MPART Coordination of Roles

All MPART PFAS Sites

Number of Features in Current Map View (zoom in or out to adjust number)

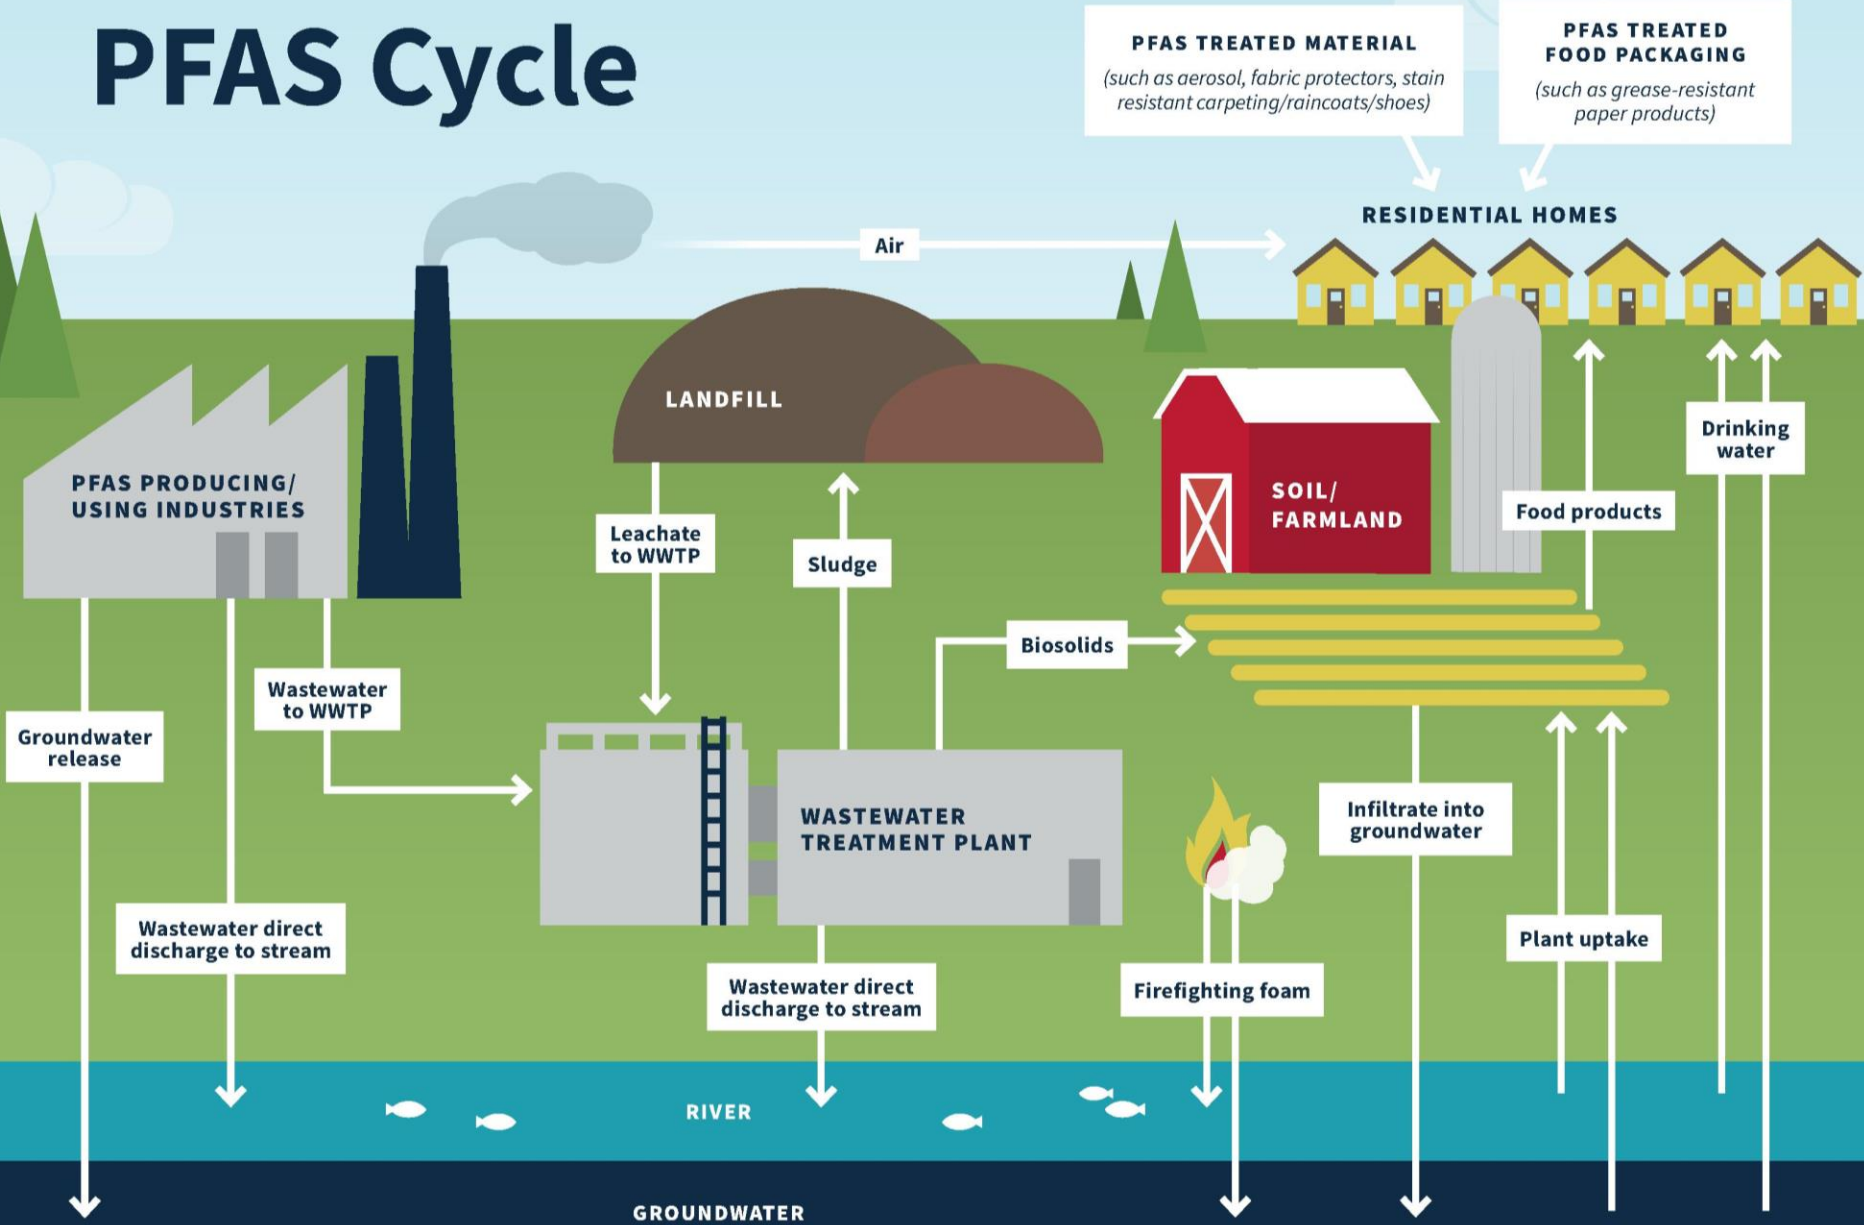

-  Number of PFAS Sites in View **219**
-  Number of PFAS Surface Water Samples in View
-  Number of Statewide PFAS Drinking Water Supply Sampling Hexagons in View (# represents # of hexagons in map view, not number of

