Subject: Public Comment - Stop HJR B and Protect Our Right to Vote!

House Election Integrity Committee,

I urge you to oppose HJR B, a bill that would impose unnecessary barriers to voting in Michigan. This legislation would force residents—many of whom have been registered voters for years—to provide additional documentation, such as passports or birth certificates, just to stay on the voter rolls. This is an unfair and unnecessary hurdle that would disproportionately impact seniors, students, military families, and working-class voters.

Instead of making it harder for Michiganders to vote, we should be working to expand access to the ballot and ensure our elections remain free, fair, and accessible for all. I strongly urge you to reject HJR B and protect the fundamental right to vote in Michigan.

Subject: Oppose HJR B

Dear Committee Members,

I oppose HJR B. It would require citizens to obtain documents and would be costly and time-consuming, effectively acting as a modern-day poll tax. This resolution also contradicts the will of Michigan voters, who supported expanded ballot access through Proposal 22-2. All studies of election integrity indicate that the type of voter ID fraud that this bill addresses is extremely rare and easily detected by laws already in place. Still this bill is offered that would disenfranchise women, seniors, college students, tribal citizens, formerly incarcerated individuals, rural communities and active-duty military members.

- - Simply put, HJR B will prevent eligible American citizens from voting!
 - Other states that have passed proof of citizenship laws have ultimately deprived tens of thousands of eligible Americans of the right to vote. They have not prevented significant voter fraud. If the choice between one noncitizen illegally voting or tens of thousands of eligible Americans denied their constitutional right to vote, we must choose the rights of U.S. citizens every time.
 - This policy is a non-solution in search of a problem. Incidents of noncitizens voting are very, very rare.
 - If lawmakers are truly worried about election integrity, they should focus on protecting the right of every eligible Michigan voter to cast a ballot, rather than perpetuating false and harmful rhetoric about noncitizens in our state.
 - Allowing fear mongering to guide policy is the real threat to free and secure elections.
 - We should be breaking down barriers to voting, not building new ones. Michigan's current voting system, including our voter ID law, works for Michigan voters, and any changes to that law that would make it more difficult to vote will move us backwards and prevent tens of thousands of Michiganders from voting.

Subject: Public Comment - Stop HJR B and Protect Our Right to Vote!

House Election Integrity Committee,

I am a senior who moved to Michigan in 2002. My wife and I just retired this year. Please maintain our current rules and vote NO on HJR B. New barriers to impede a citizen's ability to vote is un-American. Our current system has worked fine for many years, with virtually NO issues. This new proposal is clearly an attempt to tip the balance against people who may not have the time or resources to do anything but vote.

Subject: Stop SAVE VOTERS ACT TODAY AND STOP Violating My Civil Rights and Voting Rights

My letter to Comittee Members.,

Dear Committee Members,

Cease and desist SAVE Voters Act that violates my civil rights as a woman and my voting rights by this egregious power grab.

The SAVE Voters Act intentionally arbitrarily uses physical characteristics such as gender, sex, disability, to marginalize groups and decide who votes; thus discriminates against us to prohibit us from voting because of all the gutting of US government programs, services, for women, children, senior adults, disabled are base and vile; grossly make the rich richer, while you all severely harm, injure, even directly or indirectly contribute to the death to your constituents.

I am 65; woman, a former federal employee of Homeland Security and US Coast Guard working on the Mackinaw Ice Cutter in Cheboygen. Michigan who proudly served Michigan, my country and took the oath to uphold the US Constitution and civil rights laws in voting rights. I adhere to my pledge and oath to the US Constitution you wish to cut in favor of authoritarianism and dictatorship the US founding fathers warned us about.

March 3, 2025 Trump embraces Project 2025 fascism as he kisses the assets of billionaire musk and Russia putin; with Republican mega foot soldiers trading world peace and civil society for power and greed.

Here we Michiganders stand in the face of fascism the US fought a cold war over. In 1965, at John Lodge elementary school, in Detroit Michigan, I practiced air raid drills in school at age 5 through 'duck and cover' and practiced air raid drills going to the basement of my school.

In the 1960s, Only a very few people knew nukes were pointed directly at the United States of the shores of Cuba in 1960s placed there by Russia czar Khrushchev who hated our US President John F Kennedy.

The only reason the US and Cuba did not exchange nuclear war was Vasili Arkhipov, a Soviet officer who prevented a nuclear torpedo launch during the Cuban Missile Crisis This is the unsung story of Soviet naval officer Vasili Arkhipov, the Brigade Chief of Staff on submarine B-59, who refused to fire a nuclear missile and saved the world from World War III and nuclear disaster.

