Please also demonstrate that the item does not violate Article IV, S 30 of the Michigan Constitution. The purpose of the Lathrup Village Department of Public Services Facility project is to replace a 57-year-old facility to provide a modern, accessible, and efficient space that enhances service delivery, fosters collaboration, and supports the community's needs. This Lathrup Village Department of Public Services Facility project is especially crucial as it will replace the current 57-year-old Department of Public Services building, which no longer meets the needs of today's workforce or modern safety standards. The outdated facility lacks the necessary infrastructure to support current technology, efficient

workflows, and a productive work environment. It also falls short of contemporary safety regulations, posing potential risks to both employees and the public. By constructing a new, state-of-the-art building, this project will address these challenges, ensuring a safer, more functional space that fosters collaboration, meets the demands of a modern workforce, and complies with current health and safety codes. In doing so, it will significantly improve the quality of service provided to the community while enhancing the well-being of the staff who serve them.
