

FISCAL BRIEF

USE OF SCHOOL AID FUND IN COMMUNITY COLLEGES AND HIGHER EDUCATION

Perry Zielak, Senior Fiscal Analyst
January 28, 2025

FAST FACTS

- Use of SAF in postsecondary budgets began in FY 2009-10.
- SAF in postsecondary budgets totals \$923.4 million in FY 2024-25.
- Use of SAF in postsecondary budgets peaked in FY 2023-24 at \$1.03 billion.
- State funding for Community Colleges in FY 2024-25 is nearly 100% SAF.
- State funding for Higher Education (public universities) in FY 2024-25 is almost 20% SAF.
- \$9.44 billion in SAF has been appropriated to postsecondary budgets since FY 2009-10.

INTRODUCTION

School Aid Fund (SAF) revenues have increasingly been used as a fund source in both the Community Colleges and Higher Education budgets. The use of SAF in postsecondary budgets first began as a \$208.4 million stop-gap measure due to revenue shortfalls in FY 2009-10 during the Great Recession, but has since grown to \$923.4 million, comprising 99.9% of the Community Colleges budget and 19.9% of state funds in the Higher Education budget for FY 2024-25. This brief summarizes the historical use of SAF in the Community Colleges and Higher Education budgets.

SAF Appropriations to Community Colleges and Higher Education

SCHOOL AID FUND

Section 11 of Article IX of the state constitution establishes the School Aid Fund and states that the fund "shall be used exclusively for aid to school districts, higher education, and school employees' retirement systems, as provided by law." Prior to FY 2009-10, the SAF served solely as the primary appropriation source for local K-12 public school districts. The SAF comprises various tax revenues earmarked both constitutionally and statutorily to the fund, which are estimated to generate \$18.46 billion in FY 2024-25.¹

¹ A poster showing FY 2024-25 tax revenues can be seen [here](#).

SAF IN THE COMMUNITY COLLEGES BUDGET

Community colleges receive state funding primarily in the form of operations grants. Prior to 2010, these grants were composed entirely of state general fund/general purpose (GF/GP) revenues. Due to budgetary pressures created by the Great Recession, the FY 2009-10 budget used SAF revenues for the Community Colleges budget for the first time. The legislature enacted [2010 PA 158](#) at the end of the fiscal year and offset \$208.4 million GF/GP with SAF to balance the General Fund budget. The Legislature intended the fund swap to be a one-time solution and included boilerplate Section 301, which provided legislative intent that the SAF be considered a loan to the General Fund, and that the General Fund repay the SAF over the subsequent five fiscal years.

The use of SAF revenues became more routine under budgets proposed and enacted into law beginning in FY 2011-12. Since FY 2017-18, the Community Colleges budget has been almost entirely funded with SAF. In FY 2019-20, a portion of the Community Colleges budget was supported with federal funds due to COVID-19 pandemic-induced budgetary pressures, and the FY 2022-23 budget had an influx of one-time appropriations using federal Coronavirus State Fiscal Recovery funds. The FY 2024-25 Community Colleges budget is funded by 99.9% SAF.

Table 1 shows the history of the Community Colleges budget since SAF was first included in FY 2009-10. State restricted funds listed in the Community College budget during this period are entirely made up of SAF. A total of \$5.26 billion SAF has been appropriated to Community Colleges since FY 2009-10.

Fiscal Year	General Fund/ General Purpose	State Restricted: SAF	Federal	Gross Appropriation	SAF as % of Gross
2009-10	\$90,960,500	\$208,400,000	\$0	\$299,360,500	70%
2010-11	295,880,500	0	0	295,880,500	0%
2011-12	24,251,100	259,629,400	0	283,880,500	91%

2024-25	500,000	461,720,800	0	462,220,800	99%

SAF IN THE HIGHER EDUCATION BUDGET

Similar to the Community Colleges budget, the state’s 15 public universities receive operations grants as their primary state funding mechanism. Prior to FY 2011-12, these operations appropriations were allocated solely from GF/GP revenues. FY 2011-12 saw the first use of SAF revenues in the Higher Education budget. The amounts remained relatively flat until the FY 2018-19 budget, in which the SAF more than doubled to \$500.1 million, or a third of the budget’s gross funding. The use of SAF has fluctuated in recent years, but currently makes up a fifth of the Higher Education budget. Recent SAF increases included the FY 2021-22 Higher Education budget appropriation of \$300.0 million SAF into the Michigan Public School Employees’ Retirement System (MPSERS) to address unfunded actuarial accrued liability (UAAL) costs for the seven universities that participated in the system, while the FY 2022-23 budget appropriated a \$200.0 million SAF MPSERS UAAL deposit.

Table 2 shows the funding history of the Higher Education budget since SAF was first included in FY 2011-12. A total of \$4.68 billion SAF has been appropriated to public universities since FY 2011-12.

Fiscal Year	General Fund/ General Purpose	State Restricted: SAF	State Restricted: Non-SAF	Federal	Gross Appropriation	SAF as % of Gross
2011-12	\$1,065,632,500	\$200,019,500	\$200,000	\$98,326,400	\$1,364,178,400	15%
2012-13	1,101,628,300	200,465,700	100,000	97,026,400	1,399,220,400	14%

SHARE OF SCHOOL AID FUNDS

For FY 2024-25, Community Colleges will receive approximately 3% of the \$18.7 billion SAF appropriation, while Higher Education will receive approximately 2%. The remaining balance of SAF is appropriated in the School Aid, or K-12 education, budget.

FY 2024-25 School Aid Fund Appropriations

CONCLUSION

The use of SAF peaked in the FY 2023-24 budget, when \$1.03 billion was appropriated to the Community Colleges and Higher Education budgets, which represented approximately 5% the total SAF appropriation that fiscal year. Combined SAF appropriations between the two budgets are \$923.4 million, or about 5%, of the total SAF appropriation for FY 2024-25.

Various legislative attempts have been made to remove SAF from one or both postsecondary budgets since SAF became consistently appropriated in both budgets. These efforts have been complicated by budgetary pressures and competing spending priorities on the General Fund budget and the nearly \$1.0 billion of GF/GP that would be needed to remove SAF from both the Community Colleges and Higher Education budgets.

A total of \$9.44 billion SAF has been appropriated to postsecondary budgets since the use of SAF was introduced in FY 2009-10, with 56%-44% split between Community Colleges and Higher Education.
