3. Amend page 39, following line 18, by inserting:  
"Sec. 455. (1) The funds appropriated in part 1 for statewide blight elimination initiative must be used to provide public safety and social and economic benefits to rural and urban communities through the removal of blighted residential, commercial, industrial, and public structures, and environmental remediation. The goal of the program is to establish a basis for the property to be made available for future productive use with a focus on creating economic opportunities for the communities as well as improving the safety of residents and first responders.  
(2) Eligible applicants must certify that the projects will be led by a county land bank or will include a land bank partnership. The projects must retain land bank staff as the administrative program manager.  
(3) The state land bank authority must distribute at least 25% of the funds to each of the following:  
(a) Communities with a population of greater than 50,000 according to the most recent federal decennial census.  
(b) Communities with a population of between 15,000 and 50,000 according to the most recent federal decennial census.  
(c) Communities with a population of less than 15,000 according to the most recent federal decennial census.  
(4) Publicly owned or controlled vacant, abandoned, and blighted residential or commercial structures are automatically eligible for demolition provided that the local government or partner is not the cause of the neglect.  
(5) The state land bank authority shall give priority to the following:  
(a) Eligible applicants that are or include redevelopment-ready certified local governments.  
(b) Eligible applicants that include properties with government-declared dangerous and condemnation status.  
(c) Eligible applicants that include redevelopment plans or projects approved or pending.

(d) Eligible applicants that can demonstrate they can leverage additional funding sources.

(e) Eligible applicants that include projects with committed local funds or in-kind match funds.

(6) Eligible applicants who certify to the following shall receive additional priority when awarding grants:

(a) The municipal or county brownfield redevelopment authority has identified the site as eligible and either has approved the site in a brownfield plan or has committed to designating the site in a brownfield plan.

(b) The demolition and other related activities proposed in the grant request are, or will be, included within the current or proposed brownfield plan.

(c) The municipal or county brownfield redevelopment authority agrees that they will capture taxes under the brownfield plan equal to the difference between the project amount and the grant amount under this section.

(d) The municipal or county brownfield redevelopment authority agrees to deposit the captured taxes into a fund for use on future local demolition projects. Future certifications must indicate how these funds were used and must be reported by the state land bank authority.

(7) Grants provided under this section must be capped at \$50,000.00 per residential parcel or structure and \$200,000.00 per commercial or industrial parcel or structure. The project maximum could not exceed \$500,000.00.

(8) As used in this section:

(a) "Blighted structure" means a structure that meets any of the following:

(i) Is a public nuisance according to local codes or ordinances.

(ii) Is a fire hazard or otherwise dangerous to the safety of persons or property.

(iii) Has utilities, plumbing, heating, or sewerage disconnected, destroyed removed, or rendered ineffective so that the property is unfit for its intended use.

(iv) Is owned by, or under a pending sales agreement, or under control of a land bank authority.

(b) "Eligible applicant" means local units of government, county land banks, and county brownfield redevelopment authorities."

Representative Cynthia Johnson moved to adopt the amendments to HB 4420 (H-2). The motion did not prevail 12-17-0:

Representative Brabec offered the following amendments to HB 4420(H-2):

1. Amend page 8, following line 21, by inserting:  
"Mental Health diversion council 20,000,000."  
and adjusting the subtotals, totals, and section 201 accordingly.

2. Amend page 37, following line 26, by inserting:

"Sec. 415. (1) From the funds appropriated in part 1 for the mental health diversion council, the council shall distribute grants to not less than 12 localities for the purpose of establishing or expanding diversion programs in partnership between local law enforcement and private or public behavioral health service providers. At least half of the grant awards must be for behavioral health co-response partnerships between law enforcement and mental health practitioners, and the other half of the grant awards must be for any other type of pre-arrest or post-arrest diversion program, in which individuals with behavioral health needs are identified and diverted out of the criminal justice system. Grant applications may be made by any applicable local entity and the grant awards must be distributed to localities via up-front disbursement, not reimbursement.

(2) For the behavioral health co-response grants, the council must give priority to grant applications that demonstrate a commitment to a comprehensive co-response model that includes all of the following:

- (a) Full integration with existing 911 dispatch.
- (b) Inclusion of both co-responder clinicians and co-responder peers.
- (c) Access to residential treatment facilities.
- (d) Inclusion of telehealth response and follow up services.
- (e) Mental health professionals employed independently from law enforcement.
- (f) Other best practices as identified by the council.

(3) For other diversion grants, the council must give priority to localities in counties without an urbanized area of at least 50,000 people.

(4) The council shall seek Medicaid matching funds for the operation of the programs to the greatest extent possible. Localities are encouraged to partner with philanthropic organizations to supplement state funding.

