Subject: Support for HB4252

Greetings Chair O'Malley,

This message serves to convey the Michigan Railroads Association's full support for HB4252 (H1). I hope this message can be read aloud, or shared through hardcopy, with all committee members.

We would like to thank you, Rep Sneller, MML and CRA for working on this compromise. Moving to an inflationary adjustment instead of a ten year study plan is reasonable and thoughtful policy.

I regret not being able to join you today.

Best regards,
Jon
