Subject: Against vaccine passports

To Whom It May Concern,

I implore you not to allow any type of vaccine passports/or mandatory vaccine proof. I have had COVID 19 and for me to get this vaccine is not recommended by my physician, and could even mean I would become very ill. Additionally, the COVID vaccine is only approved for emergency use. Not even approved by the FDA. There is clearly no data for the long term effects of this COVID injection. What if there were long term effects that people would have to deal with lifelong. We have no idea whether or not this will be the case.

We will only know that as times passes after several years. To force a this on people is unconscionable.

Thank you for your attention to my concerns!!

Subject: Opposition to HB 4667

Hello,

My name is Krystalle Double, and I am a Michigan citizen at 3635 Ponderosa Drive, Okemos MI.

I oppose HB 4667 and would like a card placed on file to be read in during committee meeting today, or in subsequent meetings as necessary.

As written, this bill would prevent the use of the Michigan Care Improvement Registry to ensure Michiganders receive the correct dosage and timeline of vaccines, as MCIR is an electronic documentation of all vaccines given in the state. This can be seen as being done "for the purposes of certifying that an individual has received a vaccination for or is immunized against COVID-19." Not only that, it would also prevent the delivery of the CDC Vaccination cards, and make it impossible for individuals who did have adverse side effects to trace any potentially bad batches or otherwise adverse effects to the type and batch of vaccine provided. .

This bill does not protect patient privacy, it jeopardizes lives. If providers are prohibited from tracking vaccination doses administered to whom and when, patients will be denied access to a critical part of their medical history. This bill would deny millions of Michiganders access to their medical histories, and ensure that they could not get the care they need if anything were to go wrong. It is downright dangerous and utterly without concern for the wellbeing of Michiganders.

Sincerely,
Krystalle Double

Sent: Thursday, May 6, 2021 2:05 PM
To: Taylor Thrush
Cc: veena mandrekar
Subject: Republican Bill:HB 4667

PLEASE PLACE A CARD ON FILE to be read during committee hearing today!

To whom it may concern,

I, Dr. Veena Mandrekar live at 6101 Skyline Drive E. Lansing 48823. I am shocked and outraged by the proposed Bill that does not allow health care providers to record or access any information on COVID 19 vaccinations.

This action would counter the ability of health care providers to render the vaccines in the timely basis. Vaccine providers need the information to administer the necessary doses at the intervals necessary. This would jeopardize the population needlessly and impact our ability to control the pandemic.

2. Prohibiting the state from providing CDC vaccination cards is absolutely dangerous for the physical and economic health of our state. First responders and other health professionals would be able to address issues such as tracking vaccines for the persons as well as the potency of the vaccines. Records and vaccination cards will be helpful as Michigan starts opening up for business.

Covid in different versions is going to be around for a very long time. It is only prudent that we record and provide CDC cards so that the health of Michigianians is not jeopardized further. We need to get control over this pandemic. Vaccination records have been in place for many many years as it is useful to schools, hospitals, businesses and for international travel.

Quite frankly, it is our right to be protected and your responsibility to make wise policy. Don't play politics with this
Veena Mandrekar

Hello!

I would like a card placed on file to be read during the committee meeting today.

I strongly oppose bill HB 4667. Vaccination records have been in place for decades for parents, families, and healthcare providers, as well as government agencies to track what vaccines have been given to children and adults alike. The CDC's required COVID-19 vaccination card is simply an extension of this Long History of immunization patient safety best practice. I oppose any restrictions on this Long Held Practice for Public Health.

This bill would shut down the Michigan Care Improvement Registry, which serves as an electronic database of vaccine information that is maintained by the state. Medical providers are required to upload vaccination information to this database. This database is used to protect Public Health.

I strongly oppose bill HB 4667.

Thank you

Subject: HB 4667

Representative Thrush,

First off, I want to thank you for your service to the state of Michigan.