(5) Localities receiving grants under this section must submit reports containing metrics pertinent to the progress of their diversion program to the council on an annual basis through the length of the grant award and work project under subsection (6). By September 1, the council must compile and submit a report to the house and senate appropriations subcommittees on the department budget and make the report publicly available. Localities may utilize up to 10% of grant funding disbursed to contract with independent organizations for the purpose of fulfilling this requirement. The council shall determine the specific metrics required and provide them to grant awardees at the time of the first grant disbursement. Metrics for co-response grants may include, but are not limited to the following:

(a) Number of calls to which co-responders are dispatched alone or alongside law enforcement.

(b) Number of calls transferred to telehealth co-responder with or without physical response follow up.

(c) Law enforcement call clear time when co-responders are or are not dispatched.

(d) Co-responder, co-responder clinician and co-responder peer call time per call.

(e) Co-responder attended calls resulting in the following:

(i) Jail admission.

(ii) On-location de-escalation.

(iii) Crisis center or crisis stabilization unit residential admission.

(iv) Behavioral health facility inpatient admission.

(v) Referral for behavioral or mental health services without residential or inpatient admission.

(vi) Referral to community or social services such as homeless shelters, women's shelters, or food pantries.

(f) Individuals served by co-responder attended calls by age, gender, and race or ethnicity.

(g) Reduction in frequency of law enforcement interaction with known frequently served individuals.

(h) Number of follow up visits, including method and location.

(i) Overall program costs by administration, training, co-responder clinician, co-responder, and per-call costs.

(6) The unexpended portion of funds appropriated in part 1 for the mental health diversion council are designated as work project appropriations and any unencumbered or unallotted funds shall not lapse at the end of the fiscal year but shall be available for project expenditures under this section until the project has been completed. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the work project is to establishing or expanding diversion programs in partnership between local law enforcement and private or public behavioral health service providers.

(b) The project will be accomplished through grants to localities.

(c) The total estimated cost of the work project is \$20,000,000.00 of general fund/general purpose revenue.

(d) The estimated completion date is September 30, 2025."

"DEPARTMENT OF STATE POLICE

Sec. 531. The department of state police must use the funds appropriated in part 1 for department body-worn camera program to outfit its troopers with body-worn cameras and to support any costs associated with the maintenance of body-worn cameras and storage of data from body-worn cameras.

Sec. 532. (1) From the funds appropriated in part 1 for body-worn camera grants, the department of state police must establish a competitive grant program and award grants to local public safety departments to assist them in funding equipment and personnel necessary to implement and maintain body-worn camera programs, with a goal of enhancing public safety operations.

(2) The department of state police must establish an application process for the grant program. The grant application established by the department must include matching funds. The department must not award any grant to a local public safety department in an amount greater than \$250,000.00. The department shall make the application process and any criteria used to determine grant award amounts and recipients available to the public on the department's website.

(3) Local public safety departments must use any grant award only for 1 or more of the following purposes:

(a) Purchasing or maintaining body-worn cameras.

(b) Hardware or software costs to store or process video data recorded by body-worn cameras.

(c) Personnel costs for individuals whose primary job responsibility is handling video recorded by body-worn cameras.

(4) As used in this section, "local public safety department" means a public safety department at the county, city, village, or township level."

Representative Hood offered the following amendments to HB 4420 (H-2):

1. Amend page 19, following line 20, by inserting:

"Broadband innovation grants	50,000,000
Fiber broadband infrastructure grants	100,000,000

Future-proof last mile broadband grants

50,000,000"

and adjusting the subtotals, totals, and section 201 accordingly.

2. Amend page 49, following line 3, by inserting:

"Sec. 555. (1) From funds appropriated in part 1 for broadband innovation grants the department of technology, management, shall implement a statewide broadband grant program to facilitate broadband planning, data collection, broadband service mapping, and resolving barriers to broadband access, capacity, and adoption. Eligible applicants for the grants are limited to local units of government, non-profit organizations, educational institutions, and economic development associations.

(2) Within 60 days after receiving funds appropriated in part 1 for broadband innovation grants, the department of technology, management, and budget must develop and publish draft guidelines available to the public on how grant awards will be implemented. The draft guidelines must be available for public comment for not less than 30 days before the department of technology, management, and budget finalizes and implements the guidelines.

(3) The department of technology, management, and budget must not prohibit applicants from seeking other state or federal grants for broadband and must not exclude applicants who have previously received other state or federal grants for broadband.

