# Department of Health and Human Services

The Michigan Department of Health and Human Services (DHHS) was created in 2015 by the merger of the former Departments of Community Health (DCH) and Human Services (DHS).

- The **Health Services** portion of the DHHS budget provides funding for:
  - Medical services programs, including Medicaid and the Healthy Michigan Plan
  - Behavioral health services, including substance use disorder services
  - Population health programs (public health)
  - Aging and adult services
- The **Human Services** portion of the DHHS budget includes programs and services to assist Michigan's most vulnerable families. This includes:
  - Public assistance programs
  - Protecting children and assisting families by administering foster care, adoption, and family preservation programs, and by enforcing child support laws

# Key Budget Terms

**Fiscal Year:** The state's fiscal year (FY) runs from October to September. FY 2023-24 is October 1, 2023 through September 30, 2024.

**Appropriation:** Authority to expend funds. An appropriation is not a mandate to spend. Constitutionally, state funds cannot be expended without an appropriation by the legislature.

**Line Item:** Specific appropriation amount that establishes spending authorization for a particular program or function in a budget bill.

**Boilerplate:** Specific language sections in a budget bill that direct, limit, or restrict line item expenditures, express legislative intent, and/or require reports.

**Lapses:** Appropriated amounts that are unspent or unobligated at the end of a fiscal year. Appropriations are automatically terminated at the end of a fiscal year unless designated as a multi-year work project under a statutory process. Lapsed funds are available for expenditure in the subsequent fiscal year.

Note: Unless otherwise indicated, historical budget figures in this presentation have not been adjusted for inflation.
