The purpose of this money is to help fund an upgrade/expansion of our public water plant. This plant serves a segment of our population as a water source as well as local businesses. We currently are running at up to 85% capacity which will limit the amount of expansion that our water system can take. This will also limit the ability of us to make use of the land available for new businesses at our business district because of the lack of a municipal water source there. We have also had some system failures at our plant in the past year. These needed upgrades, including a potential water tower, will provide

redundancies to our systems in case of potential failures, limiting or eliminating the time residents and businesses are without water. This project is in the scope of the use of public money since it would benefit all members of our community.
