SECTION 120: HEALTH SERVICES

This appropriation unit contains funding for health care services to low-income individuals eligible for Medicaid, MIChild, Healthy Michigan Plan, and Medicare Savings Programs. These services are provided either through a traditional fee-for-service model or through enrollment in a managed care health plan. Depending on an individual's demographics, Medicaid policy either mandates, allows, or prohibits enrollment into a health plan. Medicaid services are generally funded through a combination of state funding (which can be GF/GP funds, provider tax revenue, or other state restricted funds) and federal match funds. The Federal Medical Assistance Percentage (FMAP) for Michigan in FY 2023-24 is 64.94%, meaning that the state funds 35.06% of Medicaid service costs. Health services provided to the expanded Medicaid population under the Healthy Michigan Plan are funded by the federal government at 90% of costs, beginning January 1, 2019. This appropriation unit also includes special Medicaid financing payments which increase federal reimbursements for medical providers.

Services include: assistance with eating, toileting, bathing, dressing, taking medication, shopping, housecleaning, meal preparation, and laundry services.
