Summary

- **This year, the GF/GP and SAF budgets are probably OK**
- **In FY 2011, the GF shortfall is about \$1.3 billion and the SAF shortfall is about \$415 million**
- **In FY 2012, the GF shortfall about 1.4 billion**
- **Transportation revenue shortfalls could lead to loss \$2.0 billion federal transportation funds by 2014**
- **Revenue is about \$9.0 billion below the Headlee limit since 2000**
- **The state economy has contracted about 3.5% since 2000 — due primarily to the restructuring of the auto industry**
- **Real GF/GP revenue is down 43.4% since FY 2000**
- **Real SAF revenue is down 15.7% since FY2000 — and 16.6% since first year of Proposal A**
- **A 3.5% contraction in the state economy doesn't fully explain revenue declines**
- **The structure of the state tax code is a real problem**
