6. If there is not a specific recipient, the intended location of the project or activity:  
N/A
7. Name of the representative and the district number where the legislatively directed spending item is located:  
Rep. Cynthia Neeley / District
8. Purpose of the legislatively directed spending item. Please include how it provides a public benefit and why it is an appropriate use of taxpayer funding. Please also demonstrate that the item does not violate Article IV, S 30 of the Michigan Constitution.  
We are requesting funding in support of the renovations to revive the Fisher Body #1 Building, a national landmark and former General Motors plant and administrative center at 4098 S Saginaw St, Flint, MI 48557. It is within a sizable EPA IRA Disadvantaged Community designation and encompasses a group of census tracts all of which are eligible for that designation. Known as SBEV's South hub, the Fisher Body Building has not been in operation for decades, resulting in the need for a complete transformation to both its interior and exterior. This building will maintain the historic integrity of the

building, but also be transformed into SBEV's space to support the high quality out of school time programming provided, but also ensure we are able to accommodate the growing enrollment of youth for the program.

Another benefit of the renovation will be the ability to create a community hub within the southside of the city of Flint. In SBEV's north side building, many community partners and organizations utilized the building to connect with the residents within the area. In our south location, we do not currently have the capacity to include additional partners and resources as we are at capacity and working to accommodate the growing number of youth enrolled in our out of school time programming. Through this renovation, we will create a southside hub that will allow the youth and their families the opportunity to connect with SBEV and additional resources all under one roof.
