

MEMORANDUM

DATE: May 21, 2024
TO: Members of the House Appropriations Committee
FROM: Mary Ann Cleary, Director *MAC*
RE: Legislative Transfer Package 2024-4

Attached are legislative transfers proposed by the State Budget Office in a letter dated April 12, 2024. Pursuant to section 393 of the Management and Budget Act, a legislative transfer must be approved by a majority of both the House and Senate Appropriations Committees, with identical funding sources and dollar amounts, in order to become effective.

There are two basic types of legislative transfers, which have different effects on the overall level of appropriations in the state budget.

A **standard legislative transfer** shifts existing spending authorization between line items in a particular budget area, with no net change in total appropriations. Generally, such transfers are proposed when expenditures are higher than originally anticipated in one line item and lower than anticipated in another. These transfers can represent a shift of GF/GP funding between two line items, or merely a shift of spending authorization from same broad category of funding (federal, restricted, etc.) between the line items.

As shown in the attached table, standard transfers in this package total \$31.26 million, which will shift 0.04% of total appropriations within the existing FY 2023-24 year-to-date state budget.

A **contingency authorization transfer** increases total line item appropriations in a budget area by moving contingency spending authorization from the boilerplate section of a budget act to a specific line item in order to recognize additional federal, private, local, or state restricted revenue that has become available since the original enactment of the budget. Absent the contingency authorization transfer mechanism, this type of budget adjustment would be made through a supplemental appropriation bill.

As shown in the attached table, contingency authorization transfers in this package total \$118.8 million, which will increase the FY 2023-24 year-to-date state budget by 0.15%.

If you have questions about the transfers generally, please contact me. If you have questions about an individual transfer, please contact the HFA analyst assigned to that budget area. We can be reached at 373-8080.

This transfer requests shifts \$720,000 in state restricted Agriculture Equine Industry Development Fund (AEIDF) authorization from the Standardbred Sire Stakes line to the Purses and Supplements - Fairs/Licensed Tracks line. Under Section 20 of the Horse Racing Law of 1995, AEIDF-funded purses for Standardbred Sire Stakes are limited to races run exclusively for 2-year old and 3-year old Michigan sired standardbred horses at licensed harness race meetings in Michigan. The only remaining licensed race meeting/track closed in February 2024. This transfer will allow AEIDF-funded purses for a sire stakes type event at a county fair instead of at a licensed racetrack for the 2024 season.

This Tuition Incentive Program (TIP) has experienced a 26% increase in student enrollment for academic year 2023-24, which has resulted in increased program costs. Legislative Transfer 2024-2 allocated an additional \$11.0 million of federal Temporary Aid to Needy Families to the program for FY 2023-24. However, TIP program costs in the second quarter of FY 2023-24 were up 32% compared to the previous fiscal year, resulting in a projected funding shortfall of \$1.5 million for third-quarter FY 2023-24 payments. A total of \$4.0 million of federal Temporary Aid to Needy Families (TANF) funding would be taken from the Michigan Competitive Scholarship program (\$1.2 million) and Michigan Tuition Grant program (\$2.8 million). The Competitive Scholarship program and Tuition Grant program are projected to have unexpended balances by the end of the current fiscal year.

This transfer would provide \$4.9 million of state restricted contingency funds to 15 line items (involving 12 state restricted fund sources) to support one-time lump sum payments to eligible state employees in the current fiscal year, as approved by the Civil Service Commission. State restricted contingency authorization is available in accordance with PA 119 of 2023, Article 10, Section 211(2) and sufficient revenues within each respective state restricted fund source are also available.

This request would transfer state restricted contingency authorization to the Military Training Sites and Support Facilities line in order to allow for the receipt and expenditure of funds received from the Michigan Defense Center (MDC) under the Michigan Economic Development Corporation. Funds will be used by the department to enhance the North American All-Domain Warfighting Center by supporting the engineering and design costs needed for the Mission Training Center (MTC) to be located at Camp Grayling. Future construction costs for the MTC would be 100% federally funded.

The MTC would enhance the state's current defense missions, infrastructure, and industry by making it easier to add constructive and virtual inputs for live exercises. The MTC would be used to better enable the Department of Defense and industry specialists to collaborate on emerging technologies and place those technologies and training service members on those technologies. Additionally, it would increase the capacity for workspace and conference areas within Camp Grayling to increase training and industry integration.

Funds provided through the MDC are from its FY 2023-24, \$5.0 million appropriations under the Department of Labor and Economic Opportunity. The MDC was created in 2006 to fully take advantage of federal defense and homeland security funding for Michigan companies. Contingency authorization is available from 2023 PA 119, Article 11, Sec. 211(2).

This transfer request would shift \$810,000 in combined state restricted and general fund authorization from various line items into the Unclassified Salaries and Executive Direction line items for additional executive-level and leadership staff positions to provide department leadership and to develop and implement policies. Increased funding would support up to 4.0 new unclassified FTE positions. Article XI, Section 5 of the Constitution of Michigan of 1963 allows the department up to 6.0 unclassified FTE positions, excluding members of boards and commissions including the Michigan Commission on Law Enforcement Standards.

This transfer request would shift \$956,200 from available state restricted contingency authorization to the State Restricted Funds 1% (SRF) fund source to partially offset the costs associated with one-time lump sum employee payments approved by the Michigan Civil Service Commission (MCSC). Sufficient revenues are available from the state restricted funds 1% assessment to support these expenditures, which are based on stipulations contained in the State Constitution of 1963, Article XI, Section 5 requiring all restricted funds to be assessed a sum of not less than 1% of the total aggregate classified payroll paid from those funds during the prior year to support MCSC operations. State restricted contingency authorization is available in accordance with PA 119 of 2023, Article 5, Section 801(2).

This transfer provides \$104.7 million in additional federal authorization to reflect the Michigan Department of Transportation's (MDOT's) updated estimates of available federal-aid highway funds available to Michigan through formula and discretionary grants, including Michigan's estimated share of an anticipated August redistribution by the Federal Highway Administration (FHWA) of federal aid highway funds. The federal authorization would be divided between the State trunkline federal aid and road and bridge construction line item and the line item that recognizes the local road agency federal aid program. MDOT anticipates that there is sufficient State Trunkline Fund authorization to provide any necessary non-federal match for the additional federal funds. Federal contingency authorization is available in accordance with PA 119 of 2023, Article 15, Section 211(1).

This transfer request provides a net-to-zero shift of federal and state authorization between the Design and Engineering and Road and Bridge Construction appropriation categories across three line items. It reflects a shift of \$10.0 million of federal authorization from the State Trunkline Federal Aid and Road and Bridge Construction line item to the System Operations Management line item. In return, \$10.0 million of State Trunkline Fund authorization is shifted from the Program Development and Delivery line item to State Trunkline Federal Aid and Road and Bridge Construction. This transfer is intended to more accurately balance funding authorization between Design and Engineering organizational units and to support the department's Intelligent Transportation Services functions. The transfer will also help the department to match federal-aid highway funds by providing additional State Trunkline Fund authorization available for capital road projects.
