Overview

The Department of Agriculture and Rural Development (DARD) is responsible for regulating and promoting Michigan's agriculture and food industries in collaboration with the Michigan Commission of Agriculture and Rural Development, industry stakeholders, and citizens. DARD is organized into the following programmatic divisions: Animal Industry, which mitigates and eradicates infectious and contagious diseases, toxic substance contamination, and inhumane treatment affecting livestock and pets; Environmental Stewardship, which promotes resource sustainability and protects the natural environment in collaboration with conservation districts, drain commissioners, and landowners; Food and Dairy, which ensures the safety and sanitation of food and dairy products through inspection and licensure of suppliers and investigations of foodborne illness incidents; Pesticide and Plant Pest Management, which manages plant pest and disease prevention and regulates seed, plant, grain, and feed products and storage and the manufacture and use of pesticides and fertilizers; and Laboratory, which tests and analyzes groundwater, plant seeds, livestock, food and dairy products, and motor fuels and verifies nutritional labeling and weighting and measuring devices. Additionally, the Office of Agriculture Development promotes international marketing; endeavors to attract, expand, and retain jobs and investment; and administers various grant programs.

Additionally, boilerplate Sec. 711(2) authorized DARD to receive and expend funds from the Michigan Economic Development Corporation (MEDC) which committed \$2.0 million for the SGI during FY 2013-14. MEDC funds are not anticipated for FY 2014-15. <u>House</u> partly concurs, but reduces spending authorization. <u>Senate</u> concurs. <u>Conference</u> concurs. Overview

The Department of State (DOS) is the oldest department in Michigan state government. It is administered by the Secretary of State, an elected official who serves a four-year term of office and has constitutional and statutory duties. Services provided by the department include: registering and titling automobiles, watercraft, and recreational vehicles; regulating automobile dealers and repair facilities; registering voters and administering elections; and streamlining the collection of revenue. The department operates programs designed to enhance driver safety, protect automotive consumers, and ensure the integrity of both the motor vehicle administration system and the statewide elections process. **NOTE:** Information on House budget action in this document is based on House Bill 5313 as passed by the House.

Major Boilerplate Changes From FY 2013-14

Executive Boilerplate Deletions

In general, the Executive Budget deletes many sections of boilerplate including legislative reporting requirements, providing guidance, and placing conditions on appropriations, and earmarks of funding for specific purposes. The list below includes major changes to boilerplate, but is not a comprehensive list of all sections or language deleted. House, Senate, and Conference retain sections.

Sec. 946. Convention Facility Development Fund Distribution – NEW

Specifies that revenue collected in the Convention Facility Development Fund is appropriated and distributed according to the Convention Facility Development Act. Executive includes as new section. House, Senate, and Conference concur.

Major Boilerplate Changes From FY 2013-14

Sec. 947. Financial Independence Teams – NEW

Stipulates that the financial independence teams shall cooperate with the office of fiscal responsibility to coordinate and streamline efforts in identifying and addressing fiscal emergencies in school districts and intermediate school districts. House, Senate, and Conference include as new section.

Sec. 949a. City of Flint Police and Fire Grant – NEW

Requires appropriation of \$1.1 million to be expended on police and fire services in the city of Flint. Authorizes emergency manager or receivership transition advisory board to determine distribution of funds. Conference includes as new.

Sec. 951. Competitive Grant Assistance Program – DELETED

Includes direction for distribution of \$15.0 million appropriated for assistance grants to cities, villages, townships, and counties that elect to merge government services via a Competitive Grant Assistance Program; \$10.0 million of total available funding considered one-time appropriation. Includes authorities, school districts, ISDs, public community colleges, and public universities; includes work project language; and continues to make available unclaimed EVIP funds. Executive revises language to state that consideration may be given for projects that result in more efficient government services through increased cooperation and/or collaboration; amount appropriated revised to \$5.0 million. House concurs. Senate and Conference delete section.

Sec. 952. Economic Vitality Incentive Program/City, Village, and Township Revenue Sharing and County Incentive Program – REVISED

