Dear Representative Tyrone Carter,

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable. I am one of the nearly 500,000 citizens in Our state without heat or power in the middle of winter.

Sincerely,
Flor Hernandez
843 N Green St Detroit, MI 48209-2218

Dear Representative Tyrone Carter,

Each time the power goes out, our community takes a hit. We spend hundreds of dollars replacing spoiled food, and miss days of work or school. For elderly family members and neighbors, who are vulnerable to heat exposure, and for people with medical devices that require electricity, blackouts can be deadly. Nearly a million people in Michigan are without power today, with nighttime temperatures falling well below freezing in the coming days.

Meanwhile, our state's investor-owned monopoly utilities shovel profits to shareholders and evade accountability for the real costs of their failing infrastructure.

In short, hundreds of thousands of families are sitting in the cold without power again because DTE has prioritized shareholder profits over affordable, reliable electricity for customers. What's worse, DTE pours money into campaign donations and lobbying because it's paid off for them. More than 90 percent of state legislators took money from DTE in the 2022 election. They've effectively escaped accountability despite consistent public outrage at their awful service, long blackouts, and rising rates.

But it doesn't have to be this way. Michiganders shouldn't go days on end without power while nothing is done because we haven't mustered the political courage to stand up to an investor-owned utility bully.

That is why I am writing to encourage you to stand firmly in your values & show people whose side you're on. Customers deserve automatic, hourly compensation for hours in the dark – and utilities should not be able to raise rates to cover the costs of compensation if they perform worse than their peers in the industry.

We need reliable, affordable, people-centered energy that meets the needs of all Michiganders. When the power goes out, it's always an inconvenience, but for many it can have huge consequences for their health and finances.

Will you take action to reimburse customers who've been consistently failed by DTE, and take further action to hold DTE accountable for the damage they've caused our communities?

Thank you,

Sincerely,
Yvonne Navarrete

Customers deserve automatic, hourly compensation for hours in the dark – and utilities should not be able to raise rates to cover the costs of compensation if they perform worse than their peers in the industry.

We need reliable, affordable, people-centered energy that meets the needs of all Michiganders. When the power goes out, it's always an inconvenience, but for many it can have huge consequences for their health and finances.

Will you take action to reimburse customers who've been consistently failed by DTE, and take further action to hold DTE accountable for the damage they've caused our communities?

Thank you,

Sincerely,
Charles Simmons
3230 Lothrop St Detroit, MI 48206-2576

Dear Representative Tyrone Carter,

As a mom with breastmilk in the freezer and babies that need to stay warm, extended power outages are NOT OK. I even talked to one woman in my community who has a cpap machine, and she had to stay at a motel because of the power outage.

Meanwhile, our state's investor-owned monopoly utilities shovel profits to shareholders and evade accountability for the real costs of their failing infrastructure.

Hundreds of thousands of families are sitting in the cold without power again because DTE has prioritized shareholder profits over affordable, reliable electricity for customers. What's worse, DTE pours money into campaign donations and lobbying because it's paid off for them. More than 90 percent of state legislators took money from DTE in the 2022 election. They've effectively escaped accountability despite consistent public outrage at their awful service, long blackouts, and rising rates.

This is not normal. Power companies don't get to do this AND ask for a 19% rate hike simultaneously in other parts of the country. STOP DTE'S POWER!!!

It doesn't have to be this way. Michiganders shouldn't go days on end without power while nothing is done because we haven't mustered the political courage to stand up to an investor-owned utility bully.

That is why I am writing to encourage you to stand firmly in your values & show people whose side you're on. Customers deserve automatic, hourly compensation for hours in the dark – and utilities should not be able to raise rates to cover the costs of compensation if they perform worse than their peers in the industry.

We need reliable, affordable, people-centered energy that meets the needs of all Michiganders. When the power goes out, it's always an inconvenience, but for many it can have huge consequences for their health and finances.

Will you take action to reimburse customers who've been consistently failed by DTE, and take further action to hold DTE accountable for the damage they've caused our communities?

Dear Representative Tyrone Carter,

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable.

Sincerely,
ALICIA BYRD

Dear Representative Tyrone Carter,

Each time the power goes out, our community takes a hit. We spend hundreds of dollars replacing spoiled food, and miss days of work or school. For elderly family members and neighbors, who are vulnerable to heat exposure, and for people with medical devices that require electricity, blackouts can be deadly. Nearly a million people in Michigan are without power today, with nighttime temperatures falling well below freezing in the coming days.

Meanwhile, our state's investor-owned monopoly utilities shovel profits to shareholders and evade accountability for the real costs of their failing infrastructure.

In short, hundreds of thousands of families are sitting in the cold without power again because DTE has prioritized shareholder profits over affordable, reliable electricity for customers. What's worse, DTE pours money into campaign donations and lobbying because it's paid off for them. More than 90 percent of state legislators took money from DTE in the 2022 election. They've effectively escaped accountability despite consistent public outrage at their awful service, long blackouts, and rising rates.

Dear Rep. Carter:

I am writing to express my concern regarding DTE Energy's failure to deliver on its responsibility to provide reliable, affordable, and clean energy to its customers. The recent power outages resulting from ice storms across the state left over 600,000 DTE customers without power, and many residents without electricity for consecutive days.

In the face of widespread power outages affecting DTE customers across the utility's service area, DTE is proposing record-breaking rate increases that threaten to raise energy bills for customers at a time when reliable service cannot be guaranteed. Many of these same customers are already struggling to make ends meet as the cost of living crisis continues to grow.

As your constituent, I urge you to hold hearings in the Senate and House energy committees to discuss rapid response for residents in need of relief and to evaluate solutions to better meet the needs of Michiganders, not the utility's bottom line. We cannot let DTE Energy continue to prioritize profits over the well-being of Michiganders.

Furthermore, I urge you to require utilities to compensate or refund customers more fairly for the harm caused by power outages and negligence on the part of the utility. DTE Energy's failures have resulted in significant harm to the people of Michigan, and the utility must be held accountable.

We need to ensure that our utilities are providing reliable, affordable, and sustainable energy to Michiganders. It's clear that this recent extreme weather will not be the last time that the reliability of our electric grid is tested, and the need for solutions that prioritize Michigan's wallets, health, and climate has never been greater. I urge you to take swift action to hold DTE Energy accountable and to protect the well-being of Michiganders.

Thank you for your attention to this critical issue.

Sincerely,

Sincerely,