I am writing to you in **support of HB 4667**. The government has egregiously over extended their hand of power the past 14 months. HB 4667 helps to curb the governmental overreach and protect Michiganders' personal freedoms. The government has no business dictating personal health care decisions under the guise of "public health". The "authorized" vaccines are available to those who wish to utilize them. The accepted narrative of unvaccinated individuals posing a threat to vaccinated individuals is unprecedented, illogical, and divisive. Are mosquitos in Africa a threat to individuals who have been vaccinated for malaria? I understand COVID-19 is an mRNA virus thus is somewhat unique given its excessive ability to mutate. I have heard the argument, if an unvaccinated person is carrying a "new strand or variant" of COVID they are a threat to vaccinated individuals. I argue an unvaccinated person is no more a threat in this scenario than a vaccinated individual. Neither individual would have the proper antibodies to prevent them from being potential carriers (of a virus that over 99.8% of people survive).

Regardless, it is not the government's role to mandate individuals' health care. Again, the vaccine is available to those individuals who wish to utilize it. This is not a public health issue. This is about limiting the government's power and keeping personal health decisions where they belong, with individuals. Any self respecting medical professional or clinician will admit "a one size fits all" approach does NOT exist in medicine. This scenario is no different.

I hope you listen to your constituents of the state of Michigan. As a medical professional and small business owner myself, my family and I have seriously considered leaving the state over the past year. I know many other individuals have left the state due to draconian measures that continue to be imposed on Michiganders. I hope you and your colleagues in Lansing understand the gravity of your decisions.

Thank you again for your service,

God Bless

Ryan Tisdall

Subject: Vaccine Passports NO

Hello. I am a lifelong citizen of MI 53 years. Never in my lifetime have I seen such abuses of power and infringement of freedom all in the name of health and safety. The constitution is being trampled on.

As for the vaccine passports, what about the millions of people who have RECOVERED from Covid19?(like myself). Where does that leave millions of people that recovered and have antibodies naturally?

AND Covid 19 has a very high recovery rate. Survival for those under age 20 is 99.8%. For ages 20-49 survival rate is 99.98%, Ages 50-69 survival rate is 99.5%. For people over 70 survival is 95%. ALL WITHOUT VACCINATION.

Furthermore, DESPITE THE MISINFORMATION we are fed daily on television, radio and internet, the vaccine **DOES NOT** prevent the spread of the virus, but only decreases the symptoms (theoretically) and it's not even approved by FDA, it's experimental and the makers cannot be sued if it causes injury. We have every reason to be cautious about this so-called vaccination. We are not sure what the short and long-term effects will be. We have already witnessed adverse reactions and deaths from the shot. The long-term effects on health and fertility are alarming. Once you take the shot, you cannot undo it.

We are at a dangerous crossroads at this moment. We are about to trade our freedom for a false sense of security.

Benjamin Franklin stated:

“Those who would give up essential liberty to purchase a little temporary safety, deserve neither liberty nor safety.”
That quote would apply to today perfectly.

I urge caution and would hope you will as well.

Thank you.
-James Auquier

Subject: Vaccine passports

I don't know if I'll be attending tomorrow, but in case not, I'm supporting your efforts to halt vaccine passports, as the safety trials have 2 more years for safety results to be reported.

I also agree with the lawyers' letter(s), that it would create a 2 tier society, making the vaccinated the privileged, and the unvaccinated a 2nd class. All this for an injection whose long term safety is unknown, with first official safety results in 2 years. All this for an injection where the CDC doesn't check post mortems or set up any monitoring system for injuries, for any definitive links to the covid injection--and they discount their own VAERS site. All this for a technology never before used on humans until a few months ago.

One could add that there have been too many pharmaceuticals and other products used internally that had to be taken off the market due to harmful health and safety results.

A vaccine passport would divide us, creating a new kind of discrimination. The idea of using vaccine passports to gain access to different venues in society, venues as essential as work and school, via a new technology that has just been introduced, is unfair and unreasonable.

Please print this, to deliver to the appropriate official(s.)
Thank-you.