Specifies three category requirements for cities, villages, townships, and counties to meet to receive funding under the Economic Vitality Incentive Program and County Incentive Program. Creates bifurcated system whereby CVTs and counties that did not previously participate in the program would retain the FY 2012-13 requirements, while those CVTs that participated in FY 2012-13 would be required to meet new benchmarks. Distribution method allows for partial payments and ties each bi-monthly payment to a specific category. Executive revises to create Ongoing and Supplemental (One-Time) EVIP Programs (Sec. 20-953); Ongoing EVIP keeps three category requirements but offers alternative method of qualifying for eligible payment by meeting 4 standards outlined in boilerplate. New Supplemental EVIP provides for adjusted population per capita distribution of \$28.5 million appropriated as one-time. Population would be adjusted upward by 10% for each of the four criteria a CVT qualified under. House does not concur with Executive changes. House revises language to include all CVTs and provide that they receive a 1% increase if the CVT was eligible for a payment in FY 2013-14 or \$7.14609 per capita, whichever is greater, subject to a \$5,000 floor. House revises three category requirement to two category requirement. Retains accountability and transparency and includes new category 2 requiring 5.0% of eligible payment be committed to unfunded liabilities. House also revises category language to state that a CVT receiving less than \$50,000 does not have to comply with the categories to qualify for its eligible payment. Senate revises program to include a new CVT revenue sharing program. CVTs receiving an EVIP payment in FY 2014 would receive a base 1% increase upon meeting the accountability and transparency requirements (Categories 2 and 3 are eliminated). Additionally, \$28.6 million would be distributed through statutory revenue sharing formulas (unit type population, taxable value, and tax yield equalization). Parameters include a \$3,500 payment floor (savings redistributed) and a growth cap of 8% on the total of constitutional and CVT revenue sharing. Savings due to the growth cap would be redistributed to increase payments to CVTs with lower payment growth. When computing unit type population, townships with population over 20,000 and townships with population over 10,000 that offer 24-hour police and fire services, offering water to 50% of residents, and sewer services to 50% of residents would receive the same weight as cities. A total of 756 CVTs are eligible for a payment. Conference revised EVIP into newly named CVT Revenue Sharing that would provide 486 CVTs eligible for an EVIP payment in FY 2013-14 with the greater of a 3.05% increase or \$2.65 per person. All other CVTs with a population over 7,500 would receive \$2.65 per person. In order to qualify for its eligible payment a CVT would be required to comply with the items listed under accountability and transparency. To qualify for county incentive payment counties would be required to comply with the items listed under accountability and transparency. Any unexpended funds would be deposited in the Financial Distressed CVTs program in Section 956.

Sec. 953. County Incentive/Transparency Program – NOT INCLUDED

Senate includes County Incentive Program under new section. Funding for County Incentive Program is revised to equal 10% of total County payments. Payments are subject to requirements under Section 954. (See Sec. 952)

Sec. 954. Accountability and Transparency Requirement – NOT INCLUDED

Senate includes accountability and transparency requirement in separate section and revises category requirements by retaining only the transparency and accountability requirement and includes as new Section 954. All eligible CVTs and counties must comply with accountability and transparency requirement to receive eligible payment. Executive included requirement that dashboard include cost per resident of unfunded accrued liabilities. House, Senate, and Conference did not include recommended adjustment to accountability and transparency. Senate revised date for compliance moved from October 1 to December 1. (See also Section 952 where Executive, House and Conference included language)

Sec. 954a. Cities, Village, and Townships Revenue Sharing Payment Distribution – NOT INCLUDED

Senate includes existing payment distribution in new section. Revised language to account for changes to program requirement. Revises language distributing unexpended funds from Competitive Grant Assistance Program to new Financially Distressed CVTs line item (subject to legislative transfer). Included in Section 952 in the current year. (See Sec. 952)

Major Boilerplate Changes From FY 2013-14

Sec. 956. Financially Distressed Cities, Villages, and Townships – NEW

Senate includes new language allowing for \$10.0 million appropriated to be distributed as grants to CVTs that have one or more conditions of probable financial distress. CVTs must work with Treasury to develop plan for grant funding. Grants are capped at \$2.0 million. Funds are designated as work project. Requires report. Conference concurs with Senate (revises amount to \$8.0 million).

Sec. 958. Statewide Online Financial Accountability Reporting System – NEW

Senate includes new section requiring department to contract for a statewide online financial accountability reporting system accessible to the general public that displays local government audit data. Conference concurs with inclusion but revises language and requires Department of Treasury to work with DTMB in issuing a RFP.

Sec. 959. Local Reporting on Costs of Insurance for Medicare-Eligible Retirees – NOT INCLUDED

Senate includes intent language that would require local units receiving revenue sharing payments and offering health insurance to retired employees or retired elected officials to report to the department on the potential cost savings from bidding health insurance for retirees who are eligible for Medicare as a separate contract than health insurance for current employees. Requires department to summarize information submitted and provide a report. Conference does not include.

BUREAU OF STATE LOTTERY

Sec. 963. Department of Human Services Bridge Cards – RETAINED

Requires Lottery to notify lottery retailers that DHS bridge cards are not to be used to purchase lottery tickets. Executive deletes. House, Senate, and Conference retain.