So here's the trump administration is gutting and declared war on US citizens by gutting the US government programs and services; has sold the US presidency to Putin, the richest man in the world, Elon Musk, who is using his own private well armed mercenary army, flipping the allegiance of long time federal employees under physical, financial, psychological threat, and non-vetted teens and young adults to delete and crash computer servers... send our rogue notices of mass employment termination letters, including the employees who keep the US nukes stock pile out of other countries hands -- who deleted all employee records of these folks and now need them back.

The Stop Voters Act goal is to stop minority groups from voting and taco and republicans can continue their destruction of democracy in favor of dictatorship and making Gaza a casino. Cease and Desist Save STOP Voters Act effective immediately!

I oppose HJR B. It would require citizens to obtain documents and would be costly and time-consuming, effectively

acting as a modern-day poll tax. This resolution also contradicts the will of Michigan voters, who supported expanded ballot access through Proposal 22-2. Subject: I Urge You to Vote NO on HJR-B

Dear Committee Members,

I am writing to urge you to vote **AGAINST HJR-B**. Michiganders have overwhelmingly supported enshrining voting rights in our state constitution—twice. This resolution directly undermines the will of the people and has the potential to strip tens of thousands of Michigan citizens of their right to access the ballot. HJR-B does not enhance election security; instead, it creates unnecessary financial and logistical barriers for eligible voters.

Michigan's elections are already safe and secure. HJR-B would undo the progress we've made in expanding fair and accessible voting. As a lawmaker, I urge you to protect and expand ballot access, not restrict it.

Voting is the cornerstone of our democracy, and our democracy functions best when every eligible voter can cast their ballot without barriers. Michiganders have repeatedly demonstrated strong support for the voting rights protections in our state constitution. Please stand with us in protecting those rights and vote **NO on HJR-B**.

Sincerely,

Siena Whitham

This legislation would force residents—many of whom have been registered voters for years—to provide additional documentation, such as passports or birth certificates, just to stay on the voter rolls. This is an unfair and unnecessary hurdle that would disproportionately impact seniors, students, military families, and working-class voters.

There will likely be confusion, long lines, and angst for people like me, a senior, who is worried about when I would even know that I have been purged from the floating rolls. How was this going to affect people who vote absentee?

From understand, there is a very low incidence of voting by non-citizens. It does happen, and I think people who are supporting this resolution exaggerate the numbers of non-citizen voters. It will instead keep people who don't have the time to go searching for a birth certificate, or the money for a passport from voting. This seems like an effort by people who are privileged to keep "Other people not like them" from voting. Not American.

Voting Instead of making it harder for Michiganders to vote, we should be working to expand access to the ballot and ensure our elections remain free, fair, and accessible for all. I strongly urge you to reject HJR B and protect the fundamental right to vote in Michigan.

House Election Integrity Committee,

I urge you to oppose HJR B, a bill that would impose unnecessary barriers to voting in Michigan. This legislation would force residents—many of whom have been registered voters for years—to provide additional documentation, such as passports or birth certificates, just to stay on the voter rolls. This is an unfair and unnecessary hurdle that would disproportionately impact seniors, students, military families, and working-class voters.

Instead of making it harder for Michiganders to vote, we should be working to expand access to the ballot and ensure our elections remain free, fair, and accessible for all. I strongly urge you to reject HJR B and protect the fundamental right to vote in Michigan.

Dear Committee Members, I oppose HJR B. It would require citizens to obtain documents and would be costly and time-consuming, effectively acting as a modern-day poll tax. Michigan voters supported expanded ballot access through Proposal 22-2. This bill would disenfranchise our citizens who do not have easy access to these documents including women, seniors, college students, tribal citizens, formerly incarcerated persons, rural communities and active-duty military members.

Dear Committee Members,

I am opposed to this resolution, as its only goal is to make voting more challenging for people.

Let's call a spade a spade: The GOP has been lying for several years now, trying to make people think that our elections are rife with fraud.

This is nonsense and they know it. But they also know that if certain populations have to jump through enough hoops, their chances are better.

This is despicable. Please, Dems. Choke this as best you can.

Dear Committee Members,

I am writing because I am deeply concerned about HJR B. This Resolution would effectively act as a modern-day poll tax because it would require citizens to obtain potentially costly or difficult to get documents. This Resolution also blatantly contradicts the will of Michigan voters, who supported expanded ballot access through Proposal 22-2, a proposal I actively supported. Let us remember that the first line in the Michigan constitution is "All power is inherent in the people."

