

Stacy Brickman Statement:

This is very upsetting. As a school board, we are responsible for the safety of 5,500 students and 700 staff personnel so I question the reason for these bills. It cannot be what is best for students or their learning environment. When our elected officials allow guns and recording devices in courtrooms and our government buildings and dismantle their metal detectors maybe we can begin to have honest dialogue regarding the rights of some people over the rights of others. Local districts need to have the authority to make decisions based on their communities interests. Local control.