CASINO GAMING

Sec. 976. Tribal Casino Local Revenue Sharing – REVISED

Authorizes funding for local government programs to be used to assist local revenue sharing boards, requires local revenue sharing boards to comply with the Open Meetings Act and Freedom of Information Act, authorizes county treasurers to receive and administer revenues on behalf of local revenue sharing boards, authorizes the Directors of State Police and the Michigan Gaming Control Board to assist local revenue sharing boards with allocating funds to local public safety organizations, and requires the Department to provide a report on the receipt and distribution of revenues. Executive revises (6) to require report from MGCB instead of Department of Treasury. House does not include revision. Senate and Conference include revision.

STATE BUILDING AUTHORITY

Executive transfers the following State Building Authority (SBA) boilerplate sections from DTMB to the Department of Treasury:

- Sec. 840. General Fund Advances (Sec. 1101)
- Sec. 841. Excess Facility Revenue (Sec. 1102)
- Sec. 843. Status of Construction Projects (Sec. 1103)

Overview

The Michigan Strategic Fund (MSF) contains programs that work with existing Michigan businesses and communities to retain and expand jobs through coordination of business assistance services through interdisciplinary account management teams and other economic development services. These programs build partnerships with local, state, and federal economic development agencies and the business community to coordinate and leverage resources and improve the State's business climate. The MSF has administrative responsibilities over Workforce Investment Act activities, Community Development Block Grants, GEAR-UP grants, Carl D. Perkins grants, adult education, Bureau of Energy Systems, postsecondary education services, and welfare-to-work programs. Funds and programs of the MSF are administered by the Michigan Economic Development Corporation (MEDC), which also administers the 21st Century Jobs Fund. Michigan State Housing Development Authority (MSDHA) is an autonomous agency within the MSF. Under Executive Order 2011-4, the MSF supervises and directs the budgeting, procurement, and related management functions of the MSHDA. **NOTE:** Information on House budget action in this document is based on House Bill 5313 as passed by the House.

Overview

Article VI of the State Constitution of 1963 forms the basis for Michigan's judicial branch of government. The Judiciary budget provides operational funding for the Michigan Supreme Court, the Court of Appeals, and related judicial agencies. The budget funds the salaries of justices of the Supreme Court and judges of the appeals, circuit, probate, and district courts according to constitutional and statutory requirements. Funding assistance for local trial court operations is provided through a variety of grant programs. The largest of these, the Court Equity Fund Reimbursement program, reimburses counties for trial court operations based on a statutory formula that recognizes circuit and probate caseloads and the numbers of judgeships.

Overview

The Department of Licensing and Regulatory Affairs (LARA) is primarily responsible for business regulatory and employment services programs and is organized according to its four principal functions: 1) Licensing and Regulation, which implements and enforces statutory laws and administrative rules pertaining to commercial and occupational, construction and fire safety, healthcare provider and facility, public utility, and liquor regulation; 2) Employment Security and Workplace Safety, which administers unemployment insurance, workers' compensation insurance, occupational safety and health standards, labor and wage laws, and vocational rehabilitation services for the blind; 3) the Michigan Administrative Hearing System (MAHS), a quasi-judicial agency which centralizes and conducts administrative hearings for agencies throughout state government; and 4) the Office of Regulatory Reinvention (ORR), which oversees administrative rule-making and evaluates the state's regulatory infrastructure. The agencies within LARA are primarily supported by various federal grants and revenue generated through numerous fees collected from regulated entities.

Major Budget Changes From FY 2013-14 YTD Appropriations

1. Unemployment Insurance Agency - Customer Service (One-Time)
Executive includes one-time spending authorization to maintain customer services at the Unemployment Insurance Agency (UIA), supported with revenue from the Penalty and Interest Account of the Contingent Fund in which penalties, damages, and interest collected from employers and claimants are deposited. The UIA anticipates that process improvement efforts will enable it to operate within existing federal grant funding by the end of FY 2014-15. In August of 2012, due to the decline in the state's Insured Unemployment Rate during 2012, the federal government reduced the amount of administration grants to the UIA by \$37.2 million, resulting in 402 FTEs being laid-off. The Legislature approved a contingency transfer authorizing \$5.0 million from the Fund to support the maintenance of UIA operations during FY 2012-13. LARA anticipates a similar transfer request for FY 2013-14 dependent upon the level of quarterly supplemental federal grants allocated to the UIA during the year. House concurs. Senate concurs. Conference concurs.

Overview

The Department of Military and Veterans Affairs provides for the operations of the Michigan National Guard in support of the military and security needs of the state and the federal government. The department, through the Michigan Veterans Affairs Agency, also oversees state programs for veterans, including the state's veterans' homes, grants to veterans service organizations, and the Michigan Veterans' Trust Fund.

Major Budget Changes From FY 2013-14 YTD Appropriations

1. Veterans Service Grants

Executive: Makes no change.

