

I'm writing in support of the Second Look House Bills (HB 4556 - 4560). In support of the bill, I would also like to submit my personal story on why I support it.

I, Robert C. Redmond Jr. participated in a conspiracy to commit armed robbery, and I provided the weapon to be used for the robbery. During the robbery one of my codefendants shot and killed our victim. Although I was not on the scene of the actual crime, I was convicted of aiding & abetting that crime, and sentenced to life without the possibility of parole. I have many regrets for what I did and I know what I did was wrong, but I never intended for anyone to be harmed!

I've been incarcerated for over 35 years now. I was 24 years old when I committed this horrible crime, and now I'm 59. I've definitely grown out of crime, and most importantly, I never, ever want to have a victim again. While in prison I've participated and completed many educational and self-help programs, which includes college programs and four vocational trades.

For this reason, and for the many others with crimes like mine, I strongly support this bill!! I'm writing in support of the Second Look House Bills (HB 4556 - 4560). In support of the bill, I would also like to submit my personal story on why I support it.