Furthermore, election integrity studies overwhelmingly indicate that the type of voter ID fraud that this bill claims to address is extremely rare and easily detected by laws already in place. This Resolution would disenfranchise women, seniors, college students, tribal citizens,

formerly incarcerated individuals, rural communities, and active-duty military members and would be an affront to our state constitution. It must not proceed.

Thank you.

Subject: Public Comment - Stop HJR B and Protect Our Right to Vote!

House Election Integrity Committee,

I urge you to oppose HJR B, a bill that would impose unnecessary barriers to voting in Michigan. This legislation would force residents—many of whom have been registered voters for years like myself—to provide additional documentation, such as passports or birth certificates, just to stay on the voter rolls. This is an unfair and unnecessary hurdle that would disproportionately impact seniors, students, military families, and working-class voters.

Michiganders voted in 2018 and again in 2022 to expand voting with the Promote the Vote citizen led-initiative ballot that passed with 60% of the voters in Michigan agreeing with making voting easier not harder.

So instead of making it harder for Michiganders to vote, we should be working to expand access to the ballot and ensure our elections remain free, fair, and accessible for all. I strongly urge you to reject HJR B and protect the fundamental right to vote in Michigan.

As a senior who has lived in Michigan for just about all of my life I find these tactics of voter suppression incomprehensible. Republicans have built this lie of non-citizens voting to have an excuse for why trump lost in 2020. It was a lie then and it is a lie now. It is destroying our country. Stop with the lies and stop trying to make it harder for Michiganders like me to vote.

Sincerely,
Renee Guido

House Election Integrity Committee,

The people of Michigan have spoken. We want fair voting for every person. We don't want gerrymandering and we don't want voting to be difficult or rigged. We want voting to be an inalienable right for every citizen no matter what party they belong to.

I urge you to oppose HJR B, a bill that would impose unnecessary barriers to voting in Michigan. This legislation would force residents—many of whom have been registered voters for years—to provide additional documentation, such as passports or birth certificates, just to stay on the voter rolls. Subject: House Joint Resolution B (HJR B)

Dear Committee Members, I oppose HJR B. It would require citizens to obtain documents and would be costly and time-consuming, effectively acting as a modern-day poll tax. This resolution also contradicts the will of Michigan voters, who supported expanded ballot access through Proposal 22-2. This bill would disenfranchise women, seniors, college students, tribal citizens, formerly incarcerated indivisibles, rural communities and active-duty military members.

Thank you,

Patricia Cook

Hello,

I wish to have my statement below admitted as testimony.

I strongly oppose HJR B, which would require proof of citizenship to register to vote. It will have the effect of making it more difficult to vote for a wide array of people, regardless of political affiliation. Politicians should succeed or fail on the basis of policies that appeal to voters! Not by seeking to disenfranchising whole groups of voters. HJR B is a BAD IDEA.

Steve

The proof of citizenship laws in this bill would deprive thousands of eligible US citizens from voting, and destroy the integrity of our voting system, instead of bolstering it.

Voters would have to present a birth certificate and state ID with an identical name match in order to vote, and a majority of women have had their name changed at marriage, which would deny them their right to vote. Many citizens do not even have certified birth certificates.

Many eligible voters cannot present a passport as proof, since they cannot afford one. In addition, one has to submit an application and once submitted, it takes an average of 6 weeks to receive it in the mail, which could easily prevent eligible citizens from voting (especially if there is a backlog due to volume of requests).

Just two years ago, Michigan voters turned out in record numbers and voted overwhelmingly to maintain Michigan's existing voter ID law into the state constitution. A mandate was established, and HJR B wishes to block that mandate.

Election integrity must include the constitutional right for **all** citizens to vote. Stop the HJRB now!

Please register my message in opposition to HJR B. The bill itself is unnecessary as there is NO proven voter fraud in Michigan, and even worse than being pointless, it will deprive Michigan citizens of access to the polls and cause voter suppression. Anything that makes it more difficult for women, poor people, those who once were incarcerated, or anyone who has legally changed their name to vote is anti-democratic. We in Michigan have to stand firm and listen to all voices as we set our policies. Don't let this progress - the committee must vote NO.

Second, I register my deep concern that this hearing does not include public testimony. Is this bill being moved forward in secrecy? All legislation that affects citizens must hear from those citizens.

Sincerely,
Joan Parker, Michigan voter

I oppose HJR B.