House: Increases the base grant to veterans' service organizations by \$500,000 GF/GP ongoing, and adds boilerplate language providing a few basic parameters to be specified by the MVAA in structuring the VSO grant agreement.

Senate: Increases by \$857,900 GF/GP.

Conference: Increases by \$857,900 GF/GP

	FY 2013-14 Year-to-Date (as of 2/5/14)	FY 2014-15 Conference Change
Gross	\$2,904,600	\$857,900
GF/GP	\$2,904,600	\$857,900

2. Veterans' Homes – Special Maintenance

Executive, Senate and Conference: Appropriates \$3.0 million GF/GP as a "one-time" appropriation for various maintenance projects at the state's two veterans' homes. This one-time appropriation would be separate from an ongoing \$500,000 GF/GP appropriation for maintenance at the homes. The ongoing appropriation is unchanged.

House: Reduces the one-time appropriation by \$500,000 GF/GP.

Gross	\$500,000	\$3,000,000
GF/GP	\$500,000	\$3,000,000

3. National Guard Facilities – Special Maintenance

Revised Executive, Senate, and Conference: Eliminates the \$3.0 million GF/GP ongoing appropriation for armories maintenance and reduces by \$2.3 million Federal to align spending authorization with actual available revenues.

House: Concurs with the reduction of excess federal authorization but continues the ongoing GF/GP appropriation for armory maintenance.

Gross	\$20,351,200	(\$5,351,200)
Federal	17,300,000	(2,300,000)
GF/GP	\$3,051,200	(\$3,051,200)

Major Budget Changes From FY 2013-14 YTD Appropriations	FY 2013-14 Year-to-Date (as of 2/5/14)	FY 2014-15 Conference Change
4. National Guard Tuition Assistance Program		
<u>Executive</u> and <u>Senate</u> : Adds \$5.0 million GF/GP (1.0 transferred FTE) to reestablish a state tuition assistance (TA) program for National Guard members in active drilling status (1 weekend/month and 2 weeks/year). The program would cover 100% of tuition and fees, up to \$4,500 per year, for programs leading to a certificate, associate's degree, baccalaureate degree, or master's degree. Guard members could not pursue a lateral or lower degree, must remain in good standing, and must maintain a 2.0/4.0 GPA. The aim is to aid recruiting and retention efforts, as most other states provide this type of benefit, supplementing available federal education benefits. The state previously provided a TA program from FY 2000 to FY 2009, but ended the program amid state budget reductions and declining utilization rates largely due to the expanded availability of federal education benefits following Post-9/11 active duty service. However, federal active duty deployments are becoming less frequent, and recent changes to the Army's TA program now provide benefits to service members (including National Guard members in active drilling status) after one year of service (rather than making TA available upon completion of their initial training, and cap assistance at 16 semester hours per year.	FTE Gross GF/GP	NA NA NA
		1.0 \$4,742,100 \$4,742,100
<u>House</u> : Concurrs on the establishment of the program, but reduces the appropriation to \$2.0 million, with the expectation being that the first year costs of the program would not reach \$5.0 million. Unexpended funds would lapse to the General Fund.		
<u>Conference</u> : Reduces the ongoing appropriation by \$657,900 GF/GP, but creates a one-time appropriation of \$400,000 for a net reduction from the Executive of \$257,900. The one-time appropriation would be expended after the ongoing appropriation is exhausted.		
5. Annualize MVAA Staffing Costs		
<u>Executive</u> and <u>House</u> : Adds \$1.2 million GF/GP to annualize the full-year, full-staffing costs for the Michigan Veterans Affairs Agency. Ostensibly, the FY 2013-14 budget did not support the full-year costs for the full-staffing compliment of the MVAA, recognizing that while the agency was being established, some positions would remain vacant after the start of the fiscal year, as the agency continued to define its work plan and operations.	Gross GF/GP	\$5,017,000 \$5,017,000
		\$950,000 \$950,000
<u>Senate</u> : Concurrs with the Executive, but reduces the increase by \$250,000 GF/GP, with \$50,000 of that reduction moved to a separate scheduled program for Legal Services/Federal Claims Representation.		
<u>Conference</u> : Concurrs with the Senate, but keeps the \$50,000 for legal services/federal claims representation within the MVAA administration line.		
6. Legal Services/Federal Claims Representation		
<u>Senate</u> : Transfers \$50,000 from the MVAA Administration program line to a separate program line for legal services/federal claims representation. This funding would be expended by the department to support its legal costs incurred in representing veterans' claims for VA benefits before the Board of Veterans Appeals, the Court of Appeals for Veterans Claims, and beyond. Legal services are a necessary part of the MVAA's accreditation by the VA to assist veterans in filing claims for VA benefits.	Gross GF/GP	NA NA
		\$50,000 \$50,000
<u>Conference</u> : Concurrs with the Senate, but allocates via boilerplate the \$50,000 from the appropriation for MVAA administration, rather than establishing a separate program line.		

