portion of the population has a 99.9% of surviving and handling well, not to mention using tax payer funds to bribe people into getting it. Everyone's situation is different of course, and people need to make decisions that are best for them and their family. Shots and any medical procedure that carries risk should always be a choice.

I hope you and your committee remember that as you meet and discuss on behalf of the people you serve.

Thank you,

Rachel E.

**Sent:** Tuesday, May 4, 2021 9:16 AM  
**To:** Taylor Thrush  
**Subject:** Vaccine passport

Committee Members,

As a woman with Native American roots in the Cherokee Nation who had a grandmother labeled and forced into a reservation as a little girl and someone who has many Jewish friends, as well as someone who knows our Bill of Rights and Constitution and the protections of my freedoms it affords, I find the idea of labeling any American based on their personal health choices to be unconstitutional and abhorrent. Anyone with hepatitis, AIDS, HIV, or any other deadly infectious disease can walk around freely. Shall we label them too? Covid has over a 99% survival rate, yet the vaccine has one of the highest harmful/deadly reaction reports of any vaccine. We have NO idea what the future holds as the immune systems and reproductive systems of the vaccinated are tested by other illnesses and fertility. Does HIV or AIDS or hepatitis have a 99% survival rate? No! Why not label them with a warning? By not labeling the unvaccinated you are doing this very thing to them by stigmatizing them. And for nothing! Did we issue vaccine passports for polio, measles, chicken pox who were vaccinated? No! Were these illnesses still irradiated even though not every American took the vaccine through herd immunity? Yes! This whole idea of vaccine passports is nonsensical, without legal merit, destructive, discriminatory and would not help any American, but only hurt and would strip our liberty and the pursuit of happiness.

The most you can do to stop the spread of Covid in our state is to STOP the buses that are coming up to Michigan with illegals who are illegally crossing our southern border who are testing positive for Covid, or not tested at all, yet they are being allowed into our communities by the Biden administration with no vaccine passports, identification, test results, quarantining or vaccinations, yet, some would want to put these labels, requirements, restrictions and stripping of rights on Americans? Not going to happen. Americans as a whole will not comply and this would end up on the Supreme Court where it would be overturned. The mere idea of a vaccine passport is an obvious infringement on American citizen's rights.

Thank you for your time.

Kindest Regards,

Judy Keyes  
8th District

**To:** Taylor Thrush  
**Subject:** HB 4667

Good morning.

I am writing today to simply say that HB 4667 gives me hope that my little girl will get to live a bit longer and without complications...I was never an anti-vaxer until she almost died from a vaccine. At that time, she had received multiple vaccines at one visit, so we were unaware of which vaccine caused the issue...still clueless, I allowed her to get a booster months later and had the same reaction. Both times, she turned blue, stopped breathing, was seizing...when hospital nurses begin to worry, you know it isn't just your motherly instincts making you neurotic. I am still not anti-vax, I simply prefer to do more research on the quality of products used, efficacy, etc before agreeing to inoculate my children. I also look at their health and their immune systems and assess their bodies' ability to fight off infection. All of this said, the misinformation continuing to circulate about COVID and the rush to come up with and mass distribute a vaccine is concerning to me. The thought of having our lives ruled by how many and what types of vaccines we have? This is truly terrifying for those of us that may not be able to live through the side effects. I understand wanting to lessen loss of life, but why is my daughter's life less important than someone who can handle the vaccine? I just wanted to share my personal testimony with you today and share my support for HB 4667. I have always loved America because I was born here. FREE. These passports seem very much like another step toward isolation and away from true freedom.

Please submit my testimony.

My name is Michelle Mulliniks, I'm the surviving parent of a 17 month old daughter who died suddenly after receiving her vaccines. I do NOT support a bill that would mandate a person or child that requires forced vaccination or proof of vaccination. We have legal rights and Michigan is trying to strip those rights from us.

This bill also violates a persons HIPPA law rights. This is unethical and immoral. I have two children at risk of suffering adverse reactions, including death, from vaccination. They have a right to be protected and so do I. Please, vote no against this bill.

