**Subject:** Hold DTE Energy accountable

[You don't often get email from katelynken9347@everyactionadvocacy.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification> ]

Dear Representative Helena Scott,

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable.

Sincerely,  
Dorothea Martin  
14920 Cloverlawn St Detroit, MI 48238-1886 katelynken9347@gmail.com

You don't often get email from superkatdidthebiteo87@gmail.com. [Learn why this is important](#)

Hello,

My name is Rodrick Meyers. I'm from Traverse City, and I am currently in a meeting with the Michigan League of Conservation Voters. I've just recently learned that DTE proposed a rate hike of around \$620 million, ironically while a whole bunch of Michiganders are without power. DTE seriously needs to do better, and they need to be held accountable.

I am emailing to ask you to clamp down on DTE!!! We, the people of Michigan, deserve better! Please protect us Michiganders and make sure DTE's held accountable.

Thank you for your time and reading this message.

Stay warm & stay safe!

Rod

The sad part is I believe they can put a stronger wire in place of the old ones because if we don't pay them we get shut off but when we have storms we not only be without lights and heat for days we still have to pay dte. That is not cool and so not fair we can't afford they high services and yet we still pay and still suffer 🙄🙄🙄

[You don't often get email from art@everyactionadvocacy.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification> ]

Dear Representative Helena Scott,

Each time the power goes out, our community takes a hit. We spend hundreds of dollars replacing spoiled food, and miss days of work or school. For elderly family members and neighbors, who are vulnerable to heat exposure, and for people with medical devices that require electricity, blackouts can be deadly. Nearly a million people in Michigan are without power today, with nighttime temperatures falling well below freezing in the coming days.

Meanwhile, our state's investor-owned monopoly utilities shovel profits to shareholders and evade accountability for the real costs of their failing infrastructure.

In short, hundreds of thousands of families are sitting in the cold without power again because DTE has prioritized shareholder profits over affordable, reliable electricity for customers. What's worse, DTE pours money into campaign donations and lobbying because it's paid off for them. More than 90 percent of state legislators took money from DTE in the 2022 election. They've effectively escaped accountability despite consistent public outrage at their awful service, long blackouts, and rising rates.

But it doesn't have to be this way. Michiganders shouldn't go days on end without power while nothing is done because we haven't mustered the political courage to stand up to an investor-owned utility bully.

That is why I am writing to encourage you to stand firmly in your values & show people whose side you're on. Customers deserve automatic, hourly compensation for hours in the dark – and utilities should not be able to raise rates to cover the costs of compensation if they perform worse than their peers in the industry.

We need reliable, affordable, people-centered energy that meets the needs of all Michiganders. When the power goes out, it's always an inconvenience, but for many it can have huge consequences for their health and finances.

Will you take action to reimburse customers who've been consistently failed by DTE, and take further action to hold DTE accountable for the damage they've caused our communities?

Thank you,

Sincerely,  
Art Reyes

[You don't often get email from doodlelady@everyactionadvocacy.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification> ]

Dear Representative Helena Scott,

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable.

When my power went out, I lost over \$300.00 of meat. I submitted a claim, took pictures and sent in receipts but was denied compensation.

Sincerely,  
Leotha Boone  
8744 Pembroke Ave Detroit, MI 48221-1125 doodlelady@gmail.com

Subject: re Our Environment

Message Body:

Hello Rep. Scott,

My name is Carol Jachim, and I am nearly 81 years old. My husband and I live in Harper Woods, Michigan. Thank you for being an environmental champion. I am writing because I learned that DTE announced over \$620 million in rate hikes, the highest in state's history, and on the same week thousands are without power. DTE needs to do better. Please protect Michiganders and hold DTE accountable ... for the sake of all of us. Thank you for your good work.

Sincerely,  
Carol Jachim

**Subject:** Hold DTE Energy Accountable For Winter Storm Outages

You don't often get email from dsoalto@icloud.com. [Learn why this is important](#)

Dear Helena Scott,

I am Cathy Compton, a Michigan resident. I'm emailing to let you know that I am sick and tired of the lack of action from DTE Energy to provide an affordable, reliable grid. And now they want another more than \$600 million more to do what? The same thing that clearly isn't working!

I am asking you to hold these greedy utilities accountable, and create local solutions that actually work.

A new report found that grid outages cost Michigan residents nearly \$3.5 billion in 2021. An unreliable grid is expensive, and Michiganders like me are ultimately footing the bill. Instead, localized resources like rooftop solar paired with batteries have reduced the frequency and severity of rolling blackouts across the country. That is what we need here in Michigan!

Will you hold DTE and their peers accountable and offer better solutions for Michigan residents like me?

Thank you for standing up for my right to reliable and resilient energy,

Sincerely,  
Cathy Compton

Dear Representative Helena Scott,

Each time the power goes out, our community takes a hit. We spend hundreds of dollars replacing spoiled food, and miss days of work or school. For elderly family members and neighbors, who are vulnerable to heat exposure, and for people with medical devices that require electricity, blackouts can be deadly. Nearly a million people in Michigan are without power today, with nighttime temperatures falling well below freezing in the coming days.

Meanwhile, our state's investor-owned monopoly utilities shovel profits to shareholders and evade accountability for the real costs of their failing infrastructure.

In short, hundreds of thousands of families are sitting in the cold without power again because DTE has prioritized shareholder profits over affordable, reliable electricity for customers. What's worse, DTE pours money into campaign donations and lobbying because it's paid off for them. More than 90 percent of state legislators took money from DTE in the 2022 election. They've effectively escaped accountability despite consistent public outrage at their awful service, long blackouts, and rising rates.

