

You heard from BDAI and NAMI leaders about numerous families with nowhere to get help in Northern Michigan, no extended stay inpatient care available for sick family members. You heard about long waits for a bed, the 3-day revolving door at Munson's Behavioral Health Ward.

You *know* we are in a mental health crisis situation. Recently completed studies by the state...MI Psychiatric Care Improvement Project and the Michigan Joint Task Force on Jail and Pretrial Incarceration confirm this.

BDAI is embarking on a Jail Diversion Program with Crisis Stabilization Center for mentally ill individuals who have committed low level offenses. The success of this program *absolutely* depends on having an inpatient treatment facility as a step in the process of recovery, rather than jail or prison time. This program should also be instrumental in reducing the number of completed or attempted jail suicides.

While there are abundant extended stay inpatient facilities for *addiction* treatment and recovery, there are few for *mental health* treatment and recovery. Northern MI has none. (See DHHS Northern Michigan Regional Entity Provider List.)

Recent settlements with drug companies have provided unbudgeted income for addiction recovery. It would seem that some state funds previously budgeted for addiction recovery might now be available for mental illness recovery.

Traverse City is an excellent location for an inpatient facility. It is a desirable place to live and work; a prime location for attracting clinicians and staff. It is also very centrally located; most northern Michigan families will be able to visit loved ones in a day trip.

Our Grand Traverse County Corrections Captain, Chris Barsheff, and County Under-Sheriff Mike Shea have worked tirelessly to bring positive change to our criminal justice system here, especially as it relates to mentally ill individuals. They are extremely competent, caring and have broad community support.

So... we ask you today to consider our request for state funding to establish a new Traverse City "Community Care" inpatient mental health facility for both adults and adolescents.

We have several great locations near Munson Hospital and the TC community gardens and walking trails. At a minimum, please budget for a qualified person to complete a cost study for a new Community Care Center and also to meet with community partners like Munson Hospital and existing outpatient providers such as Hope Network, Pine Rest and Northern Lakes Community Mental Health.

Thank you,

Kate Dahlstrom

Retired CPA, BDAI board member and community activist

Northern Michigan Regional Entity (NMRE) Provider List

The NMRE is the Prepaid Inpatient Health Plan that manages the behavioral health (mental health, intellectual disability, and substance abuse) services for individuals enrolled in Medicaid for the 21 counties in Michigan's Northern Lower Peninsula.

We work with the five Community Mental Health (CMH) service programs, and their contracted provider networks, within our region to provide mental health and intellectual disability for these counties; if you are in need of **mental health** or **intellectual disability** assistance, see the first section below for a listing of these providers.

NMRE also directly contracts directly with **substance abuse** providers to provide substance abuse services in our 21 counties, these providers are listed below by service as well.

A **provider** is any individual, network, or organization with whom we, or our CMH partners, contract to work directly with our clients. Many of our providers are here in Northern Michigan, however, we also contract with organizations across the state in order to serve our communities.

*"CCT" column indicates whether a provider has a staff member whom has received Cultural Competency Training.

Table of Contents:

Scroll our directory to see the providers listed under each service type, ordered as below