(4) The department of technology, management, and budget must not award more than \$500,000.00 to any 1 project or to any 1 applicant or more than \$1,000,000.00 if the applicant satisfactorily demonstrates to the department of technology, management, and budget that the applicant has multi-jurisdiction support including a long-term financial commitment or a streamlined permitting process for internet service providers.

(5) The department of technology, management, and budget is authorized to retain up to 3% of the amount appropriated in part 1 for broadband innovation grants for administrative and research costs, including but not limited to, partnering with an educational institution or non-profit organization to study grant project outcomes and to make future recommendations.

(6) Grant funding must be used for purposes of broadband planning, data collection, resolving barriers to broadband access, capacity, and adoption and eligible spending activities may include, but are not limited to, the following:

(a) Community surveys and tools to communities to help aggregate demand for broadband service among residents, businesses, and community anchor institutions.

(b) Community planning activities including assessments of existing broadband access and consulting with technical experts and community members to identify solutions to expand access and adoption.

(c) Analyses of existing community assets to expand broadband infrastructure, including reviewing and modifying existing ordinances and policies to realize opportunities for regional collaboration and to streamline broadband deployment.

(d) Digital literacy programs, including partnerships with colleges, universities, and libraries to develop mentoring programs to train local residents in digital skills, particularly those sought after by employers.

(e) Initiatives that provide free or low-cost access to broadband or equipment necessary to access the internet.

(7) The unexpended funds appropriated in part 1 for broadband innovation grants are designated as a work project appropriation, and any unencumbered or unallotted funds shall not lapse at the end of the fiscal year and shall be available for expenditures for projects under this section until the projects have been completed. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the project is to facilitate broadband planning, broadband service mapping, data collection, and resolving barriers to broadband access, capacity, and adoption.

(b) All grants will be distributed in accordance with this section and the grant guidelines developed and published by the department of technology, management, and budget as required in subsection (2).

(c) The estimated cost of this project is \$50,000,000.00.

(d) The tentative completion date for the work project is September 30, 2025.

Sec. 556. (1) From funds appropriated in part 1 for fiber broadband infrastructure grants the department of technology, management shall implement a statewide broadband grant program to support costs related to the deployment of fiber and conduit for broadband infrastructure projects as well as engineering costs associated with broadband infrastructure projects.

(2) Eligible applicants for the grants are limited to local units of government, municipally owned electric utilities, Michigan electric cooperatives, and competitive local exchange carriers. All applicants must be Michigan-based or located within Michigan.

(3) Within 60 days after receiving funds appropriated in part 1 for fiber broadband infrastructure grants, the department of technology, management, and budget must develop and publish draft guidelines available to the public on how grant awards will be implemented. The draft guidelines must be available for public comment for not less than 30 days before the department of technology, management, and budget finalizes and implements the guidelines.

(4) The awarding of grants must be limited to those projects that will expand broadband infrastructure exclusively through the deployment of fiber and conduit. Grants awarded to local units of government, with the exception of municipally owned electric utilities that currently provide retail broadband service, must only be used for leasing access to the broadband infrastructure to private internet service providers or via retail service through a public-private partnership. The department of technology, management, and budget must not prohibit applicants from seeking other state or federal grants for broadband and must not exclude applicants who have previously received other state or federal grants for broadband.

(5) The department of technology, management, and budget must not award more than \$5,000,000.00 to any 1 project or more than \$10,000,000.00 if the applicant satisfactorily demonstrates to the department of technology, management, and budget that the applicant has multi-jurisdiction support including a long-term financial commitment or a streamlined permitting process for internet service providers.

(6) The department of technology, management, and budget is authorized to retain up to 3% of the amount appropriated in part 1 for broadband innovation grants for administrative and research costs, including but not limited to, partnering with an educational institution or non-profit organization to study grant project outcomes and to make future recommendations.

(7) Retail broadband service deployed through the infrastructure projects funded by the grants must comply with the following:

(a) Offer broadband service capable of delivering highspeed internet access at speeds of at least 100 megabits per second downstream and 10 megabits per second upstream.

(b) Offer reasonable rates and provide rate transparency to its broadband customers.

(c) Prohibit customer data from being sold to third parties without customer consent.

(d) Comply with annual reporting requirements, as determined by the department of technology, management, and budget, demonstrating customer rates of broadband adoption and the addresses at which broadband service is available.

(8) The unexpended funds appropriated in part 1 for broadband innovation grants are designated as a work project appropriation, and any unencumbered or unallotted funds shall not lapse at the end of the fiscal year and shall be available for expenditures for projects under this section until the projects have been completed. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the project is to support the expansion of fixed broadband technology and service by supporting the costs of deploying fiber and conduit for broadband infrastructure projects as well as engineering costs associated with broadband infrastructure projects.