But it doesn't have to be this way. Michiganders shouldn't go days on end without power while nothing is done because we haven't mustered the political courage to stand up to an investor-owned utility bully.

That is why I am writing to encourage you to stand firmly in your values & show people whose side you're on. Customers deserve automatic, hourly compensation for hours in the dark – and utilities should not be able to raise rates to cover the costs of compensation if they perform worse than their peers in the industry.

We need reliable, affordable, people-centered energy that meets the needs of all Michiganders. When the power goes out, it's always an inconvenience, but for many it can have huge consequences for their health and finances.

Will you take action to reimburse customers who've been consistently failed by DTE, and take further action to hold DTE accountable for the damage they've caused our communities?

Thank you,

Sincerely,  
Kiara Williams  
8510 Pembroke Ave Detroit, MI 48221-1121 erinwill36@gmail.com

Dear Representative Helena Scott,

Each time the power goes out, our community takes a hit. We spend hundreds of dollars replacing spoiled food, and miss days of work or school. Not to mention lost pets that cost me thousands of dollars. For elderly family members and neighbors, who are vulnerable to heat exposure, and for people with medical devices that require electricity, blackouts can be deadly. Nearly a million people in Michigan are without power today, with nighttime temperatures falling well below freezing in the coming days. I've had to invest in a generator which also costs money to run. Not to mention has limited capacity.

Meanwhile, our state's investor-owned monopoly utilities shovel profits to shareholders and evade accountability for the real costs of their failing infrastructure.

In short, hundreds of thousands of families are sitting in the cold without power again because DTE has prioritized shareholder profits over affordable, reliable electricity for customers. What's worse, DTE pours money into campaign donations and lobbying because it's paid off for them. More than 90 percent of state legislators took money from DTE in the 2022 election. They've effectively escaped accountability despite consistent public outrage at their awful service, long blackouts, and rising rates.

But it doesn't have to be this way. Michiganders shouldn't go days on end without power while nothing is done because we haven't mustered the political courage to stand up to an investor-owned utility bully.

Dear Representative Helena Scott,

Hello,

In addition, when our power stays off our groceries go bad and things happen to our furnaces due to the extended time without heat. My light are on now but i have to replace a part on my furniture due to this outage. It was previously working fine. Unfortunately, DTE doesn't help with any of these cost. Not to mention hotel fees that sky rocket due to power outages that DTE doesn't help with either. We are all prisoners of DTE and we should he able to choose which energy company is right for our needs. DTE gave everyone \$25 to accommodate them for hardship this past summer which wasn't even enough to replace the groceries I had to trash. DTE should be held accountable for their slow service and negligence. They should also have grace and consideration for those struggles financially, the elderly and children forced to suffer through this.

Sincerely,  
Shaquanna Meeks

Dear Representative Helena Scott,

This recent storm proves the lack of reliability of DTE. Last summer, we had no power for a week. The best they could do was give us a bag of ice, a small portable battery, and a pair of movie tickets. Now, businesses are closed, homes are without heat, and streetlights are out.

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is. They claim it is for infrastructure; I wonder how much their executives are earning.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable.

Dear Representative Helena Scott,

I am a new home owner with a baby in Detroit. My baby is 8 months old, and in her life-time, we've lost power in my region twice for more than 48 hours.

This was during extremely hot and cold seasons - August and February. The first time we lost power for 5 days. Right now, my region has lost power since Thursday - going on 3 days.

These are VERY long days for those without power. The temperatures are dangerous for children and families, expensive to temporarily move or relocate and eat out (which is tough even for a family like ours which is financially secure), and taxing for working parents who are having to spend more time thinking about how we'll eat, stay warm/cool and be safe.

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable.

Sincerely,  
Allison Jordan  
16925 Normandy St Detroit, MI 48221-3317 alli.d.jordan@gmail.com

[You don't often get email from heidi.owens.41txdo2u@user.resistbot.email. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification> ]

Representative Helena Scott,

We have been without power since Wednesday. We were sent messages from DTE that our power was restored. It wasn't. We received text messages that power would be restored on Friday, then Saturday, then Sunday and now Monday. I don't trust DTE to have it done then either. It's 40 degrees in my house. My food is spoiled. My water bill is going to be astronomical due to an effort to try to prevent my pipes from freezing. This ordeal has cost us nearly \$1000 already. It will be more if my pipes freeze or sensitive electronics in my home are damaged. I'm tired of this. DTE is ranked one of the most unreliable utilities in the country. It's shameful the way residents are treated. This company profits around a billion dollars annually. This should be illegal. It's high time the State steps in to protect Michiganders from this greedy and predatory monopoly. Lawmakers must force them to invest in the grid appropriately. They won't do it on their own accord. Outage after outage we expected to put up with this company's egregious behavior. Enough is enough! What is going to be done about this by the elected officials of the State of Michigan?

Heidi Owens

Dear Representative Helena Scott,

I recently learned that DTE wants to raise rates by \$622 million, the highest rate increase in state history. We already pay the highest rates paired with the worst reliability in the Midwest. We can't afford another rate increase, especially when DTE can't keep the power on as it is.

Over the past 12 months, DTE has tried to raise our rates by \$1 billion. Enough is enough. DTE is asking for more of our money and they aren't being made to improve their service. DTE must do better, and I ask that you hold them accountable.

Sincerely,  
Crystal Jones
