8. Purpose of the legislatively directed spending item. Please include how it provides a public benefit and why it is an appropriate use of taxpayer funding. Please also demonstrate that the item does not violate Article IV, S 30 of the Michigan Constitution. This program seeks to improve the condition of unpaved roads by applying appropriate treatments based on community input and local conditions. Potential solutions include grading, shaping, resurfacing, stabilization, or paving. Upgrading to a paved surface also minimizes dust, erosion, and vehicle wear, creating a more durable and reliable transportation network. Communities will play a key role in recommending the most effective solutions to enhance road performance and reduce long-term maintenance costs.

These projects will improve road conditions, enhance safety, and provide a smoother driving experience for residents, businesses, and emergency responders. Improving these

corridors will reduce vehicle maintenance costs, improve traffic flow, and support economic development by ensuring reliable infrastructure. Investment in resurfacing and reconstruction will also help extend the life of these roadways, reducing long-term maintenance expenses for the County and the State.