Sincerely,
Mollie Stanton

Subject: Vaccine Passport Bill

I work as a school district nurse and the very idea of a vaccine passport is deeply concerning. I provide health care to a multitude of students with both chronic and acute illness and/or injuries. We work very hard to ensure our students or staff are not discriminated against in any way and this vaccine passport is, in my opinion, the very definition of discrimination. It singles out individuals for different treatment based on a personal decision. We can not discriminate against anyone for vaccine status to all of the other available vaccines, this should be no different. Waivers are allowed if a family decides not to participate in a vaccine program. Every person should feel free to make a personal decision about vaccines without fear of recourse or discrimination.

To whom it may concern,

We are against the pressure being put on the American citizens right now to get this experimental medicine, which is called a vaccine.

The long-term effects of this vaccine have not been studied or tested.

We are ready finding out that many women are having irregular bleeding and possible sterility from this vaccine.

Many people have already died after receiving it.

This is a human rights issue especially when they are now pressuring our children to get the vaccine in order to be able to get their education!

Please address this immediately especially with our schools and colleges, but also in the workplace.

We have never done this with any vaccine in the history of our country where every single person is being pressured to get it.

If this is allowed to stand, our government will be able to force us to get or do almost anything which is a frightening thought.

Thank you for your time and please do the right thing in banning any kind of requirements in any place for this experimental medicine.

Thank you,
Dave and Sheryl Alkema

Dear Committee,

Michigan absolutely needs to halt the use of vaccine passports!! Covid-19 vaccines are not approved by the FDA. The Covid-19 vaccines are only approved under an Emergency Use Authorization, for investigational use only. Covid-19 vaccines lack requisite studies and are not approved medical treatment. Title 21, Section 360bbb-3 of the Federal Food, Drug, and Cosmetic Act (the "FD&C Act") vests the Secretary of Health and Human Services with the permissive authority to grant Emergency Use Authorizations ("EUAs") providing that appropriate conditions designed to ensure that individuals to whom the product is administered are informed:

1. that the Secretary has authorized the emergency use of the product;
2. of the significant known and potential benefits and risks of such use, and of the extent to which such benefits and risks are unknown; and
3. of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks. 1

The right to avoid the imposition of human experimentation is fundamental, rooted in the Nuremberg Code of 1947, has been ratified by the 1964 Declaration of Helsinki, and further codified in the United States Code of Federal Regulations. In addition to the United States regarding itself as bound by these provisions, these principles were adopted by the FDA in its regulations requiring the informed consent of human subjects for medical research. It is unlawful to conduct medical research, even in the case of an emergency, unless steps are taken to secure informed consent of all participants.

Therefore I ask you to support HB 4667 unequivocally! Otherwise, if Michigan proceeds with this, I along with many other citizens, will be moving to a state that has prohibited them.

Sincerely,
Trish Hielkema

Subject: Passport testimony

Good evening,

I'm a medical coder for mercy health and they do give us the right to refuse vaccinations for religious purposes. I was educated about vaccines a few years ago and since then we have not gotten any more vaccines. My husband now home schools the kids in a Christian curriculum and I wouldn't have it any other way. We don't have to deal with the schools having a problem with us not vaccinating and indoctrinating our kids with crazy leftist thinking that we would have to correct when they got home.

I found that most if not all vaccines are derived from aborted fetal tissue and we're not ok with injecting fetal tissue into our bodies. We are healthy and all have strong immune systems and are rarely sick. We do not want to be forced to take a vaccine against our morals to be able to travel. As we know the precursor to this is we can't buy or sell unless we have the vaccine. To me this sounds much like the mark of the beast. Let this law destroy the passport possible mandate and give people freedom to choose to vaccinate or not to vaccinate.

Thank You

Sincerely,

Robin and Greg Wilkins

Subject: Vaccine Passport Hearing

Hello,

While I am not able to be present tomorrow for this vaccine passport hearing, I would like to voice my concern AGAINST having a vaccine passport, OR having vaccines mandatory at all. This should be a choice. Vaccines should not be forced. This madness has to stop. Now. Our freedom and our basic rights are slowly being stripped away. I DO NOT want mandatory vaccines OR a vaccine passport.