It is unnecessary and a burdensome requirement that those registering to vote produce a certified birth certificate or valid passport. There is not a widespread problem of undocumented immigrants voting. The resolution would prevent tens of thousands of eligible Michigan citizens from registering to vote and casting a ballot - just because they do not have proof of citizenship readily available or the documents do not match their current legal name.

Lawmakers should focus on breaking down barriers to voting and protecting the right of every eligible Michigan voter to cast a ballot.

RE: Opposition to House Joint Resolution B (HJR B)

Dear Committee Clerk Thrush:

The twenty-six Michigan Chapters of Delta Sigma Theta Sorority, Incorporated are writing to voice opposition to House Joint Resolution (HJR B). We believe it will disfranchise Michigan citizens from voting. Further, many of our members are married and we are deeply concerned that married women voices will be regulated to Provisional Voting when there is no reason to doubt our citizenship because of our marital status. We are also concerned about the impact of this resolution on Returning Citizens who frequently have difficulty securing documents such as birth certificates and state identification.

Delta Sigma Theta Sorority, Incorporated is a private, not-for-profit organization whose purpose is to provide assistance and support through established programs in local communities throughout the world. The sorority currently has 1,000 collegiate and alumnae chapters located in the United States, Canada, Japan (Tokyo and Okinawa), Germany, the Virgin Islands, Bermuda, the Bahamas, Jamaica, West Africa, Southern African, United Arab Emirates and the Republic of Korea.

There are several other points that we believe will make the passage of this bill punitive and disfranchising:

- We should make it easier for citizens to vote, not more difficult. The current voting system in Michigan works. This resolution will take Michigan back several decades and exclude too many Michiganders from voting.
- There has not been creditable proof of widespread voter fraud in Michigan or any place in the United States.
- States that have passed citizenship requirements have deprived too many people from their right to vote.
- Fear mongering and using the racial trope of undocumented persons voting is decisive to the citizens of Michigan and disruptive to harmonious and productive Michigan.
- Two years ago, the citizens of the state voted to incorporate the existing voting identification law into the Michigan Constitution. HJR B will set voting rights back in Michigan.

We urge you to vote against HJR B. This resolution threatens to undermine the democratic process and disenfranchise countless Michigan citizens. The right to vote is fundamental to our democracy, and it is our collective responsibility to protect it.

Sincerely

A handwritten signature in cursive script that reads "Katrenia L. Camp".

To whom it may concern,

I am writing not only to express my opposition to House Joint Resolution B 2025 but also express my concern that there will be no public hearing regarding this resolution. It sets a dangerous precedent to make such a wide sweeping change without hearing from those who it will affect most. This has me truly concerned for the state of our democracy.

Sincerely,
Rachel Peterson

Sent: Tuesday, March 11, 2025 10:25 AM
To: Taylor Thrush
Subject: Opposition to HJR B

Dear Committee Clerk and Members:

I am writing to oppose HJR B up for a vote and NO public comment today in the Election Integrity Committee.

As demonstrated in the past six years under both Promote the Vote and Voters Not Politicians' amendment initiatives, the voters of Michigan support and prefer greater access to voting rights. This attempt to disenfranchise Michigan women is an affront to all citizens, to all of our daughters, sisters, and mothers.

Societies that promote the health and quality of living of women are more successful. Isn't that what we all want for Michigan?

I oppose HJR B.

Sincerely,
Beth Bowen
Trustee, Delta Charter Township

I oppose HJR B and urge you to vote NO on HJR B.

Michiganders have repeatedly and overwhelmingly supported enshrining voting rights in our state constitution. HJR B would undermine the will of the people and has the potential to strip access to the ballot from tens of thousands of Michiganders.

Our elections are free and safe. HJR B does nothing to improve election security. It would only result in financial and logistical obstacles for eligible votes.

We count on our lawmakers to protect - and expand - access to the ballot box for all eligible Michiganders. No one should be afraid of voters exercising their rights at the ballot box!

From: Carly Mach <carlymach@yahoo.com>
Sent: Tuesday, March 11, 2025 10:45 AM
To: Taylor Thrush
Subject: Vote No on HJR B

To Whom it May Concern,

As a Michigan resident, I strongly urge you to vote no on HJR B, a Michigan Constitutional Amendment that would require citizenship documentation to register to vote.

The resolution requires documentation to prove American citizenship to register to vote in elections. HJR B does not specify what documents would verify citizenship. The need to provide documentation will be especially burdensome for people who have changed their name since birth.

