Palms Road is a major north-south route in the central portion of St. Clair County. It serves as a connector to I-94. There is a large amount of posted structures in the vicinity thus restricting movement of goods, especially restricting the farming community in the area. Palms Road connects to Smiths Creek that provide direct access to the only landfill in the area. St. Clair is a closed county so all refuse has to go to this landfill. Continued restriction and/or closure of this structure would result in local traffic being forced onto other gravel local roads or distant primary roadways and considerable time increases.