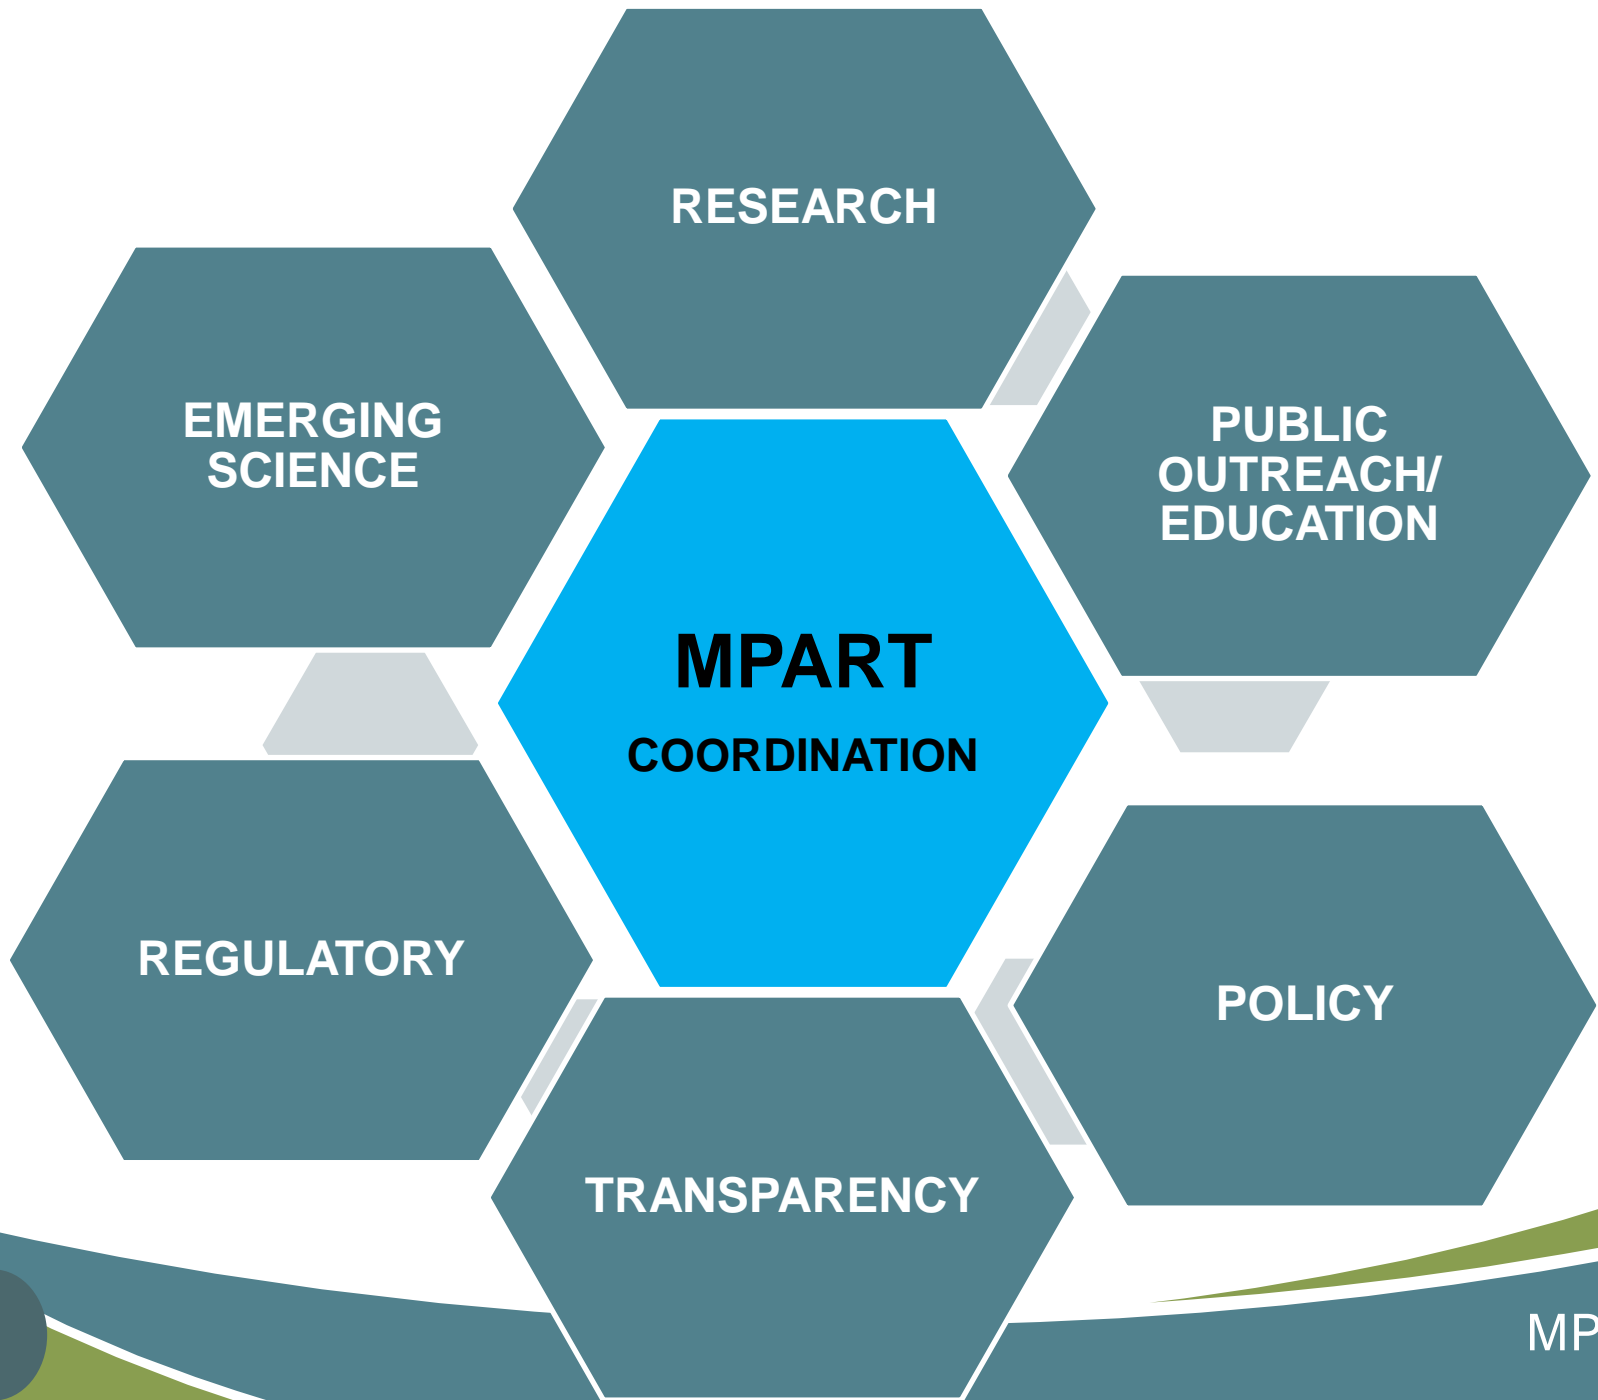

Airport Sites

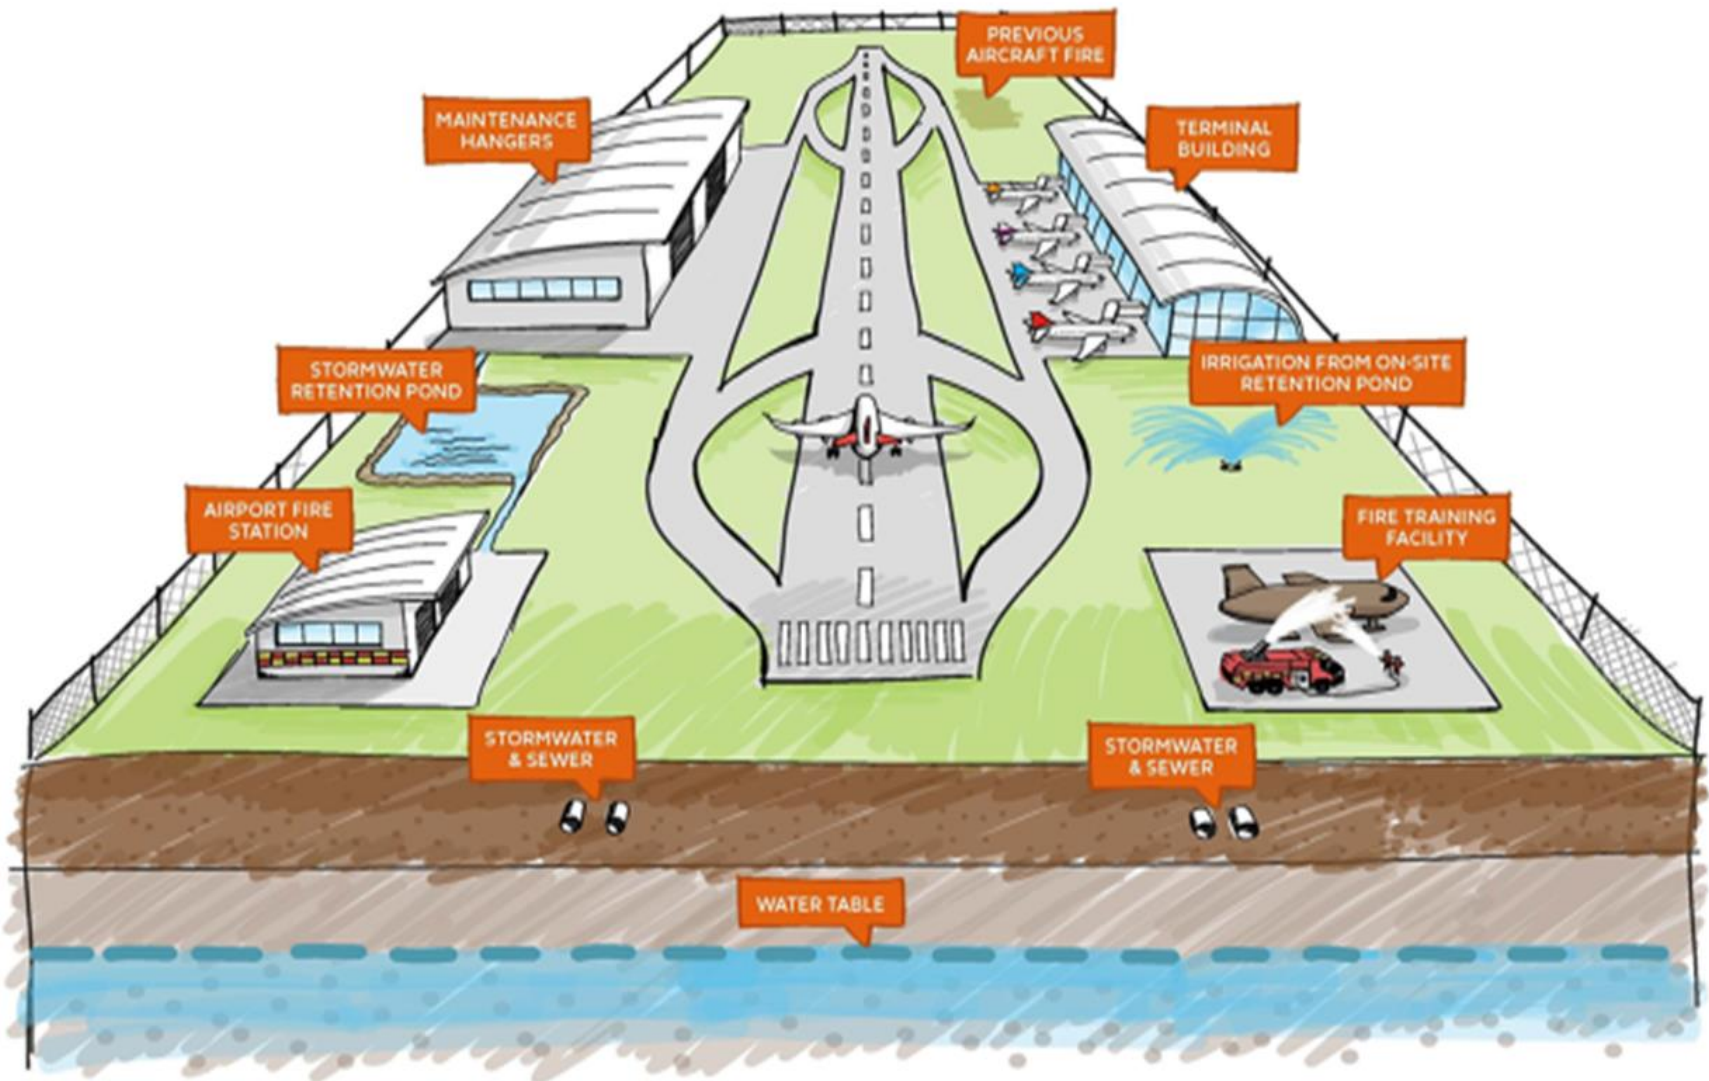

PFAS Cycle

PFAS & Airports

Assistance for Airports:

2019 Eco Carts for 19 airports; \$400,000

- Allows for eco friendly ways to do required equipment testing

2020 Airport Grants; \$4,000,000

- Phase I -Testing & monitoring of airport facilities

2022 Airport Grants; \$11,650,000

- Phase II – testing and monitoring of groundwater, surface water and soils- 19 airports = \$4.9 Million in grant funds
- Remediation Phase- can apply for additional funds to do remediation activities in 2023

Assistance for Airports:

AFFF Collection and Disposal Program

- MPART is collecting PFAS AFFF for disposal
- 10 airports have participated and over 5,520 gallons of AFFF has been collected for disposal

MPART – Airport Workgroup

- Includes: DOT, EGLE, FAA, MI Assoc. of Airport Executives, DHHS

Coordinated MPART response

- MPART provides coordinated meetings for airports

MPART's Focus for Important Airport Issues

PFAS “Free” AFFF Foams

- MPART is reviewing DOD draft specifications for fluorine free fire extinguishing foam

Fire Fighter Training

- Training to minimize the use of PFAS- AFFF impacts to the environment

Remediation & Treatment Technologies

- Collaboration with innovative treatment technology partners
