The public improvement projects for the City of Cheboygan are the painting and striping of the Lincoln Street Bridge and the rehabilitation of the sanitary sewer system in the Cheboygan Industrial Park on Western Avenue. The Lincoln Street Bridge needs recoating and striping to preserve the bridge structure and improve the snowmobile pathways that cross the bridge. The project is to benefit the transportation linkages between the east and west side of the city as well as maintaining a pathway for the outdoor recreational community. The protective coatings on the bridge decking are

necessary for its preservation and maintaining the snowmobile crossing. The rehabilitation of the bridge is important as it is a landmark for travelers to our Northern Michigan community. The sewer rehabilitation involves the installation of pipe linings, grout and the cctv of the system. This project serves the city's major non-seasonal employment center. This project will help the city maintain and improve the utilities that serve our manufacturing partners in the industrial park.