**From:** Meredith Smedley <drmsmedley@gmail.com>  
**Sent:** Monday, May 3, 2021 3:16 PM  
**To:** Taylor Thrush  
**Subject:** Oppose vaccine passports

As a free American citizen, I oppose vaccine passports. I have the right to reject an experimental therapy that is given for a disease that I have a 99.8% chance of surviving. Since we have seen vaccinated people contract COVID, the argument that I need it to protect others is mute. We have also seen that this experimental therapy is not without dangerous side effects, including death. According to VAERS, there have been over 3000 deaths attributed to the therapies in only 4 months. Havard had done a study that showed only 1% of injuries were being reported a few years back. If this has remained consistent, deaths from the vaccines could be 300,000.

All of this being said, I oppose anything that would coerce our citizens to unwillingly take an experimental therapy to enjoy the freedoms that are already ours. If people want to have the therapy, that is their choice. If people don't want to take it, that is their choice. There should be no reward or penalty system involved in the decision to take an experimental therapy. Protect our citizens and OPPOSE vaccine passports.

Representative Steve Johnson and Committee Members:

I wish to offer support for HB4667 Banning Government Vaccine Passports. As a life-long chiropractic patient, I have had very few vaccines during my life. I believe it is my body, my choice. My rights come from God and He does not require me to be vaccinated or carry a passport.

I am a healthy, 73-year-old and do not think the government should be in the business of requiring me to have this kind of "passport" in order to be involved in daily life and activities.

I pray your committee will move this bill forward to the House and Senate for a vote so the state bans government vaccine passports here in Michigan.

Thank you all for your service to our state.

D. Jane Vanderleest

**Subject:** HB4667

Dear Taylor,

I am writing to support HB4667.

I believe that allowing vaccine passports is a slippery slope that could eventually lead to government control over every aspect of a person's life.

Also, as the mRNA vaccines for Covid 19 have unknown long term effects, a business or employer mandating them before the end of trials and Certification by the FDA is not only intrusive, but illegal. And as a person that has had severe allergic reactions to Medications, I have been advised getting the vaccines that are currently available. It would be extremely unfair that I, and others like me, would be unable to participate fully in life because we are medically unable to take a vaccine.

Most importantly, Government does not have the right, or expectation, to make decisions on citizens' health. especially when they refuse to look at scientific data and studies that counter the narrative that they are promoting. Most American's have over 99% chance of surviving Cocvid 19. And there are therapeutics available to treat Covid and to work as a preventative. there is absolutely no reason to demand vaccination for healthy people or to pressure them through punishment of living life, indirectly through employers or businesses.

Sincerely,  
Mary Harp  
Madison Heights, MI

**From:** Yahoo. <limpastato08@att.net>  
**Sent:** Monday, May 3, 2021 2:28 PM  
**To:** Taylor Thrush  
**Subject:** Vaccine Passport

To the House Oversight Committee:

I am appalled to think this covid issue has come to this much infringement on my personal freedoms. I am not required to carry any other vaccine proof, why should this be any different? As there has been so much deceit thrown around, I cannot believe anything to be a true fact.

I will not be receiving any covid vaccine. I have never been vaccinated for any flu in the past, I see no reason to change my opinion now.

Coincidentally, my doctor explained, with the allergies I have, it is best for me to stay away from any vaccine. This was decided years ago.

Currently, I have been diagnosed with metastatic liver cancer. With reduced liver function, I would never introduce this vaccine into my body.

And my final reason, I do not trust my own government and the information released regarding this vaccine.

You want to force this vaccine on us and then force us to carry proof? How dare his group of legislators even suggest either of these actions.

I ask that this issue be turned down. I find it a total contradiction of my rights put forth by the Federal government many years ago.

**Subject:** Michigan House Bill 4667

To Whom It May Concern:

The purpose of this communication is to write in support for Michigan House Bill 4667.

The reasons for doing so are simple. Healthcare Privacy is a right. Vaccine Passports or any version therefore would infringe on an individual right to privacy in matters related to health. No data application should hold carte blanche on an individual's right to fully participate in a free society.

Especially one that would allow personal healthcare information to be passed around to the possibly the highest bidder" We are a better state than this in Michigan. If Governor Whitmer Vetoes this rightful measure, it is a hope that the votes are in Michigan Legislative Chambers to override this action.

Thank you for your time.