Items Agreed to by the Executive, House, and Senate

Major Budget Changes From FY 2013-14 YTD Appropriations		FY 2013-14 Year-to-Date (as of 2/5/14)	FY 2014-15 Conference Change
7. Veterans Service Regional Coordinators	Gross	NA	\$750,000
Adds \$750,000 GF/GP for veterans service organizations (or others) to hire 10 regional coordinators who would be responsible for managing the workload of VSO service officers, monitoring service officer performance, and ensuring compliance with grant and boilerplate performance requirements. These coordinators would also serve as a liaison to other public and private agencies serving veterans.	GF/GP	NA	\$750,000
8. County Veterans Counselors (CVCs)	Gross	NA	\$250,000
Adds \$250,000 to counties to expand the veterans claims processing capabilities of their county veterans service departments. These funds would be used to support technology improvements, such as the acquisition of an electronic claims management system, to hire additional VA-accredited counselors, or to establish a veterans service department either directly through county employees or through service agreements with neighboring counties. The department provided a similar grant program in FY 2012-13 through the availability of a one-time appropriation.	GF/GP	NA	\$250,000
9. Grand Rapids Veteran' Home (GRVH) Fund Sourcing	Gross	\$47,869,900	(\$2,275,000)
Adjusts the fund sourcing for the GRVH to better align spending authority with actual revenues and expenditures. These adjustments include a reduction in excess authorization from Income and Assessment revenue (paid by resident members) by \$2.5 million, as continuing renovations to members' rooms (from 4/room to 2/room or 1/room) have reduced the home's member census, thus generating less Income and Assessment revenue. Over the years the home has also seen an increase in members with a disability rating of 70%-100% for whom the home receives a higher per diem payment from the VA, which represents the full cost of care, thereby no longer requiring any additional assessments paid by the member. Because Income and Assessment revenue has been over-appropriated, annual economics adjustments (for salaries, benefits, etc.) charged to Income and Assessment revenues have actually been paid from available GF/GP funds. The Executive adds \$225,000 GF/GP to account for that shift in costs.	Federal	21,650,300	0
	Restricted	13,951,900	(2,500,000)
	GF/GP	\$12,267,700	\$225,000
10. National Guard Armories – Operations	Gross	\$13,705,300	\$2,000,000
Adds \$2.0 million from funds received through the National Guard Bureau to reflect the availability of additional federal NGB funds for the cost of utilities and related services (snow/trash removal, etc.) at the state's armories. A similar adjustment was made in FY 2013 through a September 2013 Legislative Transfer.	Federal	5,780,700	2,000,000
	Restricted	346,400	0
	GF/GP	\$7,578,200	\$0
11. Economics Adjustments	Gross	NA	\$1,289,800
Reflects increased costs of \$1.3 million Gross (\$377,400 GF/GP) for negotiated salary and wage amounts (2.0% base increase plus 0.5% lump sum payments), actuarially-required retirement rate increases, and other economic adjustments. Insurance costs held flat due to recent state employee health plan revisions.	Federal	NA	730,000
	Restricted	NA	182,400
	GF/GP	NA	\$377,400
12. Homeland Security – Align Authorization	Gross	\$650,000	(\$550,000)
Reduces appropriations by \$550,000 IDG-State Police to eliminate excess authorization for this program line. This program line has not been used to any great degree in recent years. The remaining \$100,000 authorization would provide the department with sufficient spending authority should the need arise.	IDG	650,000	(550,000)
13. D.J. Jacobetti Veterans' Home – Align Authorization	Gross	\$19,385,000	\$0
Adjusts authorization between VA per diem payments and Income and Assessment Revenue.	Federal	7,781,200	150,000
	Restricted	5,491,000	(150,000)
	GF/GP	\$6,112,800	\$0

Overview

The Michigan Department of State Police (MSP) provides general law enforcement services throughout the state and provides for the development and coordination of state programs, technologies, and specialized services that enhance enforcement and emergency response capabilities for the entire public safety community.

Major Budget Changes From FY 2013-14 YTD Appropriations

Items Added by the Conference Committee

1. Detroit Forensics Laboratory Building Costs

Conference adds \$1.1 million GF/GP to the costs of the new MSP Forensic Science Division laboratory opening in Detroit in June 2014. The laboratory is located at the Detroit Public Safety Headquarters (DPSH) building, the site of the old MGM Grand Casino. Under a condominium agreement, the state owns 18.56% of the facility. The state's share acquisition and renovations costs were supported by \$15 million in spending authorization under the FY 2010-11 Capital Outlay bill (2010 PA 329). As a co-owner of the facility, MSP is responsible for its proportionate share of maintenance, repair, utility, building management and other operating costs. These costs were not originally included by the Executive, House, or Senate. MSP will likely have sufficient spending authorization to pay for these part-year costs in FY 2014.