Thank you in advance,
Diana Ayer

I would like to communicate my total disagreement to this proposal!! This goes against everything our constitution stands for. It is the right of an individual to not be discriminated against for choosing what they feel is the best choice for them!! This vaccine is not FDA approved and is stated as experimental! In no way do I feel this is safe and we should not be forced to get it! I urge you to not support this proposal!!

I am writing to urge you to uphold the bodily autonomy and human rights in general of our citizens by avoiding the use of vaccine passports. There is no place for this type of discrimination in a free republic. The private medical information of each of our citizens should be just that-private.

The vaccines currently being disseminated do not, and can not offer 100% immunity 100% of the time, and carry yet to be determined risk. Where there is risk, there must be choice. Thank you for your time.

Hello, I am writing to tell you that though I do not wish to speak, I support the bill being considered to not allow vaccine passports. My email is toele1@comcast.net. I live in Grand Rapids. Address is 5951 Two mile Rd NE, Ada, MI. 49301. Phone 6169147338

Taylor Thrush

From: Darcy Black <michigansister@icloud.com>
Sent: Wednesday, May 5, 2021 10:44 PM
To: Taylor Thrush
Subject: Vote NO on Vaccine Passport

To whom it may concern,

Two of my three children children have been vaccine injured. One has a severe peanut/tree nut allergy and must carry an epi pen. No one on either side of our family has any allergies like that. Through our research, we trace it back to the vitamin K shot. If she were mandated to get the shot, she could have an anaphylactic response and die-like others have had. My son has breathing issues and is also in danger of other vaccine injuries. My last child had no vaccines and has had no health issues like the other two. I believe it is because she had no vaccines.

Please vote NO to vaccine passports. We will move out of this state if it passes. Many others I know, including doctors, will also. Vaccines must be a choice.

Sincerely,

Darcy Black

From: Heather Easter <heaster1980@gmail.com>
Sent: Wednesday, May 5, 2021 10:45 PM
To: Taylor Thrush
Subject: House bill 4667

Dear Taylor,

Vaccine choice is of great importance to me. I, not the government, am responsible for making the medical decisions necessary to protect the health of myself and my family! This is the most basic of freedoms - and both the United States of America Constitution and State of Michigan law supports this. I ask that you continue to protect my ability to make these choices, without coercion, penalty, or discrimination.

I would like to highlight three important things:

Vaccine Injury is Real: In 2011, the U.S. Supreme Court said vaccines are “unavoidably unsafe products”, the CDC estimates that the Vaccine Adverse event Reporting System (VAERS) received over 48,000 reports in 2019. However, VAEERS has been estimated to account for less than 1% of vaccine injuries.

Vaccine Makers Are Not Liable for the Safety of their Products: In October of 1986, the Childhood Vaccine Injury Act was signed into law. This created a “no-fault- system giving vaccine manufacturers no liability for the damages their products may cause, including death. Along with this “no-fault” system, the Vaccine Injury Compensation Program (VICP) was also created. Over \$4 billion has been paid through the VICP for vaccine injury and death, over \$1 billion within the last four years!

Informed Consent is a Basic Human Right: Informed consent gives people the right to outweigh the risks v.s. benefits of a proposed medical intervention and where there is a risk, there is a choice. All options must be equally accessible, and refusal must be without consequences, such as the threat of losing access to public or private education, employment, or basic medical care. Informed consent prior to any medical intervention, including vaccines, is a basic human right.

Since manufacturers are not liable for the safety of their products, there is no incentive to make their products safe or effective. I hope to have your support in protecting vaccine exemptions and parental choice and would love to know your thoughts on this issue.

If you ever have any questions or concerns, please feel free to contact me. Thank you for your time.

Kind Regards,
Heather Truman

Subject: vaccine passport hearing

Dear Mr. Thrush,

I cannot be at the hearing tomorrow for Vaccine Choice, so I am submitting my comments directly to you as instructed.

I strongly oppose a mandatory vaccine in the state of Michigan, or anywhere for that matter. In any given situation, the medical decisions of individuals should be theirs alone to make, not mandated or imposed on each individual by the government.; the idea of this is absolutely, 100% unconstitutional.