Sincerely,  
Monica Williams

**Subject:** Vaccines

Dear Taylor,

I am writing you today because I cannot come to the hearing on Thursday. I urge you to take this email as my way of standing up against vaccine mandates. These vaccines are not proven and are a complete violation of freedom. I have several friends with children that have been injured by vaccines that are proven, and the thought of mandating these experimental vaccines is terrifying. I don't think the detrimental outcome of what enforcing something like this will do to many Americans has been considered. Please stand up with us against this horrific consideration and say no to mandating vaccines and requiring vaccine passports. I pray God moves you to do the right thing for our free country and people.

Jill Goote  
Jenison, MI

**Subject:** Vaccine passports

It is very concerning to me that any agency or business in Michigan would require anyone to receive a vaccine that has only received emergency authorization from the FDA. The long term effects of this vaccine have not been studied, especially for young healthy individuals who would recover from a virus which mostly has adverse effects on older adults. There are reports of severe effects from the covid vaccines- even death! People should not be coerced to receive vaccines, especially experimental ones, which carry such risks! Please oppose vaccine passports!

**Subject:** Mandatory Covid-19 Vaccinations

To Whom It May Concern:

I am writing to let you know that I am opposed to any legislation requiring Michigan citizens to get the Covid-19 vaccine(s). They are experimental in nature and not enough research has been conducted to deem them safe. Traditional vaccines prevent the disease. The Covid-19 vaccines do not prevent catching Covid-19 and studies have shown this. It is not a "vaccine" also since it comprised with artificial components of mRNA, which itself is experimental.

I am a RN working in Occupational Health at this time. Currently now, the emphasis is on Covid-19. I have seem scores of employees who have tested positive for Covid-19 subsequent to their "vaccinations". I truly believe this is unsafe and I have opted to never get it. And we are not required to under the Nuremburg treaty. I do not believe this "law" should ever be considered.

Please to not vote to bring this up, much pass it.

Thank you,

Jolene L Holtz

**Subject:** HB 4667

Hello,

I was born and raised in Michigan. I'm a licensed registered nurse in Michigan. I ask this Committee to please support HB 4667. We are at a pivotal moment in our history that could forever effect both our personal and health freedoms. Please preserve the rights of each person in Michigan to make the choice that's right for themselves regarding vaccinations.

Thank you for your consideration,

Deirdre Laviolette, RN  
Ortonville, Michigan

**Subject:** I support HB4667

To Whom It May Concern:

I would like to on behalf of my family and myself, give testimony to supporting HB 4667. We hold religious and other beliefs about being forced to receive vaccines in order to live a "normal" life in society.

As Americans, we should be allowed to choose our own medical choices. It is both a travesty and disheartenment that our government should so choose for us.

I worked for Pfizer for over a decade and am very educated on both sides of the argument for and against vaccines. We choose not to receive them. However, feel anyone who wants to choose or not to choose a medical "treatment" should be allowed to exercise that God-given and constitutional right. After all, the argument we have been told for years regarding abortion is that it is "my body, my choice". If the law allows a woman to abort a fetus then the law should also protect a person from being forced to put a foreign medication in their bodies. And when the general society is demanding the vaccine, it is not prudent to ostracize those that choose not to. We shouldn't have to restrict travel, stores shopped and such in order to exercise our rights to these once considered basic freedoms.

It isn't about whether you think vaccines are the best or worse choice, it's about allowing citizens to choose their own medical decisions and allow each person to have their own religious and philosophical beliefs.

Please support HB 4667.

Thank you,

**Subject:** No to mandatory "experimental" covid 19 passports or shots!!!!!!

We support HB4667. No to mandatory "experimental" covid-19 vaccine passports and shots. The VAERS system shows the high death rates, injuries to the United States of America citizens.

Women having miscarriages, and sterilization. Strokes and heart attacks to both men and women, bell's palsy. This is absolute insanity!!!!

These "experimental" covid-19 vaccines don't even stop covid! !!!!

There are simple remedies to stopping covid-19, but were denied by our own governor Whitmer, who let me remind you is not a doctor!

Hydroxy chloroquine, zinc, vitamin c, vitamin d.

In proper ppe training, masks are not to be worn out in the public. In the health care setting and in patient rooms with tuberculosis, and OR rooms only. Touch the mask JUST ONCE and dispose in proper medical waste containers. Where are the medical waste containers???????

