

Michigan voters support common-sense regulations on abortion, like 24-hour waiting periods, parental consent for children seeking abortion, and health and safety standards on clinics.

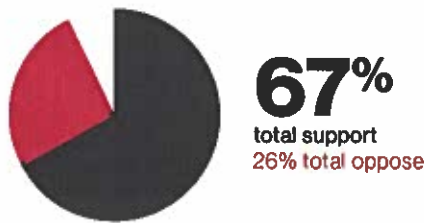

24-Hour Waiting Periods

“Do you support or oppose a regulation that requires a 24-hour waiting period to allow for informed consent before a woman receives an abortion?”

Parental Consent

“Do you support or oppose requiring parents to consent to their minor-age child having an abortion?”

Health and Safety Standards

“Do you support or oppose a regulation that requires that abortion facilities be licensed and inspected by the state for health and safety reasons?”

Pro-choice voters support these abortion regulations as well.

So do people who voted yes on Proposal 3.
