RCOC requests legislatively directed spending for a culvert replacement project for the Orion Road over Paint Creek culvert, east of Adams Road, in Oakland Township. Orion Road is a minor arterial with over 8,000 annual average daily traffic (AADT). This project is crucial for ensuring the safety, efficiency, and long-term sustainability of the local transportation infrastructure. This culvert is in poor condition, and continued deterioration poses a significant risk of future weight limit restrictions or road closures. This would cause delays and challenges for residents, commuters, and businesses that rely on this route. Such disruptions could lead to longer commuter travel times, delays in

emergency response times, and ultimately affect the overall well-being of the public traveling over this culvert on Orion Road.