No one should be taking these "experimental" covid 19 shots.

The health departments across the state of Michigan are not giving informed consent. Our elderly are not being told that they are taking part in an experiment, nor are they being given insert packaging to the vaccine, before they take it.

Every person is unique, you cannot use a blanket approach to mass vaccinate the population.

And why should people take a shot for a virus that they already had? You are causing the immune system irreparable harm.

This virus swept through the upper peninsula of Michigan back in November 2019-March 2020. MDHHS knows this for a fact!

Stop vaccine passports, support HB4667!!!!!!!!!!!!

Sincerely,

Karen

**Subject:** Testimony Supporting HR 4667

I highly approve of the bill that would prevent vaccine discrimination!

America was founded on the principle of self determination and individual rights. Never in my lifetime could I have conceived that I would be forced to inject any substance into my body against my wishes. It is my right under HIPAA laws to make informed and PRIVATE decisions about my health. Additionally, the rush to judgement on the safety and effectiveness of current COVID vaccines gives me great concern, and I will not make my health part of an experiment on vaccines that are not yet fully approved.

I support all legislation that protects my rights to make informed medical decisions for myself. Support of HR 4667 by legislators is vital. I will be watching to determine which legislators support my rights, and my future ballots will support those who uphold my rights.

Respectfully,

David Martin

**Subject:** NO to vaccine mandates/ passports

dear Sir/ Madam:

as a senior in Michigan for 60 plus years, i have a long view of history.  
as a parent of a vaccine injured child, who died from the seizures caused by his childhood vaccines, i am 100% against vaccine or vaccine passport mandates.

where there is risk, there must be choice in a free society.  
if people do not have freedom over their own bodies, then they are slaves.  
the USA Constitution guarantees Life, Liberty,...." as in the number one Right.  
the Nuremberg Code says that the Rights of the Individual always supercedes the rights of the group( "common good") scientific experiments are not allowed without fully informed consent, which includes the right to say NO to any bodily, medical intervention. even if it would benefit society.  
that Jacobson Case did not enforce the vaccination of the plaintiff, it only fined him.  
please vote YES to protect us from vaccine mandates.  
thank you

**To:** Taylor Thrush  
**Subject:** Vaccine passports

To whom it may concern,

Please rule against vaccine passports. This is especially concerning to me as my husband has bad reactions to vaccines and he should not be asked to do anything that could cause him bodily harm or risk his life to be able to participate in anything. My father in law also had issues with vaccines in the past so with a clear family history we are very careful and do a lot of research on any vaccines for our children.

As for myself my health information is something I feel is very private. I don't broadcast if I've gotten the flu shot and I'd prefer not to have to share my personal private health information, protected by HIPPA, to make others feel better or participate in everyday activities like vacations, going to the zoo or museum, work, etc.

I have to add that my faith and trust in our legal system and legislation is almost nonexistent at this point. I want to believe you are for the people but this last year has shown that to not be the case. I'm tired of not having a say in my own life or being able to choose what is best for my own family. Fact of the matter is not everything works for everyone. We are not the same and as Americans have the freedom and right to decide what is right for our own circumstances. Thank you.

Theresa Chalko

**Sent:** Tuesday, May 4, 2021 3:26 PM  
**To:** Taylor Thrush  
**Subject:** testimony on HB4667

Taylor,  
The following is my official testimony for Thursday's hearing:

Vaccine passports are a slippery slope and go against what America was founded on: freedom.

As a mother of 4 children, I'm very concerned that, if we choose to wait to get a vaccine when they are approved for kids under 16, my children will be excluded from activities that are necessary for their growth and social/emotional development.

To separate society into haves and have nots is not the way America works; this potential discrimination must not be legislated. Michiganders must retain the right to make choices about their own medical care, whatever that care may be. Even the ACLU has spoken out against vaccine passports. Passing HB4667 is a vital step toward ensuring liberty in the state of Michigan, protecting our medical privacy and bodily autonomy.

This issue really isn't even about vaccines or a particular vaccine. The bottom line is that the government should not have the power to mandate health activity, and the free people of Michigan thank you for making a wise, democratic decision on this matter.