In this current situation, the absurdity of even thinking of mandating a vaccine for a virus that has over a 99.9 percent recovery rate, is unthinkable; it's as if anyone even thinking of this possibility has absolutely lost their minds. The science and the data, for those that actually look into it and know it, does not support this, not even in the slightest. This shot is not FDA approved, and there are no long term studies on the consequences and possible long term effects of having mRNA injected into our bodies. Also, this "vaccine" has resulted in an unthinkable number of vaccine injuries including, but not limited to, blindness, deafness, miscarriage, still births, seizure, blood clots, vaginal hemorrhaging, horrific skin rash and disease, and Bells Palsy to name a few. Worse than that, this "vaccine" has resulted in more vaccine deaths than the number of vaccine deaths that have been seen, in total, over a decade! This is even documented on the CDC website. This alone should put an immediate stop to these injections. How can we know this information yet turn the other way, and actually be considering making them mandatory?! What sane person or people would ever do this?! It's unthinkable, unimaginable, and unforgivable.

To think that there are people in our country, elected officials, who took an oath to be "of the people, by the people, for the people" is disheartening at best. Sadly, we are not in the "at best" situation- we are far beyond that; we are "at worst" and I don't have the words for that. I don't think there are any.

I appreciate your time and am praying for sanity and truth to win.

WISH TO SPEAK: NO

POSITION: SUPPORT

NAME: Nancy AuBuchon

REPRESENTING: Myself and my family

Message: We should have a choice whether or not we want to get a vaccine. Where there is risk we should have a choice. These vaccines are experimental and you have no right to make them mandatory. The death rate for Covid 19 is very low, so why push these so called vaccines? No one knows the long term side effects of these. Who will be responsible for those injured or killed by them? I will move my family out of Michigan if you pass the vaccine passport. The vaccine passports would go against HIPAA.

Clerk Thrush

I am a retired college teacher living in Chelsea, MI. Please notify the committee that, while I will not be attending the hearing tomorrow, I strongly support any legislative action that would prevent the state government from adopting the idiotic idea of vaccine passports for the following reasons:

1. Such passports would be a violation of the basic human right to bodily autonomy as affirmed by the Nuremberg Tribunal after World War II.
2. They would violate the right to be secure in our persons as affirmed by the U.S. and Michigan constitutions.
3. They would violate the federal government's own law that prohibits mandating a medical procedure without informed consent, as well as mandating a vaccine that has not been approved by the FDA and is under emergency use authorization.
4. They would marginalize a large segment of the population under the totally unproven assumption that the unvaccinated are a danger to the vaccinated. There is no empirical evidence whatsoever for the theory of vaccine-induced herd-immunity.
5. These particular covid vaccines have caused far more adverse reactions in the few months since they've been rolled out than all other vaccines put together in the last ten years.
6. They would bring us one giant step closer to the establishment of a totalitarian state under the guise of "the general good."

Please make Michigan free again!

Sincerely,
Dr. James Cook

Love is the marriage of total vulnerability and absolute courage.

Hello and I do NOT want Michigan to have a vaccine passport.

My body, my choice.

If this works for abortion and succeeds, then so it should succeed for people who do NOT want the vaccine or a vaccine passport.

If the COVID-19 vaccine works, then no one should be concerned about the people who choose not to receive the COVID vaccine.

My body, my choice and I choose NOT to receive this vaccine and I also do not want the Michigan government making my health care decisions for me.

This is unconstitutional and wrong!

Dear Ms. Taylor Thrush & House Oversight Committee,

My name is Sara J Walter and I live in Zeeland, MI. I'm a Registered Nurse of over 23 years and I am writing to voice my support of Bill #4667. I do not wish to speak at the Hearing, but I would still like my voice to be heard. I do not want Vaccine Passports in Michigan! The people of Michigan deserve the right to medical autonomy and privacy, and Vaccine Passports would be a grievous violation of both. I urge you to do the right thing and support Bill #4667, thereby protecting the medical freedoms of the people of Michigan. Thank you for listening and thank you for your service.

