Overview

The Community Colleges budget, contained in Article II of the compiled School Aid Act, provides funding for operational support of the 28 public community colleges located throughout the state and some retirement costs for employees who participate in the state public school employee retirement system. Community colleges offer a wide variety of educational programs, including traditional two-year transfer programs, associate degrees, career and technical education, developmental and remedial education, continuing education, and baccalaureate programs in a limited number of areas. The colleges are supported primarily through a combination of state aid, local property tax revenue, and tuition and fees.