Please pass HB4667.  
Thank you,  
Kathryn Kimball

**Subject:** Testimony

To whom it may concern,

Requiring a vaccine passport is only going to further the separation of our country. How is this any different than having a white water fountain and a colored water fountain?? How is this any different than labeling the jews? Now we are not separating by color but by beliefs. Only people who follow what we believe are allowed to live freely. Everyone else can have "freedom" but only limited. This is wrong. All of it. We are being manipulated. We do not have freedom. This is not a "free" country if we are required to have this vaccine passport to continue to live our lives. Having this mask mandate until everyone is vaccinated is coercion. Requiring us to always have our vaccine passport on us as a form of identification is coercion. Give us our freedom back. Let us live freely again.

-Stephanie

**Sent:** Tuesday, May 4, 2021 6:11 PM  
**To:** Taylor Thrush  
**Subject:** Support HB 4667

Please support HB 4667. I'm against the unconstitutional and unjust proposal to create so-called "Vaccine Passports" or similar type of Governmental sponsored or overseen plans for Businesses to usurp our Rights as Free Citizens. Neither the State of Michigan nor the Federal Government has the legal or moral authority to demand its people submit to such an unprecedented invasion of their bodies.

No man, woman or child should be ostracized from society because he or she chooses not to take any medical intervention or so-called "vaccine." To permit this would be discriminatory and an unconscionable violation of our Human Rights and Dignity.

As a Disabled woman, I'm horrified at the prospect of being denied access to public spaces such as grocery stores or post offices because I choose to not permit an experimental Covid "vaccine" into my body, especially seeing its makers all admit their products cannot prevent infection or transmission of the virus. As each day passes we're learning more about the dangerous and deadly repercussions from these rushed, non long term studied so-called "vaccines."

I'm a Human Being and not merely pharmaceutical cannon fodder to be toyed with and forced to act against my Conscience. If those in Local, State and Federal Government fail to grasp the wisdom of Doing Unto Others as They'd Have Done Unto Themselves, we're no longer a Free Nation built upon principled Liberty but a devastated and tyrannical encampment enslaved by fools.

Please support HB 4667 for the greatest good of the people in Michigan and to protect our Right to Life, Liberty and the Pursuit of Happiness.

Sincerely,  
Bridget O'Donnell

**Subject:** HB 4667

Hello,

I would like to support HB 4667. I do not believe our government should force individuals to take an experimental vaccine. There are no long term studies to confirm the vaccines are safe.

This should be an individual's choice if they want to vaccinate or not. If the choice is to not vaccinate then that individual should not be an outcast of normal daily American life.

Currently the state of Michigan is not lifting restrictions until the majority of citizens vaccinate. This is an outrage. If an individual feels COVID is a high risk then they can vaccinate. Others who are not high risk or have already had COVID and are healthy should have normalcy return to their lives.

Thank you for hearing my concerns,  
Nicole Schultz

**Sent:** Tuesday, May 4, 2021 6:57 PM  
**To:** Taylor Thrush  
**Subject:** HB 4667 testimony

Hello,

My name is Tracy Fischer. I am not able to attend this hearing but I would like this to be read and included in the hearing.

I am urging you to please support this bill against vaccine passports. If we are forced to do vaccine passports, we are opening up our privacy and relinquishing our rights. This digital identity will be a loss of our control. Even if the claim that vaccine passports will be designed to protect privacy, it will be a base to add whatever other data this passport will support for future use. This passport can easily become misused and then be used to not only let us on an airplane, but let use into events, get an operation at the hospital, grocery shop and anything else government and businesses see fit to condemn a citizen who is either not vaccinated or doesn't own a smart phone. I believe this will also cause people to react to those that do not show their passport. It will be "those that have and those that have not". Shame, suppression and separation will be what will result in this passport.

It seems that businesses and government are not caring about what this means for our citizens. I say this because we have people crossing the border bringing covid and other possible diseases with them. There is no accountability for where they are going and traveling throughout the US once they have crossed that border. Government and interest groups talk about "equity". How can we have equity if not everyone has a smartphone to have this passport. Please support HB 4667. Otherwise,

the vaccine passport if approved.....will be the end of liberty.

Sincerely, Tracy Fischer.
