

### **Blue Cross Blue Shield of Michigan**

House Health Policy Committee March 16, 2021

Tim Antonelli, Manager Pharmacy Services Kristen Kraft, Director State Government Relations

### The value of strong networks

- Blue Cross has Michigan's largest network of providers
- Health plans and PBMs work with hospitals, physicians, pharmacies and other health care professionals that meet certain standards to ensure access to high-quality care

- Provider networks play a role in making health care more affordable by negotiating better prices for goods or services
  - These **cost-savings are passed on to customers** largely through reduced premium rates
  - Network services result in lower cost sharing and out-of-pocket costs
  - Network agreements protect members from surprise bills
  - Provider networks assist in preventing fraud, waste and abuse, benefiting the whole health care ecosystem

### Utilizing Blue Cross' pharmacy network resulted in savings of \$75 million in 2019 and \$154 million over three years

## Blue Cross has more than 90% of Michigan pharmacies in network

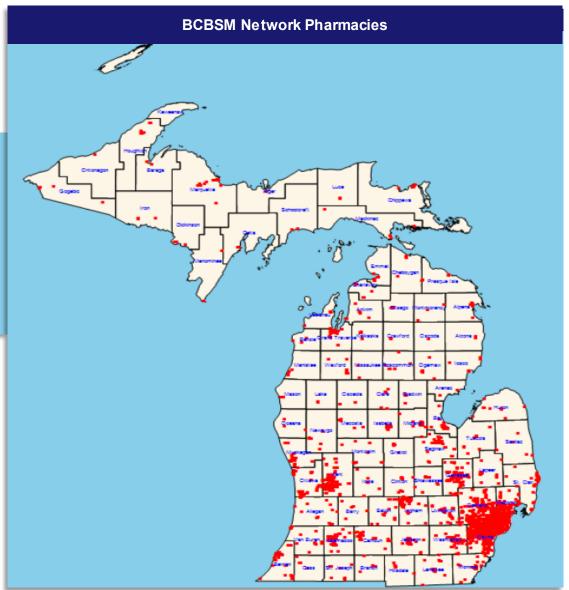

Networks are adequate as defined by federal and state law and governed by DIFS

Network contracting standards include:

- ✓ Quality measures
- ✓ Cost controls
- Fraud, waste and abuse preventions

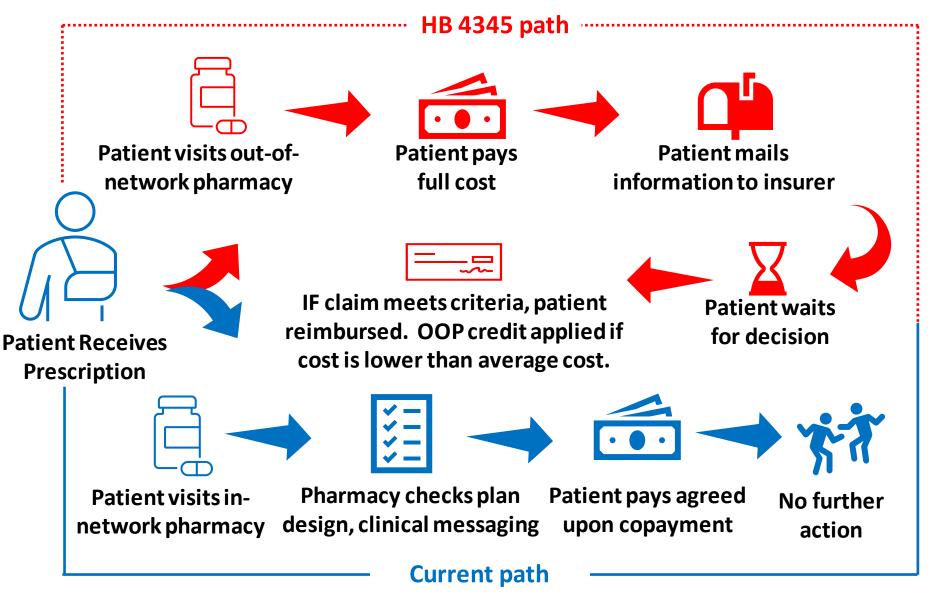

### Concerns over HB 4345:

- Circumvents pharmacy networks
- Adds administrative costs to the health care system
- Potentially reduces safety
- Administratively burdensome for patients

# Patient experience would be complicated under HB 4345

Blue Cross Blue Shield of Michigan and Blue Care Network are nonprofit corporations and independent licensees of the Blue Cross and Blue Shield Association.

## HB 4345 should be amended to address unintended consequences

A pharmacy could be out-of-network because of quality concerns or other issues.

### **Proposed Amendment**

Protect patient safety by not allowing pharmacies who have been identified by a state or federal government agency as a bad actor to participate.

#### Several government agencies monitor bad actors