Gross	NA	\$1,100,000
GF/GP	NA	\$1,100,000

2. Motor Carrier Recruit School

Executive, House, and Senate: Add \$5.2 million GF/GP for a motor carrier recruit school expected to graduate 31 new motor carrier officers. This includes \$3.2 million in ongoing costs and \$2.0 million in one-time costs. Motor Carrier Officers are civilian (non-enlisted) peace officers tasked with enforcing laws of the state applicable to commercial motor vehicles (CMVs), ensuring compliance applicable federal and state motor carrier safety regulations, size and weight limits, vehicle registration and certificate of authority requirements, and driver requirements. Motor carrier officers have limited arrest authority for other non-CMV offenses. The motor carrier recruit school is similar to the traditional trooper recruit school, although much of the academic training focuses on CMV issues.

FTE	NA	31.0
Gross	NA	\$4,391,900
GF/GP	NA	\$4,391,900

Conference: Concurrs with the Executive on holding a motor carrier recruit school, but delays the start of the school from October to April, resulting in a savings of \$840,000 GF/GP.

3. Marshall Post Building Costs			
<p><u>Conference</u> adds \$2.0 million GF/GP to support the state's share of lease costs related to the construction and operations of the Marshall Regional Law Enforcement Center in Calhoun County. The facility will include the police department for the City of Marshall and the Calhoun County Sheriff's Office, with MSP sub-leasing a portion of the facility from Calhoun County to serve as a new post. (Overall, the number of full-service MSP posts will remain at 29, as operations at the Coldwater post will be reduced. MSP currently does not have a post in Calhoun or Kalamazoo counties.) The Marshall Building Authority (MBA) will issue bonds to cover the city's share of construction costs, and will lease the facility to the city of Marshall. The city will, in turn, lease to the county, the county's share and the state's share of the facility, with Calhoun County separately issuing bonds to cover its share and the state's share of the construction costs. The county will then sub-lease a portion of the facility to MSP. Construction costs for the 35,826 sq. ft. main building and a 17,000 sq. ft. storage building are estimated to be \$11.3 million, with those costs paid through a \$1.3 million Competitive Grant Assistance Program (CGAP) grant awarded to the City of Marshall and Calhoun County and proceeds from the issuance of bonds by the MBA and county. It is anticipated that capital costs will be allocated as follows: state – 43%; county – 28%; and city – 29%. The appropriation here will serve to buy-down a portion of MSP's lease costs, which would lower MSP's annual lease payments to the county. DTMB and MSP are in continuing negotiations on the 25-year sub-lease with Calhoun County. The building should be complete by June 2015.</p>	Gross GF/GP	NA NA	\$2,000,000 \$2,000,000
4. Trooper Recruit School			
<p><u>Executive</u> and <u>Senate</u>: Add \$13.5 million Gross for a trooper recruit school expected to graduate 100 new troopers. The school would commence after January 1, 2015. This includes \$7.4 million GF/GP for ongoing costs for salaries and wages (including benefits) paid to recruits during the time at the academy and upon graduation and placement in the field, as well as \$431,100 GF/GP for ongoing fleet costs. This also includes \$5.7 million Gross (\$4.8 million GF/GP) in one-time costs for recruitment and selection of candidates, overtime costs for training instructors, outfitting and equipping the recruits, and costs related to the Field Officer Training Program. Adds \$5.4 million GF/GP ongoing for FY 2016</p> <p><u>House</u>: Concurs with the Executive, but adds \$177,700 GF/GP to At-Post Troopers as an adjustment to reach its overall target.</p> <p><u>Conference</u>: Delays the recruit school by four weeks, resulting in a net reduction of \$800,000s GF/GP. The savings is achieved at the back end of the fiscal year by eliminating 2 pay period for these 100 new troopers.</p>	FTE Gross Restricted GF/GP	NA NA NA NA	100.0 \$12,268,900 900,000 \$11,368,900
5. Security at Events			
<p><u>Senate</u>: Reduces the appropriation for Security at Events by \$700,000 GF/GP (\$759,600 from the Executive). The program line supports MSP's costs for overtime and other expenses when it must provide a significant additional show-of-force and other security at large scale public events and other incidents. [FY14 includes a boilerplate allocation of \$500,000 to the urban search and rescue task force. This allocation was made from the Security at Events program line.]</p> <p><u>Conference</u>: Reduces the appropriation for Security at Events by \$699,900 GF/GP [\$759,500 from the Executive] using those funds to partially support costs for the Forensic Science Division laboratory in Detroit. The conference bill leaves the basic boilerplate description of the funds, but eliminates the associated metric. The remaining \$500,000 GF/GP is transferred to the Emergency Management and Homeland Security Division program line, with a boilerplate allocation to the urban search and rescue task force, consistent with the FY 2014 budget. Following the reductions, the line only has a placeholder appropriation, made available through a corresponding \$100 reduction for the criminal investigations program line.</p>	Gross GF/GP	\$1,200,000 \$1,200,000	(\$1,199,900) (\$1,199,900)