Respectfully,

Subject: Vaccine passport

As a citizen of the US , I am sending this email , in the hopes that many other are as outraged as I am at the possibility of having the covid vaccine to travel . This violates so many human rights. We should be able to choose to fly where ever We want, and be able to choose our healthcare needs.

Our democracy is being taken away little by little if we let them pass this bill.

Please vote no.

Sincerely, Beth

Subject: Vaccine Passports

I am writing to voice my concerns regarding vaccine passports in the state of Michigan. I believe that it should be everyone's choice if they would like to receive the Covid-19 Vaccine. People should not be forced or coerced into taking something if they don't want to. I have personally had Covid 19 and there is no talk of me carrying a card to show I have natural antibodies. Frankly, it's nobody's business. If items such as Vaccine Passports and mask mandates become a requirement of this state, my family and I will leave. I pay taxes in this beautiful state and I'm slowly wondering what happened to America.... the Land of the Free, Home of the Brave. Sad state of affairs we are in.

Subject: Vaccine passports

Dear Mr. Thrush:

I urge the committee to ban vaccine passports in favor of rights to privacy, personal choice, and individual freedom to make medical decisions without risk of discrimination. My body, my choice. The number of lawsuits against pharmaceutical companies for their grievous mistakes of the past is good evidence of the tenuousness of the trust that can be placed in them.

Thank you for your consideration.

Sincerely,

Nicole L. Thompson, J.D.

Medical information should remain private. I am completely against vaccine passports as well as mandating vaccines of any kind.

Subject: No to Vaccine Passport

Hello Taylor Thrush,

Please vote to ban the government vaccine passports. The people of Michigan should have a choice if they want to get vaccinated or not. The Covid-19 vaccine is not FDA approved. I am against putting an experimental shot into my body. I have already had Covid-19 and tested positive for antibodies. I do not need to have an experimental shot to protect me from Covid-19 that is what my immune system is for.

Thank You,
Monica Radyko

Please vote YES on HB4667

I do not wish to speak in person. Instead I wish to notify you that I support this bill against vaccination passports. We should have the right to our privacy regarding our medical information. Thank you!

Respectfully,

Joanne Page

Good evening,

Thank you for responding to our action alert. We had a large team of volunteers hand-writing cards to submit in support of HB 4667 tomorrow at the hearing. We have never seen such a strong response to one of our calls to action. Literally, we had thousands of requests.

We will be submitting a stack of over 1500 cards tomorrow at the hearing but couldn't get to all of them.

We ask you email the Committee Clerk, Taylor Thrush, at TThrush@house.mi.gov NOW to be sure all voices are heard. Just answer the following questions in your email.

I will not be getting vaccinated. No one has the right to force someone to get anything put inside them. I take absolutely no medication and i will continue with that.

I wish to voice my support of HB 4667 as long as it DOES NOT GIVE PERMISSION to businesses to enforce some kind of "big brother" tyranny on behalf of the government. Make sure the wording does NOT include this possibility.

My intense concern is to raise a HUGE RED FLAG regarding anything akin to a vaccine certificate or passport. It would be a terrible step downward in the direction of Nazi Germany. I have a number of friends who came to America for freedom (from Latvia, Belarus, Romania, and Hungary, and I adopted children from Ukraine). They all left behind them the Holocaust and oppression in their nations of origin for FREEDOM here in America. I myself immigrated from Canada, when we were forced to endure the intrusiveness of socialized medicine. I am very opposed to the concept of the government watching over our shoulders and curtailing our activities "for our own good".

WE ARE grown up. WE ARE AMERICANS! WE ARE SMART, CAPABLE, AND FREE! Let us alone, and we will work it out without anyone tracking us and stopping our cars at checkpoints and limiting our freedoms with so-called vaccine passports. No No No!

Thank you for acting with courage and truly representing the large proportion of the free citizens of our beloved country.

Sincerely, Sylvia Halpert

Subject: Vaccine Passports

Dear Committee Clark Taylor Thrush,

I'm writing this evening to voice my opposition to mandatory vaccinations and vaccine passports.

This should remain a personal choice and is unconstitutional. Let's keep America free from governmental over reach.

Thank you & Best regards,
Rebecca Benson