(b) All grants will be distributed in accordance with this section and the grant guidelines developed and published by the department of technology, management, and budget as required in subsection (3).

(c) The estimated cost of this project is \$100,000,000.00.

(d) The tentative completion date for the work project is September 30, 2025.

Sec. 557. (1) As used in this section:

(a) "Area" means an area approved by a majority of participating households for planning, engineering, and installation costs of last mile to the home broadband.

(b) "Eligible costs" means costs of eligible grant applicants for planning, engineering, and installation of new last mile fiber to the home broadband in an area approved by the department of technology, management, and budget.

(c) "Eligible grant recipient" means municipalities, legally incorporated cooperatives, homeowner associations, neighbor block clubs, agricultural associations, and economic development organizations that do not operate a retail broadband service.

(d) "Internet service provider" means any of the following:

(i) An entity holding a license under the Michigan telecommunications act, 1991 PA 179, MCL 484.2101 to 484.2603.

(ii) An entity holding a franchise under the uniform video services local franchise act, 2006 PA 480, MCL 484.3301 to 484.3315.

(iii) An entity currently providing wholesale or retail broadband service in this state.

(e) "Participating household" means any legal resident of a household, business, or parcel owner, within the area of an eligible grant recipient that has affirmatively approved to participate in sharing the costs of a last mile fiber broadband project, as permitted by the bylaws of an eligible grant recipient.

(f) "RFP" means request for proposal.

(2) From funds appropriated in part 1 for future-proof last mile broadband grants the department of technology, management, shall implement a statewide broadband grant program to issue grants to eligible grant recipients to match costs associated with the planning, engineering, and installation of retail fiber necessary for physically extending fiber networks to end users' homes and premises.

(3) Within 60 days after receiving funds appropriated in part 1 for future-proof last mile broadband grants, the department of technology, management, and budget must develop and publish draft guidelines available to the public on how grant awards will be implemented. The draft guidelines must be available for public comment for not less than 30 days before the department of technology, management, and budget finalizes and implements the guidelines.

(4) The department of technology, management, and budget must hold multiple application periods at a minimum of 90 days each to ensure interested applicants have time to properly plan and apply for the grants.

(5) The department of technology, management, and budget must not prohibit applicants from seeking other state or federal grants for broadband and must not exclude applicants who have previously received other state or federal grants for broadband.

(6) The department of technology, management, and budget must determine a process and method for awarding grants that must comply with the following requirements:

(a) Grants must not exceed \$10,000,000.00 to any 1 project or to any 1 applicant.

(b) Grants must impact geographically and socioeconomically diverse populations.

(c) Grants must seek partnerships with Michigan colleges, universities, and non-profit organizations to support field research to better understand the needs of local residents.

(d) Grants must include an RFP process to solicit bids from internet service providers to either manage, construct, or operate retail broadband services.

(e) Eligible grant recipients conduct the review, selection, and approval of all agreements with internet service providers following all applicable laws and bylaws of the eligible grant recipient.

(f) Applicants publish transparent prices, data plans, and terms and conditions, and agree not to share customer data to third parties without customer consent.

(7) The grants must be used to provide up to a 50% funding match for the eligible costs that result in new fiber service to the home, premise, or parcel in a defined area associated with the eligible grant recipient. Grants must be used, as applicable, by each eligible grant recipient to reduce the eligible costs assigned to participating households or businesses towards the expense of a fiber to the home or premise project. The method of cost reduction assigned for each individual or business must be equitable and demonstrate compliance with any applicable bylaws or laws of the eligible grant recipient.

(8) The department of technology, management, and budget is authorized to retain up to 3% of the amount appropriated in part 1 for future-proof last mile broadband grants for administrative and research costs, including but not limited to, partnering with an educational institution or non-profit organization to study grant project outcomes and to make future recommendations.

(9) The unexpended funds appropriated in part 1 for future-proof last mile broadband grants are designated as a work project appropriation, and any unencumbered or unallotted funds shall not lapse at the end of the fiscal year and shall be available for expenditures for projects under this section until the projects have been completed. The following is in compliance with section 451a(1) of the management and budget act, 1984 PA 431, MCL 18.1451a:

(a) The purpose of the project is to implement a statewide broadband grant program to issue grants to eligible grant recipients to match costs associated with the planning, engineering, and installation of retail fiber necessary for physically extending fiber networks to end users' homes and premises.

(b) All grants will be distributed in accordance with this section and the grant guidelines developed and published by the department of technology, management, and budget as required in subsection (3).

(c) The estimated cost of this project is \$50,000,000.00.

(d) The tentative completion date for the work project is September 30, 2025."