6. Aviation Unit – Helicopter Purchase	Gross	NA	\$5,178,000
<u>Executive, Senate and Conference:</u> Add \$5.2 million GF/GP (\$246,000 GP/GP ongoing) for a new helicopter for the Special Operations Division, Aviation Unit. Includes \$2.9 million for the acquisition of the helicopter and \$2.0 million for equipment upfitting.	GF/GP	NA	\$5,178,000
<u>House:</u> Provides placeholder appropriations in the Specialized Services and One-Time Appropriations program lines.			
7. Local Public Safety Initiative (School Safety)	Gross	NA	\$4,550,000
<u>Executive and Senate:</u> Adds \$5.0 million GF/GP (one-time) to provide grants for local public safety technology and equipment needs, with a focus on school safety issues. Grant funds could be used for acquiring and implementing various public safety improvements including enhanced 911 (E911) abilities, malicious call tracing, physical deterrents, real-time location systems, and emergency alert software, and other technology and equipment upgrades. The Council on Law Enforcement and Reinvention (CLEAR) would review grant applications and make recommendations to the department. The council is an advisory body established by the governor that comprises representatives of state, local, and tribal public safety and criminal justice agencies. (Senate includes boilerplate language.)	GF/GP	NA	\$4,550,000
<u>House:</u> Reduces by \$100 to provide a placeholder appropriation for a new one-time grant program to assist local law enforcement agencies with technology and equipment purchases, including weapons, protective gear, in-car video, breath alcohol testing equipment, radar, automatic external defibrillators, mobile data terminals, communications equipment, and other technologies.			
<u>Conference:</u> Reduces the appropriation by \$450,000 GF/GP. Boilerplate language allocates 80% for grants to public and private K-12 schools for various school safety improvements and 20% for grants to county sheriff's departments for equipment, technologies, or officer training that would enhance departments' school safety efforts.			
8. FY 2014-15 Economic Adjustments	Gross	NA	\$18,709,200
<u>Executive and House:</u> Reflects increased costs of \$18.8 million Gross (\$13.8 million GF/GP) for negotiated salary and wage amounts (2.0% base increase, plus a 0.5% lump sum), actuarially-required retirement rate increases, and other economic adjustments. Insurance costs are held flat due to recent state employee health plan revisions.	IDG	NA	569,400
	Federal	NA	744,200
	Local	NA	77,200
	Private	NA	2,200
	Restricted	NA	3,585,000
	GF/GP	NA	\$13,731,200
<u>Senate and Conference:</u> Remove economics adjustments (\$59,600 GF/GP) related to the Security at Events program line.			
9. Automated Fingerprint Identification System (AFIS)	Gross	NA	\$2,187,200
Adds \$2.2 million (Criminal Justice Information Service Fees) to support upgrades to the hardware and software systems that support the operation of the Automated Fingerprint Identification System (AFIS), the electronic database through which fingerprint records are maintained and searched. The system interfaces with the state's criminal history records databases and is integrated into the FBI's fingerprint identification system, and allowing for the automated search of ten-print and latent-print submissions. AFIS contains records on 3.6 million people (applicants and offenders), and processes an average of 2,000 ten-print transactions and 500 palm print transactions per day.	Restricted	NA	2,187,200
10. Electronic Warrant Reporting System	Gross	NA	\$800,000
Adds \$800,000 GF/GP (\$50,000 GF/GP ongoing) for the development of an electronic warrant reporting system, which would establish an electronic tracking system that eliminates redundant entry of warrant information by prosecutors, courts, LEIN users, MSP, and the State Court Administrative Office. 11. Criminal Justice Information Systems Disaster Recovery	Gross	NA	\$312,800
Adds \$312,800 (CJIC Service Fees) for the development and maintenance of a disaster recovery system for the Law Enforcement Information Network (LEIN) and other CJIS applications maintained by MSP. The LEIN system interfaces with, and provides law enforcement access to, a number of CJIS databases, including criminal history records, warrants, motor vehicle records, etc. The disaster recovery system provides a back-up system allowing for the recovery and continued operation of LEIN and the other applications in the event of cyber security breaches and other systemic disasters.	Restricted	NA	312,800
12. LEIN Programming Language Upgrade	Gross	NA	\$350,000