HJR B also requires a systematic review of the qualified voter file to check the citizenship status of currently registered voters, giving voters only 60 days to address questions before their removal from the QVF.

Michigan voters are already required to affirm or verify their citizenship status when registering. It is illegal for non-citizens to vote in elections. Election officials have systems to verify an individual voter's eligibility and ensure that voter rolls are accurate.

Please vote "No," on HJR B and assure that every eligible Michigan citizen has the right to vote.

Thank you,

From: Stephanie Matejcik <slmatejcik@gmail.com>
Sent: Tuesday, March 11, 2025 12:48 PM
To: Taylor Thrush
Subject: House Joint Resolution B of 2025

Good afternoon,

My name is Stephanie Matejcik, and I'm a lifelong Michigan resident. I'm writing out of concern regarding HJRB and would like to make my opposition known.

While ostensibly this resolution was designed to protect elections from votes by non-citizens and ensure election integrity, in practice these laws have disenfranchised some of the most underprivileged citizens.

When a similar law was passed in Arizona, it made it harder for legitimate citizens to vote, including college students, indigenous people, and homeless people, who are more likely to not have the proper documentation at the ready to prove their citizenship. These populations were around 3 times less likely to vote in the November 2024 election: <https://www.votebeat.org/arizona/2024/12/13/arizona-voter-citizenship-proof-law-shows-groups-struggling-to-provide-it/>

HJRB risks disenfranchising a great number of citizens, many of whom are impoverished or underprivileged. This would undermine their most foundational right under our republic: the right to choose our representatives in government, the idea that the United States was founded on.

I'm urging our legislature to reject this bill to protect the voting rights of those at risk of disenfranchisement.

Thank you,
Stephanie Matejcik

Hello Representative Thrush,

I am a constituent from Dexter, Michigan. I am writing to inform ask you to strongly oppose HJR-B. This bill will severely suppress voting opportunities for so many people in the state of Michigan. Voting is a fundamental value of democracy. Instituting a bill into our state's law will only divide democracy and oppose what truly makes America and the state of Michigan "great". This bill discourages voting from marginalized populations- including married women, like me, despite the fact I work full-time, pay taxes and am law abiding. This silences the voices of "The People", which is the reason our Founding Fathers instituted the Constitution of the United States of America and democracy in general.

Thank you.

From: W KI <wksmbills@gmail.com>
Sent: Tuesday, March 11, 2025 1:51 PM
To: Taylor Thrush
Subject: vote NO HJR B

To whom it may concern,

I am writing to express my strong opposition to House Joint Resolution B (HJR B), which seeks to amend Michigan's Constitution by imposing additional voter registration and identification requirements. While I support election integrity, this proposal is unnecessary, burdensome, and risks disenfranchising eligible voters.

Numerous studies and investigations, including those conducted by government agencies and bipartisan commissions, have consistently found that voter fraud, particularly by non-citizens, is extremely rare. Adding stringent proof-of-citizenship requirements for voter registration could create unnecessary barriers for many eligible Michigan voters, including seniors, rural residents, naturalized citizens, and students. Furthermore, requiring voters to present photo identification without meaningful alternatives risks disproportionately affecting marginalized communities, reducing access to the ballot box.

Michigan's elections have consistently been secure and fair, with existing safeguards in place to verify voter eligibility and prevent fraud. HJR B appears to be a solution in search of a problem, and instead of strengthening democracy, it may weaken it by making it harder for lawful voters to participate.

I urge you to oppose HJR B and instead focus on policies that expand voter access while maintaining election security. Protecting the right to vote is fundamental to our democracy, and any changes to our election system should encourage participation, not suppress it.

Thank you for your time and consideration. I appreciate your service to our community and look forward to your response on this critical issue.

Sincerely,

Wesley Klem

If lawmakers are truly worried about election integrity, they should focus on protecting the right of every eligible Michigan voter to cast a ballot, rather than perpetuating false and harmful rhetoric about noncitizens in our state.

Allowing fear mongering to guide policy is the real threat to free and secure elections.

Hello,

HJR B is a solution is search of a problem: voter fraud based on insufficient identification is already a vanishingly rare phenomena and as demonstrated in Michigan's most recent election it is easily detected and corrected with the safeguards already in place. Moreover, it flies in the face of election regulations placed into the Michigan Constitution by Prop 2 in 2022 which was supported by almost 60% of Michigan voters. We're aware that the Republicans currently hold a majority in the Michigan House of Representatives but it's frustrating that the best thing they can find to do with their majority is to repeal such a widely supported set of election laws.
