

Good Morning Molly Wingrove,

My name is Cynthia Maher, and I am the Executive Director for the Michigan Plumbing & Mechanical Contractors Association as well as the Michigan Mechanical Contractors Association. Due to a previously scheduled meeting, I am electronically submitting our card and remarks for House Bill 4648.

I wish to indicate the Michigan Plumbing & Mechanical Contractors Association is currently in Support of HB 4648.

MPMCA/MMCA has worked with both the committee level of this practice and the change to the 2-person review process. MPMCA/MMCA feels with the size of the International Codes the committee level process of review gives the ability for a much deeper consideration of the changes at the International Level. When comparing the International Codes to the Michigan Code it gives more input from the people "in the field" doing or inspecting the work daily. The process was, if you compare the timelines, longer with the 2-person review committee as compared to the previous larger committee where sections could be broken up into more easily handled/reviewed items. It also allows for a more visible process in adopting code changes that will affect the licensees as well as citizens of Michigan.

Thank you and if you have any questions, please feel free to reach out to me.

Cynthia Maher, CAE
