Using the Common Access Card as signature verification for overseas military has not been approved by the Department of Defense and is not considered reliable by servicemembers. This would increase the opportunity for ballot fraud and decrease confidence in election integrity.

**Flag Status:** Completed

Good afternoon,

Please accept this as written testimony in opposition to Senate Bill 311. The Common Access Card has not been approved as signature verification for overseas military by the Department of Defense, and servicemembers do not consider it reliable. This would increase the opportunity for ballot fraud and decrease confidence in election integrity even further.

Respectfully,  
Jennifer Darrah
