I am writing this letter to talk about Walgreens scanning my Drivers license to buy a pack of cigarettes. The first time I saw a scanning of drivers licenses was when I went to Vote A easy way of checking on your residency. When I asked at the voting area was it a requirement to scan My ID (license) I was told yes . Well that was a lie that I found out about going to mich elections I could have asked them to look it up and that is the law. I understand that each city has a polling list. And when they swipe your id they get all the info on it . So each of our cities would like just to swipe to show where you live. And even they have rules from the state on swiping ID.

So now we come to a private company called Walgreens (I have seen this done at certain 7/11's) wanting to swipe your drivers' licenses to show your birth date, and if you refuse then they won't sell you the smokes. Their right to protect themselves against selling to minors which they can get into a lot of trouble. But they can look at the ID (license) and see a birth date and a picture of you. Now here is the question WHAT DO THEY DO WITH ALL THE OTHER INFO THEY GET FROM THE SCAN ?????

Well they get your name , address, and birth date

All the states info on the ID (license) what ever that may be

After a list of many ,many people are gathered are they going to sell the list (YA) and the Info they have collected

Are they going to use it for their advertising campaigns

I have not given them any permission to use any of my info. And what if they get hacked , and they do.

C - Hello! Is this Gordon's Pizza?

G - No sir- It's Google Pizza.

C - I must have dialed a wrong number. Sorry.

G - No sir. Google bought Gordon's Pizza last month.

C - OK. I would like to order a pizza.

G - Do you want your usual, sir?

C - My usual - you know me?

G - According to our caller ID data sheet, the last 12 times you called you ordered an extra-large pizza with three cheeses - sausage - pepperoni - mushrooms and meat balls on a thick crust.

C - OK - that's what I want.

G - May I suggest that this time you order a pizza with ricotta - arugula - sun-dried tomatoes and olives on a whole wheat, gluten free, thin crust?

C - What? I detest vegetables.

G - Your cholesterol is not good, sir.

C - How the hell do you know?

G - Well, we cross-referenced your home phone number with your medical records. We have the results of your blood tests for the last 7 years.

C - Okay, but I do not want your rotten vegetable pizza! I already take medication for my cholesterol.

G - Excuse me sir, but you have not taken your medication regularly. According to our database, you only purchased a box of 30 cholesterol tablets once, at CVS, 4 months ago.

C - I bought more from another drugstore.

G - That doesn't show on your credit card statement.

C - I paid in cash.

G - But you did not withdraw enough cash according to your bank statement.

C - I have other sources of cash.

G - That doesn't show on your last tax return unless you bought them using an undeclared income source, which is against the law.

C - WHAT THE HELL?!!!

G - I'm sorry, sir, we use such information only with the sole intention of helping you.

C - Enough already! I'm sick to death of Google - Facebook - Twitter - WhatsApp and all the others!!! I'm going to an island without internet - cable TV - where there is no cell phone service and no one to watch me or spy on me!!

G - I understand sir - but you need to renew your passport first. It expired 6 weeks ago.
