RE: Pay increase and age limit for sitting judges in Michigan.

Dear "Public functionaries",

The Fall of the Republic(s) Will be Lead by the Judiciary.
Alexander Hamilton.

Today we have a judiciary, that lies, cheats, and steels the life blood out of the people they swore an Oath of Office to protect. The only purpose of government in America is to protect the people from a run-away gaggle of bureaucrats. See: *Downes v Bidwell*, 182 U.S. 244 (1901). My experience with the judiciary both state and federal is that the attorneys, DOJ, and the judiciary are in place to protect this "system" of government from the laws of our nation which should be the limiting authority of government. I have been suing Judge Salamone, Prosecutor Zick and Greco, the Clerk of the Court of Taylor and Police Officer Pilchak for violating just about every Michigan Compiled Law, other district court decisions including the Michigan Court Rules for their knowingly and willingly malfeasance while employed as "public functionaries" in Michigan. This lawsuit has also extended to Ruth Johnson, Bill Schuette, and Anne Boomer for dereliction of duties while in office. See: *John J. Tatar v. Salamone* at el. Case # 19-000563-CZ. On the federal level there is very little difference regarding the judges and the way they use legal legerdemain to obfuscate the law. See: *John J. Tatar v. (public functionaries et al)*, 4:20-cv-12287, 4:16-cv-13117, 2:12-cv-14814 and more.

Now you want me to agree to reward this "usurpers" in office with a pay raise and to increase their time on the bench???

It is because of these "usurpers" that this country is in the disaster it is in.

1. The Judges are banker judges. They have ruled in favor of the banks in every issue skirting the law. Mortgages, tickets, and make believe ordinances, anything to disrupt the American citizens and raise money for their coffers.
2. The Judges follow the "civil action jurisdiction and not the CONSTITUTION. They make their own laws from the bench regardless what the U.S. Supreme Court has stated, and what the actual statutes state.
3. The Judges parse out laws that fit their agenda, and ignore other laws that will not fit their agenda. They miss read cases, misinterpret case law, and disregard anything the opposition

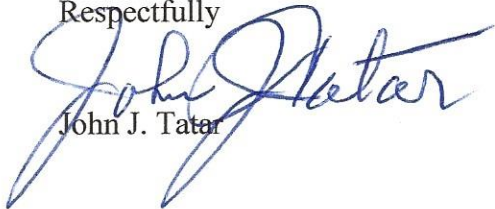

has stated. They know at the district court level "no matter what" the defendant/plaintiff will not appeal and therefore the court will steal the money and the defendant/plaintiff will go away.

4. The Judges believe and act as if they are "kings" in their courtrooms and shut down anyone who disagrees with their narrative, their form of censorship..
5. The Judges will not allow, or hold hearings with defendants/plaintiffs, such as me, because we will stand on the law and the constitution(s) and embarrass the members of the BAR who know very little what the laws of our Republic(s) state.
6. Now thanks to COVID, the Judges don't even show up in a courtroom, they do their "job description" from home on ZOOM. This is not court, this is a joke.

The real answer is the same answer these judges have said to those present in front of them "if you don't make enough money get another job."

What really needs to be accomplished by this Legislature is to have an amendment to remove Article VI, Section 19. Nowhere in the U.S. Constitution does it limit the judiciary to a one "band" of "usurpers" that write the law-Legislature, enforce the law-Executive, and try the law-Judiciary. The U.S. **Constitution states in Amendment VI that a person has the right of Assistance of Counsel, NOT an ATTORNEY.**

Respectfully

John J. Tatar