Adds \$350,000 (CJIC Service Fees) to update and re-write the programming language that operates the LEIN system.	Restricted	NA	350,000
13. Statewide Records Management System (SRMS)	Gross	NA	\$1,528,000
Adds \$1.5 million GF/GP to expand the use of the SRMS. With initial support of a \$3.7 million grant from the Department of Treasury's Competitive Grant Assistance Program (CGAP) awarded to the Saginaw County Sheriff's Office (SCSO), MSP is assuming responsibility for operating the Area Records Management System (ARMS) developed by the SCSO and used by more than 50 local law enforcement agencies. A record management system (RMS) allows for the storage and retrieval of investigation records, including information on accidents, traffic citations, incidents, evidence, stolen properties, booking and incarceration, probation and parole, criminal histories, case files, etc. The development of the SRMS would increase the number of law enforcement agencies that use an RMS and to allow for interagency sharing of information. The system will also facilitate participation in the FBI's Law Enforcement National Data Exchange (N-Dex), sharing information on a national level.	GF/GP	NA	\$1,528,000
14. 126th Recruit School Costs	Gross	\$14,661,900	\$2,964,400
Adds \$2.7 million GF/GP to annualize the costs related to the 126 th Trooper Recruit School, which began in January 2014 with 115 recruits and will graduate on May 30 th . Includes \$2.2 million in personnel and other costs and \$0.5 million in fleet-related costs.	GF/GP	\$14,661,900	\$2,964,400
15. Emergency Support Team	Gross	NA	\$225,000
Adds \$225,000 GF/GP (one-time) for the acquisition of a new armored vehicle (e.g. a Lenco Bearcat) for the Special Operations Division, Emergency Support Team (SWAT). This new vehicle would replace a 1981 Dodge Peacekeeper.	GF/GP	NA	\$225,000
16. Forensic Science – State Services Fee Fund	Gross	\$11,666,600	\$0
Replaces \$4.0 million of the \$11.7 million State Services Fee Fund (SSFF) appropriation for the Forensic Science Division (FSD) with GF/GP funds. The SSFF was first appropriated for the FSD in FY 2008-09 to offset mid-year reductions made by EO 2009-22. The plan is to phase-out SSFF appropriations for the FSD over 3 years. The SSFF is collected by the Michigan Gaming Control Board (MGCB) through assessments paid by the 3 Detroit casinos. Appropriations have exceeded revenues in recent years.	Restricted	11,666,600	(4,000,000)
	GF/GP	\$0	\$4,000,000
17. Forensic Science – Impaired Driving Funding	Gross	\$118,000	\$0
Replaces \$118,000 in federal highway safety funds expended by the Forensics Science Division with GF/GP funds. The MSP Office of Highway Safety Planning (OHSP) receives funding for numerous highway safety programs under the Highway Safety Act of 1966 (23 USC Chapter 4), including funding for programs that aim to reduce the incidence of driving under the influence of alcohol and/or drugs. OHSP allocates a portion of its impaired driving funds to the FSD for toxicological analyses. The plan was to phase-out these OHSP funds for the FSD. FY 2012-13 reduced this funding by 75%, replacing it with GF/GP. This adjustment eliminates the remaining 25%, replacing it with GF/GP.	Federal	118,000	(118,000)

18. Michigan Public Safety Communications System	Gross	\$16,340,900	(\$16,340,900)
Transfers funding for the MPSCS to the Department of Technology, Management, and Budget (DTMB). Operational authority concerning the MPSCS was transferred from MSP to DTMB with ERO 2005-2 (MCL 28.42). Since that transfer, funding for the MPSCS continued to be appropriated within the MSP budget, with that funding also recorded in the DTMB appropriation bill as an interdepartmental grant (IDG) from MSP. Overview

The Transportation budget supports state and local highway programs, public transportation programs, aeronautics programs, and administration of the Michigan Department of Transportation (MDOT). Approximately 60% of the revenue in this budget comes from state restricted revenue, with approximately one-third from federal sources. Most of the state-restricted revenue in this budget is constitutionally restricted – from motor fuel taxes and vehicle registration taxes – and is first credited to the Michigan Transportation Fund (MTF) and then distributed in accordance with 1951 PA 51 (Act 51) to other state transportation funds and programs, including the State Trunkline Fund (STF) and the Comprehensive Transportation Fund (CTF), and to local road agencies. Revenue related to taxes on aviation fuel and aircraft registrations is credited to the State Aeronautics Fund (SAF) for aeronautics programs.
